Chairman's Statement

On behalf of the Board, I hereby present to the shareholders the results of the Group for the year ended 31 March 2026 ("FY2026" or the "Year").

RESULTS

The Group continued to operate in three business segments, namely, forest-related business comprising timber supply chain and sustainable forest management and money lending business.

For FY2026, the Group recorded a 36% decline in revenue to HK\$111,176,000 (2025: HK\$174,725,000) and a profit attributable to owners of the Company of HK\$44,280,000 (2025: a loss of HK\$16,548,000). The Group as a whole recorded a net profit of HK\$36,519,000 (2025: a net loss of HK\$26,778,000), with a loss of HK\$7,761,000 (2025: HK\$10,230,000) being shared by the non-controlling interests.

For the Year, the overall performance of the Group has been affected by several significant factors. In particular, our core timber supply chain operation (the "TSC Operation") came under substantial pressure due to global political uncertainties, including the US-Israel-Iran War, the continuous Russo-Ukrainian War, and the ongoing tariff wars. Ongoing geopolitical instability has created uncertainty in the market, continuously making it difficult for businesses to plan effectively. Additionally, the real estate market in China has faced considerable challenges, leading to reduced investment and slower growth. On a positive note, the Hong Kong property market is picking up from its recent low, providing a better environment for our money lending business.

The profit incurred by the Group was mainly attributed to the combined effect of (i) the loss recorded by the Group's TSC Operation primarily due to the decline in its revenue, the squeeze in its profit margin, and the impairment loss on certain trade receivables; (ii) the loss recorded by the Group's money lending operation primarily due to the decline in its revenue resulted from the reduced size of its loan portfolio during the Year and impairment loss on certain loan receivables and repossessed assets, which were outweighed by (iii) the net fair value gain on financial assets at fair value through profit and loss ("FVPL") of HK\$51,166,000 and the net gain on disposal/redemption of financial assets at FVPL of HK\$14,130,000. Overall speaking, the money lending recorded a loss of HK\$4,064,000 (2025: HK\$4,332,000), whilst the TSC Operation recorded a loss of HK\$15,393,000 (2025: HK\$17,541,000) for the Year.

PROSPECTS

We anticipate that the challenging business climate will carry into the new financial year. Against this backdrop, management is committed to alleviating the pressure on the Group's operations and proactively scouting for opportunities that can create value. Every initiative will be assessed with the overriding goal of protecting and advancing the interests of our shareholders. Prudence, adaptability, and disciplined execution will guide us through the uncertain times ahead.

Chairman's Statement

APPRECIATION

FY2026 continued to be a challenging year for the Group. I would like to express my sincere gratitude to all shareholders, bankers, business associates, suppliers and customers for their continuing support to the Group, and to my fellow directors and all staff members for their valuable contributions and hard work during the past year.

Yang Zheng

Chairman

Hong Kong, 26 June 2026

Management Discussion and Analysis

BUSINESS REVIEW

For the year ended 31 March 2026 (“**FY2026**” or the “**Year**”), the Group operated in three business segments, namely, forest-related business comprising timber supply chain and sustainable forest management, and money lending business.

For FY2026, the Group recorded an approximately 36% decrease in revenue, amounting to HK\$111,176,000 (2025: HK\$174,725,000) and a profit attributable to owners of the Company of HK\$44,280,000 (2025: a loss of HK\$16,548,000). The Group as a whole recorded a net profit of HK\$36,519,000 (2025: a loss of HK\$26,778,000), with a loss of HK\$7,761,000 (2025: HK\$10,230,000) being shared by the non-controlling interests. The profit recorded by the Group was mainly attributed to the combined effect of (i) the loss recorded by the Group’s timber supply chain operation (the “**TSC Operation**”) primarily due to the persistent weak demand in China’s real estate market, geographical political instability including the US-Israel-Iran War and the continuous Russo-Ukrainian War, the uncertainty in the US tariff policies, squeeze in profit margin, the surge in operating costs in Europe and the impairment loss on trade receivables; (ii) the loss recorded by the Group’s money lending operation primarily due to the decline in its revenue resulted from the reduced size of its loan portfolio during the Year and the net impairment change and written-off of certain loan receivables and impairment loss on repossessed assets; and (iii) there were net fair value gain on financial assets at fair value through profit and loss (“**FVPL**”) and net gain on disposal/redemption of financial assets at FVPL.

Forest-related Business

Timber Supply Chain

During FY2026, the Group’s TSC Operation continued with its strategic plan of building a global network of supply sources of timber to serve its customers predominantly in China as well as in other countries. Our TSC Operation encompasses all value-added activities typical of the industry, including plantation and harvesting rights, sourcing and procurement, timber harvesting and logging, quality inspection, land and sea transport, wood processing, inventory management, customs clearance, sales and marketing, and after-sales services.

Management Discussion and Analysis

The following flowchart depicts the typical operation flow of a timber supply chain business:

Plantation & Harvesting rights: forest plantation, harvesting rights management, trees are harvested according to an agreed harvesting plan which is essential for sustainable and responsible forest management.

Sourcing & Procurement: market analyses on demand of timber and wood products are performed and purchases will be made at the best price available after negotiation with suppliers.

Harvesting & Logging: on-site selection of forest area to be harvested, formulate harvesting plan, arrangement of manpower, machinery and equipment for logging activities.

Quality inspection & Land transport: after on-site quality inspection, timber and wood products will be transported to log yards via rails and/or trucks.

Wood processing: deliver timber to processing plant for processing into wood products, production and quality control management.

Inventory management: maintain inventories in the distribution hubs and processing plants to readily meet the orders from customers and regularly advise the sales team in respect of availability of inventories.

Custom clearance: prepare documents to facilitate export and assist customers in importing cargoes in the buyers' country.

Quality inspection & Sea transport: after quality inspection, timber and wood products will be transported to customers via vessels or containers.

Selling & Marketing: timber and wood products are sold to customers in China and other countries, after-sales services will be provided to ensure customer satisfaction.

The Group continued to operate a fully functional lumber processing plant in Romania, with a designated product capacity of up to 8,000 m³ of wood lumber per annum. During the Year, the Group strived to improve its production scale and exploring new product types to better meet client needs.

To further business development in Europe, the Group entered into a cooperation agreement with Guangxi Fenglin Wood Industry Group Co., Ltd., a company listed on Shanghai Stock Exchange to jointly develop the EU market for wood boards and related products. For details, please refer to the Company's announcement dated 22 December 2025. However, progress under this agreement has been hindered by stringent EU compliance requirements and elevated operating costs in the region, and as a result, no material development was achieved during the Year.

Management Discussion and Analysis

Separately, the Group established a regional office in Vietnam and commenced timber supply chain operations in the country during the Year. However, progress in this business has been constrained by tariff policies implemented by the United States.

For FY2026, the Group's TSC Operation recorded an approximately 36% decline in revenue, amounting to HK\$108,165,000 (2025: HK\$170,127,000) and an decrease in loss, amounting to HK\$15,393,000 (2025: HK\$17,541,000).

The decrease in revenue and the loss-making results of the TSC Operation were mainly due to (i) weak market performance in the real estate industry in China; (ii) ongoing global geopolitical instability; (iii) the uncertainty created by the recent US tariff policies; and (iv) the impairment loss on certain trade receivables. However, owing to stringent cost control policies in our operation in Europe, the operating loss has been reduced as compared to the prior year.

Sustainable Forest Management

At 31 March 2026, the Group was not holding any forest assets, nevertheless, the Group continues to seize investment opportunities in forest assets for the development of its sustainable forest management business.

Money Lending Business

The Group's money lending business is conducted through Reliance Credit Limited and Reliance Capital Finance Limited during the Year, both of which are indirect wholly-owned subsidiaries of the Company, and are licensed to conduct money lending activities under the Money Lenders Ordinance. The Group aims to make loans that could be covered by sufficient collateral, preferably commercial and residential properties in Hong Kong, and to borrowers with good credit history. The Group has a stable source of loan deals through referrals from its marketing agents, cooperation with property agents and participation in co-lending activities, as well as through advertisements in traditional and digital media.

For FY2026, the Group's money lending business recorded an approximately 35% decline in revenue, amounting to HK\$3,011,000 (2025: HK\$4,598,000) and a loss of HK\$4,064,000 (2025: HK\$4,332,000). The decline in revenue of the business was mainly due to the reduced size of its loan portfolio when compared to the prior year, primarily owing to the cautious approach of the management in granting new loans in view of the economic conditions in Hong Kong during FY2026, including the general fall in property price during the Year, whilst the loss suffered was mainly due to the combined effect of (i) the decline in interest income to HK\$3,011,000 (2025: HK\$4,598,000), (ii) the recognition of net impairment gain on loan receivables of HK\$12,353,000 (2025: a loss of HK\$3,581,000) and (iii) the net impairment loss on repossessed assets of HK\$759,000 (2025: HK\$2,442,000); (iv) recognition of impairment loss on intangible assets of HK\$174,000 (2025: nil) and (v) the written off of certain loan receivables and interest receivables of HK\$17,070,000 (2025: HK\$654,000). The impairment loss on loan receivables was determined after performing assessment on the current creditworthiness of the borrowers on an individual basis by considering factors including their repayment history and value of collateral provided, and the credit status of the Group's loan portfolio on a collective basis in light of the current economic and market conditions in Hong Kong. The reversal of impairment loss on loan receivables, on the other hand, was determined based on the recoveries from borrowers of certain credit-impaired loans. The impairment loss on repossessed assets, being properties in Hong Kong, was determined based on a valuation of the repossessed assets by a professional valuer engaged by the Group.

Management Discussion and Analysis

At 31 March 2026, the Group's loan portfolio was constituted by 6 loans (2025: 12 loans), there were 5 loans (2025: 8 loans) with a carrying amount totalling HK\$29,663,000 (2025: HK\$36,044,000) (net of impairment allowance on loan receivables of HK\$60,000 (2025: HK\$12,413,000)) granted to 5 borrowers (2025: 8 borrowers), and 1 credit-impaired loan (2025: 4 credit-impaired loans) being classified as repossessed assets with carrying amount totalling HK\$12,595,000 (2025: HK\$39,626,000) (net of impairment allowance on repossessed assets of HK\$5,527,000 (2025: HK\$4,768,000)) after the Group took possession of the collateral assets. Details of the Group's loan portfolio (excluding credit-impaired loans classified as repossessed assets) are as follows:

Type of loan	Approximate weighting to the carrying amount of the Group's loan portfolio	Interest rate per annum	Original maturity	Remarks
First mortgage loans	20%	12%	Within one year	Loans were secured by properties located in Hong Kong
Second mortgage loan	39%	12%	Within two years	Loan was secured by properties located in Hong Kong
Personal loan	41%	9%	Within two years	Loan was secured by collateral
Total	100%			

At 31 March 2026, on a net of impairment allowance basis, the size of individual loans comprising the Group's loan portfolio ranged from approximately HK\$2,236,000 to HK\$12,000,000 (2025: from HK\$2,772,000 to HK\$16,690,000). The Group's loan portfolio had an average loan size of around HK\$5.9 million (2025: HK\$4.5 million), it was credit healthy as 100% (2025: 100%) of the portfolio was secured by collateral, and earning a satisfactory return with weighted average interest rate amounting to approximately 11% (2025: 11%). The loans were granted to Hong Kong residents. Collateral of the mortgage loans were residential properties situated in Hong Kong with a total valuation attributable to the Group of around HK\$29 million (2025: HK\$28 million) as of 31 March 2026. Collateral of personal loan was shares of an unlisted company with sufficient assets.

Management Discussion and Analysis

Before granting loans to potential borrowers, the Group performs credit assessment process to assess the potential borrowers' credit quality individually and defines the credit limits granted to the borrowers. The credit assessment process encompasses detailed assessment on the credit history and financial background of the potential borrowers, as well as the value and nature of the collateral to be pledged. The credit limits of loans successfully granted to the borrowers are reviewed by the management regularly as part of the ongoing loan monitoring process.

Risk management is an integral part of the success of the money lending business. The Group has clear credit policies, guidelines, controls and procedures in place which cover every aspect of the operation from information verification, credit assessment, loan approval, loan monitoring to collection. The operation has clear authorisation and approval hierarchy and is led and managed by a team of qualified and experienced personnel. The management team is able to deliver expedite credit approval process to customers without compromising the commercial benefits of the lending decisions made.

The following flowchart depicts the typical operational procedures in processing a loan application:

Verification: documents and information provided by the loan applicant will be verified by the delegated loan officer and where appropriate, legal and credit search on the loan applicant will be conducted.

Assessment: credit assessment on the loan applicant will be performed by the delegated loan officer and reviewed by the supervising officer, by making reference to the financial background and credit history of the applicant, and value of the collateral provided (if any), where appropriate, the credit assessment on the applicant will be further reviewed by the responsible director.

Approval: if the loan application is approved, the delegated loan officer will arrange preparation and signing of the loan documentation and the supervising officer will ensure their proper execution, including drawdown of the loan proceeds by the applicant.

Monitoring: there will be continuous monitoring on loan repayments from individual borrower by the loan officer and regular review if there are material changes of the borrower's repayment ability by the supervising officer, where appropriate, impairment allowance on individual loan will be made if there is deterioration of credit quality of the loan with approval from the responsible director.

Collection: will make calls and send reminders to individual borrower for overdue loan repayment and when there is a default of loan repayment, will take appropriate enforcement action, including legal action, to recover the loan.

Management Discussion and Analysis

The credit risk assessment process on the loan applicants typically involves (i) obtaining identity proof of the borrowers, and land search and preliminary valuation on the properties to be mortgaged; (ii) ascertaining the financial condition of the loan applicants by reviewing the income/asset proof of the individual borrowers and financial reports of the corporate borrowers, and to determine whether their regular income is sufficient to cover their loan repayment obligations; and (iii) conducting litigation and bankruptcy searches and credit search on the loan applicants. The information collected will then be input into the Group's credit risk rating system and the result of the credit assessment process on the loan applicant, together with the valuation of the property(ies) to be mortgaged performed by the independent valuer engaged by the Group (where appropriate), will be reviewed by the responsible director. The Group has also formulated credit policy and operation procedures which set out the acceptable types of identity proof, income/asset proof, financial report and collateral, and the criteria in determining loan tenor, loan size and charging interest rate. All loan applications are subject to the final approval of the respective board of directors of the Company's money lending subsidiaries and the Company's board of directors if a loan application constitutes a notifiable transaction under the Listing Rules.

In addition, the Group will also observe the requirements to comply with the anti-money laundering and counter-terrorist financing regulations in conducting its money lending business.

To lower the Group's exposure to the credit risk of property-backed loans, the percentage of loan-to-value for new drawdown will normally be within 80%. Onsite inspection of the property to be mortgaged may also be arranged where appropriate.

The loan officer and supervising officer are required to report any material loan defaults immediately upon occurrence to the management, and to report to the management on the remedial actions undertaken on a regular basis.

In respect of delinquent loans, the Group will issue standard demand letters. If satisfactory response is not received, the Group will instruct lawyers to issue formal legal demand letters. Thereafter, formal legal proceedings, including actions for taking possession of the collateral, may be commenced against the borrowers where appropriate.

The Group has a system in place to closely monitor the recoverability of its loan portfolio. Its credit monitoring measures include regular collateral reviews against market information and regular communication with the borrowers of their financial positions, through which the Group will be able to keep updated with the latest credit profile and risk associated with each individual borrower and could take appropriate actions for recovery of a loan at the earliest time. If circumstances require, the Group will commence legal actions against the borrowers for recovery of the overdue loans and taking possession of the collateral pledged.

Management Discussion and Analysis

The Group performs impairment assessment on loan receivables under the expected credit loss (“ECL”) model. The measurement of ECL is a function of the probability of default, the loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default (i.e. the magnitude of the loss after accounting for value of the collateral if there is a default). The assessment of probability of default and loss given default is based on historical data and forward-looking information, whilst the valuation of the properties and assets pledged to the Group as collateral are performed by independent professional valuer engaged by the Group at each reporting date for the purpose of determining ECL. In accordance with the Group’s loan impairment policy, the amount of ECL is updated at each reporting date to reflect the changes in credit risk on loan receivables since initial recognition. For FY2026, the net impairment allowance recognised primarily represented the credit risk involved in collectability of certain default and non-default loans determined under the Group’s loan impairment policy, with reference to factors including the credit history and financial conditions of the borrowers, the aging of the overdue balances, the realisation value of the collateral pledged to the Group, and forward-looking information including the future macroeconomic conditions affecting the borrowers (the state of economy in Hong Kong had also been considered).

In assessing ECL, the loan receivables have been assessed with reference to the latest analysis on credit rating of the loans on individual and collective basis. The Group’s loan portfolio mainly comprised mortgage loans, and the loan-to-value ratio for each of the mortgaged properties have been under regular review. For corporate loan, the credit rating of the loan was analysed with reference to the borrowers’ creditworthiness and credit history, including its financial position, previous records of default in payment, value of collateral pledged (if any) and prevailing market conditions. For FY2026, a net impairment gain on loan receivables of HK\$12,353,000 (2025: impairment loss of HK\$3,581,000) was recognised with the balance of the impairment allowance decreased to HK\$60,000 at 31 March 2026 (2025: HK\$12,413,000). The net impairment gain of HK\$12,353,000 was determined in accordance with the Group’s loan impairment policy.

Management Discussion and Analysis

FINANCIAL REVIEW

Overall Results

For FY2026, the Group recorded profit attributable to owners of the Company of HK\$44,280,000 (2025: a loss of HK\$16,548,000), and basic earnings per share was approximately HK4.05 cent (2025: loss per share of HK1.57 cent). The Group as a whole recorded a net profit of HK\$36,519,000 (2025: net loss of HK\$26,778,000), with a loss of HK\$7,761,000 (2025: HK\$10,230,000) being shared by the non-controlling interests. The total comprehensive income attributable to owners of the Company was HK\$45,268,000 (2025: comprehensive expense of HK\$16,785,000), after having recognised the other comprehensive income of HK\$1,940,000 (2025: expense of HK\$464,000) representing the exchange differences on translation of financial statements of foreign operations.

Revenue

The decrease in the revenue by approximately 36% to HK\$ 111,176,000 (2025: HK\$174,725,000) was mainly due to the drop in the revenue of TSC Operation during the Year.

Other Income

During the Year, the Company has applied idle cash to invest in some listed and unlisted securities in Hong Kong for treasury purpose. The increase in the other income from HK\$3,762,000 to HK\$65,876,000 was mainly due to the recording net fair value gain on financial assets at FVPL of HK\$51,166,000 (2025: HK\$5,732,000) and net gain on disposal/redemption of financial assets at FVPL of HK\$14,130,000 (2025: loss of HK\$2,260,000).

Administrative Expenses

Administrative expenses decreased by approximately 17% to HK\$22,465,000 (2025: HK\$27,035,000), mainly as a result of the combined effects of a shift from exchange loss to gain, decrease in staff costs, and increase in professional fees.

Other Operating Expenses

The other operating expenses remained stable and amounted to approximately HK\$9,687,000 (2025: HK\$9,839,000) which mainly included written off of loan receivables, net impairment gain on loan receivables, net impairment losses on trade and other receivables, repossessed assets and intangible assets.

Net Finance Income

Net finance income of HK\$115,000 (2025: HK\$1,039,000) was recorded during the Year. The decrease was mainly due to the drop in bank interest and other interest during the Year.

Fund Raising

On 21 June 2024, an aggregate of 1,822,980,000 new ordinary shares of the Company were successfully placed under the general mandate (the “**Placing**”). The gross and net proceeds from the Placing were approximately HK\$35.18 million and HK\$34.27 million respectively. For the net proceeds, the Company intended to use (i) 60% for the expansion of the Group’s TSC Operation chain business and (ii) the remaining 40% as general working capital for the Group. The amount of unutilised net proceeds brought forward to the beginning of the Year was approximately HK\$4.59 million.

Management Discussion and Analysis

The following table illustrates the status of the use of net proceeds during the Year:

		Planned use of proceeds as disclosed in the announcement dated 29 May 2024 <i>HK\$ million</i>	Actual amount utilized during the year ended 31 March 2025 <i>HK\$ million</i>	Unutilized amount as at 1 April 2025 <i>HK\$ million</i>	Actual amount utilized during the Year <i>HK\$ million</i>	Unutilized amount as at 31 March 2026 <i>HK\$ million</i>
Expansion of the Group's timber supply chain business	60%	20.56	(17.82)	2.74	(2.74)	-
General working capital	40%	13.71	(11.86)	1.85	(1.85)	-
Total	100%	34.27	(29.68)	4.59	(4.59)	-

Liquidity and Financial Resources

The Group adopts conservative treasury policies in cash and financial management. The Group's capital structure, liquidity and financing requirements are reviewed regularly. The Group will strive to maintain a strong capital structure when considering financing. For FY2026, the Group financed its businesses mainly by cash generated from operations, the bills discounting facilities provided by banks, investment income and the proceeds from the Placing.

At 31 March 2026, the Group had current assets of HK\$305,867,000 (2025: HK\$235,973,000) and cash and cash equivalents of HK\$50,916,000 (2025: HK\$64,905,000). The Group's current ratio, calculated based on current assets over current liabilities of HK\$66,500,000 (2025: HK\$51,244,000), was at a strong ratio of about 4.6 (2025: 4.6).

At 31 March 2026, the bank borrowings amounted to HK\$50,158,000 (2025: HK\$41,638,000). The bank borrowings represented the advances to the Group for the bill receivables discounted to banks with full recourse. The bank borrowings bore interests at floating rates, secured by the relevant bill receivables and were repayable in accordance with the terms of the bills. As at 31 March 2026, the bank borrowings were denominated in Renminbi while the cash and cash equivalents were mainly denominated in Hong Kong dollar, United States dollar, Euro, Romanian Leu, Renminbi and Vietnamese Dong.

The Group's gearing ratio expressed as a percentage of the total borrowings over the equity attributable to owners of the Company. At 31 March 2026, the equity attributable to owners of the Company increased by approximately 18% to HK\$303,813,000 (2025: HK\$258,545,000), while the total borrowings were HK\$50,158,000 (2025: HK\$41,638,000). As such, the gearing ratio was 17% (2025: 16%).

With the amount of liquid assets on hand, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirement and future business development.

Management Discussion and Analysis

Material Acquisitions and Disposals

During the Year, there was no significant investment, material acquisition or disposal of subsidiaries, associates and joint ventures by the Company.

On 16 September 2025, Reliance Global Capital Limited ("**Reliance Global Capital**"), a company incorporated in BVI with limited liability and a wholly-owned subsidiary of the Company entered into an agreement (the "**Agreement**") with AZIO Corporation ("**AZIO**"), HK Chuang Xin Qi Trading Co., Limited ("**HK Chuang Xin Qi**") and Mega Link International Limited ("**Mega Link**") pursuant to which the parties agreed to develop and operate forestry robotics related business in an associate company (the "**Associate**").

Pursuant to the terms of the Agreement, the total capital commitment of the Associate shall be HK\$150 million, of which Reliance Global Capital, AZIO, HK Chuang Xin Qi and Mega Link shall contribute HK\$60 million, HK\$60 million, HK\$13.5 million and HK\$16.5 million respectively. The Associate will be owned as to 40% by Reliance Global Capital, as to 40% by AZIO, as to 9% by HK Chuang Xin Qi and as to 11% by Mega Link. The capital commitment will be paid in cash by its shareholders in proportion to their respective equity interests in the Associate within 5 years of establishment of the Associate. For details, please refer to the announcement of the Company dated 16 September 2025.

Reliance Global Capital is able to exercise significant influence over the Associate because it has power to appoint two out of the five directors under the Agreement. The Associate will not be a subsidiary of the Company and its financial results will not be consolidated into the financial statements of the Group.

For the period from entering of the Agreement and up to 31 March 2026 (the "**Reporting Period**"), the Associate has not commenced its planned forestry robotics business operations as originally scheduled. Accordingly, none of the parties of the Associate have made any capital contributions to the Associate in accordance with the Agreement. Meanwhile, the Associate has commenced and engaged in trading of IT accessories as interim business activities during the Reporting Period.

The Group will continue to monitor the market development and progress of the cooperation, and review the timetable for launching the proposed forestry robotics business and arranging the scheduled capital contributions in due course.

Significant Investments Held

During the Year, the Group invested in listed and unlisted securities and recorded as financial assets at FVPL for treasury purposes. As at 31 March 2026, the Group's investment portfolio consists of some listed equity securities in Hong Kong and two unlisted investment funds. The two unlisted private funds are registered funds domiciled in the BVI and the Cayman Islands respectively, which were managed by external professional fund managers, with main investments in listed equity securities and other financial instruments. The Group held significant investments with carrying amounts accounting for 5% or more of the Group's total assets as of 31 March 2026, as detailed below:

1. As at 31 March 2026, the Group held 9,628,000 shares of Hong Kong Zcloud Technology Construction Ltd ("**Zcloud**") (formerly known as Gain Plus Holdings Limited (Stock code: 9900)), which represented approximately 0.32% of the issued shares of Zcloud as at 31 March 2026; and the carrying amount of such investment was approximately HK\$42 million, representing approximately 12% of the Group's total assets as at 31 March 2026. During the Year, the Group recognized a gain on disposal of approximately HK\$7 million and an fair value gain of approximately HK\$27 million. No dividend was received by the Group for the Year.

Management Discussion and Analysis

Zcloud is an investment holding company principally engaged in the construction contractor business. Zcloud mainly provides subcontracting work providing repair, maintenance, and additional and alteration services (“**RMAA**”). The RMAA services include general upkeep, restoration and improvement of existing facilities and components of buildings and their surroundings. In addition, Zcloud also provides construction services, mainly consisting of building works and civil works for new buildings such as columbarium blocks, demolition of staff quarters, road enhancement works and lift tower.

Further to Zcloud’s annual report for the year ended 2024/25, it recorded a 11% increase in revenue to approximately HK\$1,275 million and a 12% increase in profit attributable to owners of the Zcloud to approximately HK\$31 million.

In light of this sound financial performance, the Group believes that Zcloud is well-positioned to take advantage of the ongoing high-demand environment, driven by substantial infrastructure investments in Hong Kong. The Group will continue to monitor the investment and strive for capital appreciation.

2. As at 31 March 2026, the Group held 19,608,000 shares of Rego Interactive Co Ltd (“**Rego Interactive**”) (Stock code: 2422), which represented approximately 1.18% of the issued shares of Rego Interactive as at 31 March 2026; and the carrying amount of such investment was approximately HK\$32 million, representing approximately 9% of the Group’s total assets as at 31 March 2026. The fair value gain is approximately HK\$23 million and no dividend was received during the Year.

Rego Interactive is an investment holding company principally engaged in the provision of marketing and promotion services. Rego Interactive’s main businesses include marketing and promotion services and information technology (IT) solution services. The marketing and promotion services business mainly provides traditional marketing and promotion services, advertisement placement services and advertisement distribution services, as well as virtual goods sourcing and delivery services. The information technology solutions services business mainly provides mobile games, software development and maintenance services, as well as solutions on lottery-related software systems and equipment.

As stated in Rego Interactive’s annual report for the year ended 31 December 2025, Rego Interactive recorded remarkable revenue growth, rising 106% year-on-year to RMB504 million. This surge was mainly driven by the rapid expansion of enterprises’ private domain traffic marketing services. Although margins narrowed and net losses widened, the revenue increase highlights the company’s success in scaling its digitalisation offerings and diversifying its income streams.

Rego Interactive is positioning itself as a leader in AI-driven digitalization. The company plans to (i) accelerate its AI commercialisation; (ii) deepen in the lottery market with sports industry integration and (iii) continue to execute vigorous cost-control measure with the goal of returning to operational profitability in the coming year.

The Group maintains a positive outlook on the long-term development prospects of Rego Interactive. It will continue to closely monitor the performance of the investment and endeavor to capture capital appreciation.

Save as disclosed above, the Group did not have any significant investments that accounted for more than 5% of the Group’s total assets as at 31 March 2026.

Management Discussion and Analysis

In light of the investment and to govern its overall activities, the Company has adopted an internal investment policy (the “**Investment Policy**”) which sets out, among other things, the objectives, guidelines, management and responsibilities of investment activities conducted by the Group. Set out below are the summary of the Investment Policy:

1. *Investment objectives*

The primary objective of the Investment Policy is to ensure that all investment decisions are executed in full compliance with applicable regulatory and statutory obligations, while safeguarding the Group’s financial stability and supporting its strategic goals. The investment activities serve a treasury function by utilising the Group’s idle cash resources and seek to generate capital appreciation to provide financial support to other business segments of the Group.

2. *Investment strategy and scope*

The Group adopts a diversified investment strategy across different asset classes and industry sectors to achieve a balanced risk-return profile. The Group’s permitted investments are confined to liquid securities, including listed equities, bonds, exchange-traded funds, registered private funds and other money market instruments. Speculative and complex derivative trading, as well as the use of leverage for investment purposes, are strictly prohibited except those conducted by licensed fund managers of any funds invested by the Group at their own discretion and not initiated by the Group. Investments are generally held for a short-to-medium term horizon, although the actual holding period may vary depending on market conditions and the Group’s ongoing liquidity requirements.

3. *Significant investments*

Any investment whose carrying value equals or exceeds 5% of the Group’s total assets, as derived from the latest consolidated financial statements, is classified as a significant investment. All significant investments are subject to close and ongoing monitoring by the management. The performance of each significant investment, including any material changes in its carrying value or risk profile, shall be formally disclosed in the Group’s annual and interim reports to ensure transparency and adequate information for shareholders and stakeholders.

4. *Approval and oversight mechanism*

The Board has the ultimate authority and responsibility for the Group’s investment activities. The Board may designate the executive Directors of the Company as the responsible persons for the Group’s investment activities, who are tasked with reviewing, approving and executing investment and disinvestment proposals within their delegated authority, and overseeing the entire investment process and portfolio performance.

Any investment or disinvestment proposal that is considered material in size or that triggers a notifiable transaction threshold under the Listing Rules must be submitted to and approved by the Board.

The Company’s finance department prepares detailed investment and divestment proposals for Directors’ review, and continuously monitors investment performance to report outcomes to the Board.

To ensure full regulatory compliance, all investment and disinvestment proposals shall be provided to the company secretary of the Company, who will consider whether any announcement or other disclosure obligation arises under the Listing Rules or other applicable regulations.

Management Discussion and Analysis

5. *Risk management and control measures*

To mitigate concentration risk, the investment cost of any single investment shall not exceed 5% of the Group's total assets, with reference to the latest consolidated financial statements. Any proposed investment that would exceed this threshold requires prior approval from the Board.

All investment funds are sourced exclusively from the Group's internal resources, and no external borrowings are utilised for general investment purposes. The finance department is responsible for performing regular cash flow monitoring, reconciling investment portfolios, and conducting monthly reviews to ensure that the Group maintains sufficient liquidity to meet its operational requirements. These measures are designed to proactively manage liquidity risk.

Counterparty risk is controlled by transacting exclusively through licensed and reputable brokers, as well as through approved and registered funds. All counterparties are subject to initial due diligence and ongoing credit monitoring within the limits prescribed by this Policy.

Going forward, the Directors expect that the future performance of the Group's investments may be volatile and may be materially influenced by the general economic environment, equity market conditions, investor sentiment, as well as the operating performance and development of the investee companies. In light of this, the Group will continue to maintain a diversified investment portfolio across various industries in order to mitigate potential financial risks. The Directors will assess the performance of the investment portfolio on an ongoing basis to ensure prudent oversight.

The Investment Policy will be reviewed periodically by the Directors to adapt to prevailing market conditions and the Group's funding requirements.

Management Discussion and Analysis

Future Plans for Material Investments or Capital Assets

Save for the Associate mentioned in the “Material Acquisition and Disposal” on page 16, the Group did not have any future plans for material investments or capital assets as at the date of this report.

Charge on Asset

At 31 March 2026, bill receivables of HK\$50,158,000 (2025: HK\$41,638,000) were pledged to banks to secure the advances drawn on the bill receivables.

Contingent Liabilities

At 31 March 2026, the Group had no significant contingent liability (2025: nil).

Litigation

At 31 March 2026, there was no significant litigation claim against the Group (2025: nil).

Foreign Exchange Risk

The Group mainly operates in Europe and Asia. During FY2026, the revenue, costs and expenses of the Group’s operations were mainly denominated in Hong Kong dollar, United States dollar, Euro, Romanian Leu, Renminbi and Vietnamese Dong.

The Group maintains a prudent strategy in its foreign currency risk management, where possible, foreign exchange risks are minimised via balancing the foreign currency monetary assets versus the corresponding foreign currency liabilities, and foreign currency revenues versus the corresponding foreign currency expenditures. The Group is not subject to foreign exchange risk of United States dollar as it is pegged to the Hong Kong dollar, the Group is nevertheless exposed to potential foreign exchange risk as a result of the fluctuations of Euro, Romanian Leu, Renminbi and Vietnamese Dong. In addition, some of the Group’s assets are located in Europe and Asia while the Group’s reporting currency is in Hong Kong dollar, this also exposes the Group to potential foreign exchange risk upon translation of these assets on each reporting date.

For FY2026, the Group incurred net exchange gain of HK\$960,000 (2025: a loss of HK\$1,737,000) charged to profit or loss largely due to the fluctuation of Euro. As for Romanian Leu, Renminbi and Vietnamese Dong, the Group’s exposure to their exchange rate fluctuations were not significant as their weightings to the Group’s total transaction volume, assets and liabilities were low. Any foreign exchange gains or losses due to the translation of the carrying value of the assets of foreign operations to the Group’s reporting currency on the reporting dates are unrealised and non-cash in nature, accordingly, the Group has not entered into any arrangements or financial instruments for the purpose of hedging against these potential foreign exchange risks. For FY2026, the Group recorded other comprehensive income representing an exchange gain of HK\$1,940,000 (2025: a loss of HK\$464,000) resulted from the translation of the financial statements of the Group’s operations.

Management Discussion and Analysis

HUMAN RESOURCES AND REMUNERATION POLICY

At 31 March 2026, the Group had 56 employees (including directors) (2025: 53) stationed in Hong Kong, Europe and China. For FY2026, the total remuneration paid by the Group to its employees (including directors) decreased by approximately 8% to HK\$12,438,000 (2025: HK\$13,466,000), and was mainly a result of the decrease in headcount of the Group's operations in Europe during the year. The Group rewards its employees (including directors) according to prevailing market terms, individual competence, experience and performance, and requirements under the applicable labour laws where the Group's operations are located. The Group has also adopted a share option scheme to provide incentives or rewards to its directors, employees and others for their contribution to the growth and development of the Group. The Group operates a Mandatory Provident Fund Scheme (the "**MPF Scheme**") for its employees in Hong Kong and participates in other central pension schemes (the "**Central Pension Schemes**") operated by the local municipal governments for its employees in Europe. In addition to the provision of paid holidays, annual bonus, medical insurance and subsidised training programme, employees (including directors) may also be entitled to discretionary performance bonus.

The Group's contributions to the MPF Scheme and the Central Pension Schemes are calculated as a percentage of the employees' relevant income and vest fully and immediately with the employees, thus there were no forfeited contributions available to the Group to reduce the existing level of contributions to the MPF Scheme and the Central Pension Schemes.

PRINCIPAL RISK AND UNCERTAINTIES

The Group is principally engaged in the businesses of forest-related business comprising timber supply chain and sustainable forest management, and money lending. The financial position, operations, businesses and prospects of the Group and its individual business segment are affected by the following significant risk and uncertainty factors:

Business Risk

The global economic conditions and the state of international financial and investment markets, including the economy, financial and investment markets of Hong Kong, Mainland China and Europe, of which the Group has no control, have significant influences on the business and financial performance of the Group. The management policy to mitigate this risk is to diversify the Group's businesses and to diversify its investments (where possible) within the same business.

Market Risk

The Group's money lending business and timber supply chain business are operating in a competitive environment that exert pressure on the revenue and profitability of these businesses. The management policy to mitigate this risk is to continue to put effort in enlarging the market share and enhancing the market competitiveness of these businesses by various means.

Management Discussion and Analysis

Natural Risk

The ability to harvest wood and the growth of trees in forests may be affected by unfavourable local weather conditions and natural disasters. Weather conditions such as floods, droughts, cyclones and windstorms and natural disasters such as earthquakes, fire, disease, insect infestation and pests are examples of such events. The occurrence of severe weather conditions or natural disasters may diminish the supply of trees available for harvesting, or otherwise impede the logging operations or the growth of trees in forests, which in turn may have an adverse effect on the Group's forest-related business.

Financial Risk

The Group is exposed to financial risks relating to credit risk, liquidity risk, foreign currency risk and interest rate risk in its ordinary course of business. Further details of such risks and the relevant management policies are set out in note 34 to the consolidated financial statements.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

As far as the Board and management are aware, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the businesses and operations of the Group. During FY2026, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group understands the importance of maintaining a good relationship with its employees, customers and suppliers to meet its immediate and long-term business goals. During FY2026, there was no significant dispute between the Group and its employees, customers and suppliers.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group encourages environmental protection and adopts measures to promote environmental awareness of its employees. The Group implements green office practices by encouraging employees to make use of e-statements or scanning copies, adopt double-sided printing and copying and set up recycle boxes for reducing and disposing of waste. The Group also reduces greenhouse gas emissions by switching off idle lightings and other office equipment after normal working hours. When developing the Group's businesses, in particular the forest-related business, the Group strictly complies with the applicable local laws, rules and regulations in relation to environmental protection. The Group regularly reviews its environmental practices for further improvements. Further details on the Group's environmental policies and performance are set out in the "Environmental, Social and Governance Report" on pages 50 to 81 of this annual report.

Biographical Details of Directors and Senior Management

The biographical details of Directors and senior management as at the date of this report are set out below:

He has extensive experience in corporate management and business development.

* the executive directors are considered to be the senior management of the Company.

Report of the Directors

The Directors are pleased to present this report and the audited consolidated financial statements of the Company for the year ended 31 March 2026.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activities of the Company are investment holding and provision of management services. The principal activities of its principal subsidiaries are set out in note 39 to the consolidated financial statements.

The business review as required by Schedule 5 to the Hong Kong Companies Ordinance, including the fair review of the Group's businesses, the principal risks and uncertainties the Group facing, the particulars of important events affecting the Group that have occurred since the end of the financial year, the indication of likely future developments in the Group's businesses, the analysis of the performance of the Group during the year with reference to key financial performance indicators, the key relationships with employees, customers, suppliers and other stakeholders and the compliance with the relevant laws and regulations, can be found in the "Chairman's Statement", "Management Discussion and Analysis" and the "Corporate Governance Report" sections set out on pages 5 to 6, pages 7 to 22 and pages 34 to 49 of this annual report, respectively. In addition, discussions on the Group's environmental policies and performances and further discussions on the Group's key relationships with employees, customers, suppliers and other stakeholders are contained in the section "Environmental, Social and Governance Report" set out on pages 50 to 81 of this annual report. All these references made to other sections form part of this review.

RESULTS

The results of the Group for the year ended 31 March 2026 are set out in the consolidated statement of profit or loss and other comprehensive income on page 88.

DIVIDEND

The Board does not recommend the payment of a final dividend for the year ended 31 March 2026 (2025: nil). No interim dividend was declared during the year (2025: nil).

FIVE-YEAR FINANCIAL SUMMARY

A summary of the published results and assets and liabilities of the Group for the last five financial years, as extracted from the audited consolidated financial statements of the Company, is set out on page 178. This summary does not form part of the audited consolidated financial statements.

PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS

Details of movements in property, plant and equipment and intangible assets of the Group during the year are set out in notes 15 and 17 to the consolidated financial statements, respectively.

Report of the Directors

SHARE CAPITAL

Details of the Company's share capital are set out in note 29 to the consolidated financial statements.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Company's Bye-laws or the applicable laws of Bermuda which would oblige the Company to offer new shares on a pro-rata basis to existing Shareholders.

TAX RELIEF AND EXEMPTION

The Directors are not aware of any tax relief and exemption available to the Shareholders by reason of their holdings of the Company's securities.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year ended 31 March 2026, neither the Company, nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities (including sale of treasury shares, if any) (2025: nil). As at 31 March 2026, the Company did not hold any treasury shares.

RESERVES

Details of movements in the reserves of the Company and of the Group during the year are set out in note 30 to the consolidated financial statements and in the consolidated statement of changes in equity, respectively.

DISTRIBUTABLE RESERVES

As at 31 March 2026, share premium of HK\$86,607,000 (2025: HK\$86,607,000) which forms part of the Company's reserves is distributable in the form of fully paid bonus shares, and contributed surplus of HK\$3,036,821,000 (2025: HK\$3,036,821,000) is distributable in certain circumstances. The Company had no other reserve available for distribution as computed in accordance with the Companies Act 1981 of Bermuda.

MAJOR CUSTOMERS AND SUPPLIERS

During the year, revenue from the Group's five largest customers accounted for approximately 92% of the total revenue for the year and revenue from the largest customer accounted for approximately 53%. Purchases from the Group's five largest suppliers accounted for approximately 92% of the total purchases for the year and purchases from the largest supplier accounted for approximately 54%.

None of the Directors or any of their close associates or any Shareholders (which, to the best knowledge of the Directors, own more than 5% of the Company's issued shares) had any interest in the Group's five largest customers or suppliers during the year.

Report of the Directors

CHANGE OF SUBSTANTIAL SHAREHOLDER

On 25 April 2025, Ms. Wang Jingyu ("**Ms. Wang**") disposed her 100% shareholding in Champion Alliance Enterprises Limited ("**Champion Alliance**"), which holding 244,435,994 ordinary shares of the Company (representing approximately 22.35% of the total issued Shares), to Able King International Group Limited ("**Able King**"), an investment holding company and was ultimately wholly-owned by Mr. Yang Zheng ("**Mr. Yang**") on the same date ("**Disposal**"). Immediately after completion of the Disposal, (i) Ms. Wang ceased to have any interest in the Shares and ceased to be a substantial Shareholder; and (ii) Mr. Yang and Able King became substantial Shareholders. For details, please refer to the announcement of the Company dated 25 April 2025.

DIRECTORS

The directors of the Company during the year and up to the date of this report were:

Executive Directors:

Mr. Yang Zheng (*appointed on 29 April 2025*)

Ms. Yiu Wai Yee, Catherine

Ms. Wang Jingyu (*resigned on 25 April 2025*)

Mr. Lai Ming Wai (*retired on 30 September 2025*)

Independent Non-Executive Directors:

Mr. Fung Kim Shun

Ms. Han Li (*appointed on 29 April 2025*)

Mr. Lin Wei Qiao (*appointed on 2 May 2025*)

Mr. Chai Chi Keung (*resigned on 29 April 2025*)

Mr. Wong Chi Kit (*resigned on 2 May 2025*)

In accordance with Bye-law 87(2) of the Company's Bye-laws, Ms. Yiu Wai Yee, Catherine and Mr. Fung Kim Shun will retire by rotation at the forthcoming annual general meeting of the Company (the "**2026 AGM**") and, being eligible, offer themselves for re-election at the 2026 AGM.

PERMITTED INDEMNITY PROVISION

Pursuant to the Company's Bye-laws, subject to the statutes, the directors for the time being of the Company shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they or any of them, shall or may incur or sustain by reason of any act done, concurred in or omitted in or about the execution of their duty or supposed duty in their respective offices or otherwise in relation thereto except through their own wilful negligence or default, fraud and dishonesty. During the year and as at the date of this report, the permitted indemnity provision was in force and the Company has arranged appropriate directors' and officers' liability insurance coverage for the directors and other officers of the Company.

DIRECTORS' SERVICE CONTRACTS

None of the Directors being proposed for re-election at the 2026 AGM has a service contract with the Company or any of its subsidiaries which is not determinable by the Group within one year without payment of compensation, other than statutory compensation.

Report of the Directors

DIRECTORS' REMUNERATION

Details of the Directors' remuneration are set out in note 10 to the consolidated financial statements.

UPDATE ON DIRECTOR'S INFORMATION

Pursuant to Rule 13.51B(1) of the Listing Rules, the changes in information of the Directors during the year ended 31 March 2026 and up to the date of this annual report are set out below:

1. Ms. Wang resigned as an Executive Director, the Chairlady of the Board and the Chairlady of the Executive Committee on 25 April 2025. On the same day, she disposed her entire equity interests in the Company via disposing her 100% shareholding in an indirect wholly-owned company, Champion Alliance, to Able King, which is ultimately wholly-owned by Mr. Yang. Upon completion of the disposal, (i) Ms. Wang ceased to have any interest in the Shares and ceased to be a substantial shareholder of the Company; and (ii) Mr. Yang and Able King, become substantial shareholders of the Company.
2. Ms. Yiu Wai Yee, Catherine was re-designated from a Member to the Chairlady of the Executive Committee on 25 April 2025 and again re-designated a Member of Executive Committee on 27 June 2025. The salary under her employment contract with the Group was adjusted to HK\$840,000 per annum on 1 August 2025. She resigned as the Company Secretary on 30 September 2025.
3. Mr. Yang was appointed as an Executive Director and a Member of the Executive Committee on 29 April 2025. He was later appointed as the Chairman of the Board and re-designated as the Chairman of the Executive Committee on 27 June 2025. He was appointed as the Chief Executive Officer (the "CEO") on 30 September 2025.
4. Mr. Chai Chi Keung resigned as an Independent Non-executive Director and ceased to act as a Member of each of the Remuneration Committee and the Nomination Committee and the Chairman of the Audit Committee on 29 April 2025.
5. Ms. Han Li was appointed as an Independent Non-executive Director, a Member of each of the Remuneration Committee and the Nomination Committee and the Chairlady of the Audit Committee on 29 April 2025.
6. Mr. Wong Chi Kit resigned as an Independent Non-executive Director and ceased to act as a Member of each of the Audit Committee and the Nomination Committee and the Chairman of the Remuneration Committee on 2 May 2025.
7. Mr. Lin Wei Qiao was appointed as an Independent Non-executive Director, a Member of each of the Audit Committee and the Nomination Committee and the Chairman of the Remuneration Committee on 2 May 2025. He was appointed as an independent non-executive director, the chairman of nomination committee, and a member of audit committee and remuneration committee of Teamway International Group Holdings Limited (listed on the Main Board of the Stock Exchange with stock code: 1239) on 26 June 2026.

Report of the Directors

8. Mr. Lai Ming Wai retired as an Executive Director and ceased to be the CEO and a Member of the Executive Committee on 30 September 2025.

Save as disclosed above, the Company is not aware of other changes in the Directors' information which are required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules.

DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS OF SIGNIFICANCE

Save for the material related party transactions disclosed in note 37 to the consolidated financial statements, no other transactions, arrangements or contracts of significance to which the Company or any of its subsidiaries was a party and in which a director of the Company or an entity connected with a director has or had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

DIRECTORS' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 March 2026, the interests and short positions of the directors and chief executive of the Company in the shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company under section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code contained in the Listing Rules, were as follows:

Long Position in the Shares:

Name of Director	Capacity and nature of interest	Number of Shares held	Approximate percentage of the Company's issued Shares
Mr. Yang	Interest of controlled corporation	244,435,994 (Note 2)	22.35%

Notes:

1. The approximate percentage of the Company's issued Shares was calculated on the basis of 1,093,841,518 Shares in issue as at 31 March 2026.
2. These interests were held by Champion Alliance, a wholly-owned subsidiary of Able King which in turn was wholly-owned by Mr. Yang. Mr. Yang was also the sole director of Champion Alliance and Able King. Accordingly, Mr. Yang was deemed to be interested in the 244,435,994 Shares under the SFO.

Save as disclosed above, as at 31 March 2026, none of the directors or chief executive of the Company had registered an interest or short positions in the shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) that was required to be recorded pursuant to section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

Report of the Directors

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

Save as disclosed in the section "Share Option Scheme" below, at no time during the year or at the end of the year was the Company or any of its subsidiaries a party to any arrangements to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and none of the directors of the Company or their spouse or minor children had any rights to subscribe for the securities of the Company, or had exercised any such rights.

SHARE OPTION SCHEME

A share option scheme (the "**2025 Share Option Scheme**") was adopted by the Shareholders at the Company's annual general meeting held on 30 September 2025. The 2025 Share Option Scheme will remain in force for a period of 10 years after the adoption date (i.e. from 30 September 2025 to 29 September 2035). The purposes of the scheme are to provide incentives or rewards to the Eligible Participants ("**Eligible Participants**") for their contribution to the growth and development of the Group, to attract and retain personnel to promote the sustainable development of the Group; and to align the interest of the Eligible Participants with those of the Shareholders to promote the long-term financial and business performance of the Group.

Eligible Participants under the 2025 Share Option Scheme include any employees and directors of the Group and its related entities.

The maximum number of Shares which may be issued (including any treasury shares which may be transferred, as applicable) in respect of all options and awards to be granted under the 2025 Share Option Scheme and any other share schemes of the Company (collectively, the "**Share Schemes**") must not exceed 10% of the total number of Shares in issue (excluding treasury shares, if any) as at the adoption date of the 2025 Share Option Scheme. As at 31 March 2026 and the date of this report, the total number of Shares available for issue under the 2025 Share Option Scheme was and is 109,384,151, representing 10% of the issued Shares (excluding treasury shares, if any).

Unless approved by the Shareholders, the total number of Shares which may be issued in respect of all options and awards granted under any Share Schemes in the 12-month period up to and including the date of such grant (i) to each grantee shall not exceed 1% of the total number of Shares in issue (excluding treasury shares, if any); and (ii) to an independent non-executive Director or a substantial shareholder of the Company or any of their respective associates shall not exceed 0.1% of the total number of Shares in issue (excluding treasury shares, if any).

The Board is entitled to make an offer of the grant of an option subject to the rules of the 2025 Share Option Scheme. To accept the offer, Eligible Participant must sign the duplicate offer letter and remit the Company HK\$1.00 as consideration within such time as may be specified in the offer (which shall not be later than 21 days from the date of offer).

Report of the Directors

An option may be exercised at any time during a period to be determined and notified by the Directors to the grantee, which shall end in any event not later than 10 years from the date of offer. Except certain specific circumstances, the vesting period of any option granted shall not be shorter than 12 months from the date of acceptance of the offer. Unless otherwise determined by the Directors and stated in the offer, there are no performance targets and clawback mechanism for any options granted. The exercise price shall be determined by the Board but in any event shall not be less than the higher of (i) the closing price of the Shares on the date of grant; (ii) the average closing price of the Shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Share.

No options have been granted under the 2025 Share Option Scheme since its adoption.

INTERESTS AND SHORT POSITIONS OF SUBSTANTIAL SHAREHOLDERS DISCLOSEABLE UNDER THE SFO

As at 31 March 2026, the interests and short positions of the substantial shareholders of the Company in the Shares and underlying Shares of the Company as recorded in the register required to be kept under section 336 of the SFO were as follows:

Long Positions in the Shares:

Name of Shareholders	Capacity and nature of interest	Number of Shares held	Approximate percentage of the Company's issued Shares
Mr. Yang	Interest of controlled corporation	244,435,994 (Note 2)	22.35%
Able King	Interest of controlled corporation	244,435,994 (Note 2)	22.35%
Champion Alliance	Beneficial owner	244,435,994 (Note 2)	22.35%

Notes:

1. The approximate percentage of the Company's issued Shares was calculated on the basis of 1,093,841,518 Shares in issue as at 31 March 2026.
2. These interests were held by Champion Alliance, a wholly-owned subsidiary of Able King which in turn was wholly-owned by Mr. Yang. Mr. Yang was also the sole director of Champion Alliance and Able King. Accordingly, Mr. Yang and Able King were deemed to be interested in the 244,435,994 Shares under the SFO.

Save as disclosed above, the Company had not been notified of any other relevant interests or short positions in the Shares and underlying Shares as at 31 March 2026 as required to be recorded pursuant to section 336 of the SFO.

Report of the Directors

CONNECTED TRANSACTIONS

The related party transactions disclosed in note 37 to the consolidated financial statements fall under the scope of “Connected Transactions” or “Continuing Connected Transactions” under Chapter 14A of the Listing Rules but are exempted from reporting, annual review, announcement or independent shareholders’ approval requirements. In respect of each of such transactions, the Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules (where applicable).

REMUNERATION POLICY

The Group remunerates its Directors, senior management and other employees based on their qualifications, competence, experience, level of responsibilities, performance and prevailing market conditions. Other employee benefits include paid holidays, annual bonus, provident fund schemes, medical insurance, subsidised training programme as well as discretionary performance bonus. The Company has also adopted the 2025 Share Option Scheme to provide incentives or rewards to its Directors, employees and others for their contribution to the growth and development of the Group. Details of which are set out in the section “Share Option Scheme” on pages 30 to 31 of this annual report.

Further details in relation to remuneration of Directors are set out in the section “Remuneration Committee Report” on pages 39 to 40 of this report.

EQUITY-LINKED AGREEMENTS

Save for the outstanding convertible preferred shares disclosed in note 29 to the consolidated financial statements and the 2025 Share Option Scheme disclosed in the section “Share Option Scheme” on pages 30 to 31 of this annual report, no equity-linked agreements were entered into by the Group during the year or subsisted at the end of the year.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of any business of the Company was entered into or existed during the year.

AUDIT COMMITTEE

The audited consolidated financial statements of the Company for the year ended 31 March 2026 have been reviewed by the Audit Committee and duly approved by the Board under the recommendation of the Audit Committee.

EVENT AFTER REPORTING PERIOD

There are no significant events affecting the Group after the reporting period and up to the date of this report.

Report of the Directors

AUDITOR

The consolidated financial statements of the Company for the year ended 31 March 2026 have been audited by Crowe (HK) CPA Limited.

A resolution will be proposed at the 2026 AGM to re-appoint Crowe (HK) CPA Limited as the auditor of the Company.

On behalf of the Board

Yang Zheng

Chairman

Hong Kong, 26 June 2026

Corporate Governance Report

The Company has recognised the importance of transparency and accountability, and believes that the Shareholders can benefit from good corporate governance. The Company aims to achieve good standard of corporate governance.

CULTURE AND VALUES

The Board believes a healthy corporate culture is vital in attaining the Group's vision, values and strategy. It trusts that conducting business in an ethical and reliable way will maximise its long-term interests and those of its stakeholders. The structure of corporate governance adopted by the Company emphasises a quality board, sound internal controls and accountability to shareholders and these are based upon an ethical corporate culture. It is the Board's mission to establish and foster a healthy corporate culture with the following principles and to ensure that the Company's vision, values and business strategies are aligned to it.

(i) Ethics and Integrity

The Group strives to maintain a high standard of business ethics and corporate governance across all business levels and operating activities. Directors, management and staff members are all required to act lawfully, ethically and responsibly. Such required standards are set out in the Group's Code of Conduct, Anti-corruption Policy and Whistleblowing Policy. Trainings are conducted from time to time to reinforce the values across the Group and to uphold the standards with respect to ethics and integrity.

(ii) Commitment to Excellence

The Group believes commitment to excellence is the first step to continuous improvement and the driving force behind a business organisation. The Group implements a performance appraisal system and aims to reward and recognise performing staff members by providing them competitive remuneration packages, as well as the opportunities of career development and progression within the Group. Such value is articulated in policies, procedures and processes in day-to-day operations. Department heads are responsible to set expectations for staff members with respect to their roles and responsibilities. In addition, staff members are also encouraged to enroll in external training courses and seminars in order to update their technical skills and keep abreast of the latest market and regulatory developments.

CORPORATE GOVERNANCE

Throughout the year ended 31 March 2026, the Company had applied the principles of the Corporate Governance Code (the "**CG Code**") set out in Appendix C1 to the Listing Rules to its corporate structure and practices. It also had complied with all the applicable code provisions of the CG Code, except for Code Provision C.2.1.

Pursuant to Code Provision C.2.1 of the CG Code, the roles of the chairman and chief executive should be separate and should not be performed by the same individual. However, there has been no segregation between the role of the chairman of the Board (the "**Chairman**") and chief executive officer ("**CEO**") of the Company since 30 September 2025. Details of the deviation are stipulated in the section "Chairman and Chief Executive" on page 38.

Corporate Governance Report

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code set out in Appendix C3 to the Listing Rules as its own code of conduct regarding securities transactions by directors and relevant employees of the Company. Having made specific enquiry with the Directors, all of them confirmed that they had complied with the required standards set out in the Model Code during the year ended 31 March 2026.

BOARD OF DIRECTORS

The Board formulates the overall strategy of the Group, monitors its financial performance and maintains effective oversight over the management. The Board members are fully committed to their roles and have acted in good faith to maximise the shareholders' value in the long run, and have aligned the Group's goals and directions with the prevailing economic and market conditions. The Board has delegated the Executive Committee with authority and responsibility for handling the management functions and operations of the day-to-day business of the Group, while reserving certain key matters for the approval by the Board.

The Board met regularly throughout the year to discuss the overall strategy as well as the operation and financial performance of the Group. The Directors are kept informed on timely basis of major changes that may affect the Group's businesses, including relevant rules and regulations. The Directors can, upon reasonable request, seek independent professional advice in appropriate circumstances, at the Company's expenses. The Board shall resolve to provide separate appropriate independent professional advice to the directors to assist the relevant Directors to discharge their duties.

As at 26 June 2026, the date of this annual report, the Board comprises five directors, two of which are Executive Directors ("**EDs**"), namely Mr. Yang Zheng (Chairman & CEO) and Ms. Yiu Wai Yee, Catherine, and three of which are Independent Non-Executive Directors ("**INEDs**"), namely Mr. Fung Kim Shun, Ms. Han Li and Mr. Lin Wei Qiao. The Board composition is considered to have a balance of skills, experience and diverse perspectives appropriate for the requirements of the businesses of the Group. The Company has received from each of the INEDs an annual confirmation of his/her independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all the INEDs are independent in accordance with the independence guidelines set out in the Listing Rules. Biographical details of the Directors are set out under the section headed "Biographical Details of Directors and Senior Management" on pages 23 to 24 of this annual report.

Save for Mr. Yang Zheng has been the Chairman and the CEO concurrently since 30 September 2025, there was no other financial, business, family or other material/relevant relationship between each of the Board members and between chairman and the chief executive for the year ended 31 March 2026.

The Company will provide a comprehensive, formal and tailored induction to each newly appointed director on his/her first appointment in order to enable him/her to have an appropriate understanding of the businesses and operations of the Group and that he/she is fully aware of his/her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

Corporate Governance Report

All directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. Directors are continually updated on developments in the statutory and regulatory regime and the business environment to facilitate the discharge of their responsibilities. The Company has provided timely technical updates, including the briefing on the amendments on the Listing Rules and the news release published by the Stock Exchange to the Directors. Seminars, in-house briefings and reading materials will be provided to the Directors to develop and refresh their knowledge and skills where necessary. For the year ended 31 March 2026, the Company had provided several reading materials on various regulatory, corporate governance and sustainability topics to the Directors for their self-study.

For the year ended 31 March 2026, all the Directors, except those resigned early the year, had complied with the CG Code and had provided the Company with their respective training records. According to the records, Directors participated in the activities including the following for their continuous professional development during the year:

Participation in Continuous Professional Development Activities

	Reading regulatory updates/ training materials	Attending trainings/ briefings/seminars/ conferences

Corporate Governance Report

The Board has established several mechanisms to ensure independent views and input of INEDs are available to the Board. The summary of mechanisms is set out below:

(a) Board and Board Committee Composition

The Board should have at least three INEDs and at least one-third of its members being INEDs. During the year, either half or majority of the Board consisted of INEDs and each of them was not related to each other. Except Executive Committee, all other Board Committees consisted of INEDs only.

(b) Independence Assessment

The independence of INEDs is assessed upon appointment and annually in accordance with the guidelines set out in Rule 3.13 of the Listing Rules and any other factors deemed appropriate.

(c) Information and Professional Advice Seeking

All Directors are entitled to seek further information independently from the management on the matters to be discussed at Board meetings and, where necessary, independent advice from external professional advisers at the Company's expense.

(d) Conflict Management

All Directors must declare their interests. A Director who has a material interest in a contract, transaction or arrangement is not allowed to vote or be counted in the quorum on any Board resolution approving the same.

(e) Meeting Procedures

The Board has adopted a culture of openness. All Directors are encouraged to express freely their views and voice their concerns and sufficient time is allowed for discussion of matters.

(f) INED's Remuneration

INEDs receive fixed fees for their role as members of the Board.

(g) INED's Tenure

During the year, none of the INEDs had served the Company for more than nine years.

The Board will review the above mechanisms annually to ensure they are implemented effectively.

Corporate Governance Report

During the year ended 31 March 2026, six Board meetings and one general meeting were held and the attendance of each director is set out below:

	Number of attendance	
	Board meetings	General meeting
Executive Directors		
Mr. Yang Zheng (<i>appointed on 29 April 2025</i>)	5/5	1/1
Ms. Yiu Wai Yee, Catherine	6/6	1/1
Ms. Wang Jingyu (<i>resigned on 25 April 2025</i>)	0/0	0/0
Mr. Lai Ming Wai (<i>resigned on 30 September 2025</i>)	3/5	1/1
Independent Non-Executive Directors		
Mr. Fung Kim Shun	5/6	1/1
Ms. Han Li (<i>appointed on 29 April 2025</i>)	5/5	1/1
Mr. Lin Wei Qiao (<i>appointed on 2 May 2025</i>)	4/4	1/1
Mr. Chai Chi Keung (<i>resigned on 29 April 2025</i>)	0/0	0/0
Mr. Wong Chi Kit (<i>resigned on 2 May 2025</i>)	1/1	0/0

CHAIRMAN AND CHIEF EXECUTIVE

Previously, the Group had adopted a dual leadership structure in which roles and responsibilities of the Chairman and the CEO were separate and were not performed by the same individual to ensure a balance of power and authority. The Chairman was responsible for overseeing all Board functions and ensuring that good corporate governance practices and procedures are established, while the executive directors and senior management were under the leadership of the CEO to oversee the day-to-day operations of the Group and implement the strategies and policies approved by the Board.

At the beginning of the year, the position of the Chairman was held by Ms. Wang Jingyu (a former ED resigned on 25 April 2025) until 24 April 2025. There was no Chairman from 25 April 2025 to 26 June 2025 and the relevant responsibilities were shared by all the Board members. On 27 June 2025, Mr. Yang Zheng, an ED, was appointed as the Chairman. From 1 April 2025 to the conclusion of the annual general meeting of the Company held on 30 September 2025 (the “**2025 AGM**”), the position of the CEO was held by Mr. Lai Ming Wai (a former ED retired at the 2025 AGM). After the conclusion of the 2025 AGM, Mr. Yang Zheng became the CEO.

Since 30 September 2025, Mr. Yang Zheng has served as both the Chairman and the CEO. This constitutes a deviation from Code Provision C.2.1. Despite the deviation, Mr. Yang has provided solid and continuous leadership to the Group with his extensive experience and knowledge in management and operation of the Group. The Board believes that vesting the roles of both the Chairman and the CEO in the same person can facilitate the execution of the Group’s business strategies and boost effectiveness of its operation. Further, the Board is of the view that the balanced composition of two EDs and three INEDs, and the various committees of the Board in overseeing different aspects of the Company’s affairs would provide adequate safeguards to ensure a balance of power and authority. Therefore, the Board considers that the deviation is appropriate in such circumstance.

Corporate Governance Report

TERM OF APPOINTMENT OF NON-EXECUTIVE DIRECTORS

Each of the INEDs is appointed for a term of twelve-month period which automatically renews for successive twelve-month periods unless terminated by either party in writing prior to the expiry of the term. All the INEDs are also subject to retirement by rotation and re-election at least once every three years at the annual general meetings of the Company in accordance with the Company's Bye-laws (the "**Bye-laws**").

EXECUTIVE COMMITTEE

As at 31 March 2026, the Executive Committee comprises two EDs, namely Mr. Yang Zheng and Ms. Yiu Wai Yee, Catherine. Mr. Yang Zheng is the Chairman of the Executive Committee.

The Executive Committee is delegated with the power and authority from the Board to oversee the day-to-day operations of the Group and handle such other matters as delegated by the Board from time to time. The Executive Committee will meet as and when necessary to discuss the affairs of the Group. During the year, no Executive Committee meeting was held as the committee members performed their duties and functions via electronic and/or telephone communications.

REMUNERATION COMMITTEE REPORT

The Remuneration Committee has specific written terms of reference that are in compliance with the CG Code, and are available on the Company's website and the Stock Exchange's website. As at 31 March 2026, the Remuneration Committee comprises three INEDs, namely Mr. Fung Kim Shun, Ms. Han Li and Mr. Lin Wei Qiao. Mr. Lin Wei Qiao is the Chairman of the Remuneration Committee.

The Remuneration Committee is mainly responsible for formulating the remuneration policy, reviewing and recommending to the Board the remuneration of the directors and senior management. The overriding objective of the remuneration policy is to ensure that the Group is able to attract, retain and motivate a high-caliber team which is essential to the success of the Group. The remunerations of directors and the senior management are determined by the Board at the recommendation of the Remuneration Committee based on their qualifications, experience, level of responsibilities and prevailing market conditions. No Director is allowed to decide his/her own remuneration.

The Remuneration Committee met four times during the year ended 31 March 2026 to review and make recommendations to the Board on (i) the remuneration packages of three new Directors, (ii) the remuneration of all Directors in accordance with their performance and (iii) the salary increment of an ED. The attendance of each member is set out below:

Members	Number of attendance
Mr. Fung Kim Shun	3/4
Ms. Han Li (<i>appointed on 29 April 2025</i>)	3/3
Mr. Lin Wei Qiao (<i>appointed on 2 May 2025</i>)	2/2
Mr. Chai Chi Keung (<i>resigned on 29 April 2025</i>)	0/0
Mr. Wong Chi Kit (<i>resigned on 2 May 2025</i>)	1/1

Corporate Governance Report

Details of the Directors' remuneration for the year are set out in note 10 to the consolidated financial statements. Other than the EDs, there was no senior management during the year.

NOMINATION COMMITTEE REPORT

The Nomination Committee has specific written terms of reference that are in compliance with the CG Code and are available on the Company's website and the Stock Exchange's website. As at 31 March 2026, the Nomination Committee comprises three INEDs, namely Mr. Fung Kim Shun, Ms. Han Li and Mr. Lin Wei Qiao. Mr. Fung Kim Shun is the Chairman of the Nomination Committee.

The Nomination Committee is mainly responsible for reviewing the structure, size and composition of the Board, assessing the independence of INEDs, identifying potential directors and making recommendations to the Board on the appointment or re-appointment of directors. Potential new directors are selected on the basis of their qualifications, skills and experience that he/she could add value to the management through his/her contributions in the relevant strategic business areas.

The Nomination Committee met three times during the year ended 31 March 2026 to (i) review the board diversity policy (the "**Board Diversity Policy**") and the nomination policy (the "**Nomination Policy**") of the Company, (ii) assess the independence of INEDs, (iii) review the structure, size and composition of the Board, (iv) recommend the appointment of an ED and two INEDs, (v) recommend the re-election of retiring Directors at the 2025 AGM, and (vi) revise the terms of reference of the Nomination Committee. The attendance of each member is set out below:

Members	Number of attendance
Mr. Fung Kim Shun	2/3
Ms. Han Li (<i>appointed on 29 April 2025</i>)	2/2
Mr. Lin Wei Qiao (<i>appointed on 2 May 2025</i>)	1/1
Mr. Chai Chi Keung (<i>resigned on 29 April 2025</i>)	0/0
Mr. Wong Chi Kit (<i>resigned on 2 May 2025</i>)	1/1

Board Diversity Policy

The Company recognises the benefits of having a diverse Board to enhance the quality of its performance and has adopted the Board Diversity Policy. The Board Diversity Policy sets out that in determining the optimum composition of the Board, differences in skills, regional and industry experience, background, race, gender and other qualities of directors shall be considered. All Board appointments are made on merits, in the context of skills and experience the Board as a whole requires, with due regard to the benefits of diversity on the Board, and the Nomination Committee shall review and assess the Board composition and its effectiveness on an annual basis. When there is a vacancy on Board, the Nomination Committee will recommend suitable candidates for appointment to the Board on merits, based on the terms of reference of the Nomination Committee, with due regard to the Company's own circumstances.

Corporate Governance Report

The Group has taken, and will continue to take, steps to promote diversity, particularly the gender diversity, at all levels of workforce (including senior management). The Board has been committed to have directors of different genders at all times with targets of appropriate balance of gender diversity and gender parity. To achieve gender diversity at the Board, the Company had employed various methods in widening the pool of candidates. As at the date of this report, the Board consists of two female Directors and three male Directors. The Board considered its gender diversity target in respect of the Board has already been achieved. As at 31 March 2026, the male to female ratio in the workforce (including senior management) is approximately 3:2. The Board considered gender diversity in respect of workforce is achieved.

During the year ended 31 March 2026, the Company maintained an effective Board comprising members of different genders, professional background and industry experience. The Board Diversity Policy has been consistently implemented. The Board's current composition is as follows:

Gender	Female	Male
	2 Directors	3 Directors
Ethnicity	Chinese	
	5 Directors	
Age Group	<50	50-60
	1 Director	4 Directors
Board Tenure (number of year)	<2	2 or above
	4 Directors	1 Director
Other Listed Company Directorship (number of companies)	0	1
	4 Directors	1 Director

Nomination Policy

The Board has adopted the Nomination Policy which setting out the principles for identifying and evaluating a candidate for nomination to (i) the Board for appointment; and (ii) the Shareholders for election as a Director. According to the Nomination Policy, the following factors, among others, shall be taken into account in assessing the suitability of a proposed candidate: (i) qualifications, professional experience, skills and knowledge relevant to the businesses of the Group; (ii) commitment in respect of available time and relevant interest; (iii) diversity perspectives set out in the Board Diversity Policy; (iv) in case of INEDs, regulatory requirements for appointment of INEDs and the independence criteria set out in the Listing Rules; and (v) any other factors that the Board considers appropriate.

For filling casual vacancy or as addition to the Board, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation. On making recommendation, a meeting of the Nomination Committee for evaluating the identified candidates shall be called. The Nomination Committee may submit to the Board for consideration a proposal comprising, inter alia, the personal profile of the proposed candidate, which contains at least the candidate's information required to be disclosed under Rule 13.51 of the Listing Rules. The Board shall be vested with power to make the final decision on the recommendation of candidates (i) for appointment; and (ii) for standing for election at a general meeting as a Director.

The Nomination Committee will review the Board Diversity Policy annually and the Nomination Policy from time to time to ensure that the policies will be implemented effectively.

Corporate Governance Report

AUDIT COMMITTEE REPORT

The Audit Committee has specific written terms of reference that are in compliance with the CG Code and are available on the Company's website and the Stock Exchange's website. As at 31 March 2026, the Audit Committee comprises three INEDs, namely Mr. Fung Kim Shun, Ms. Han Li and Mr. Lin Wei Qiao. Ms. Han Li is an INED possessing the appropriate accounting or related financial management expertise as required under the Listing Rules and the Chairlady of the Audit Committee.

The Audit Committee is mainly responsible for reviewing the financial statements of the Company, reviewing the risk management and internal control systems of the Group, overseeing the relationship with the external auditor of the Company and overseeing the corporate governance duties of the Company.

The Audit Committee met three times during the year ended 31 March 2026 and the attendance of each member is set out below:

Members	Number of attendance
Mr. Fung Kim Shun	2/3
Ms. Han Li (<i>appointed on 29 April 2025</i>)	3/3
Mr. Lin Wei Qiao (<i>appointed on 2 May 2025</i>)	2/3
Mr. Chai Chi Keung (<i>resigned on 29 April 2025</i>)	0/0
Mr. Wong Chi Kit (<i>resigned on 2 May 2025</i>)	0/0

The following is a summary of work performed by the Audit Committee during the year:

1. reviewed and approved the audit plan for the year ended 31 March 2025;
2. reviewed and discussed the audited consolidated financial statements of the Company for the year ended 31 March 2025 and recommended the same to the Board for approval;
3. reviewed and discussed the unaudited condensed consolidated financial statements of the Company for the six months ended 30 September 2025 and recommended the same to the Board for approval;
4. reviewed and discussed with the management and the auditor of the Company the accounting policies and practices and the scope of the audit;
5. reviewed report from the auditor of the Company regarding their audit on the Company's consolidated financial statements for the year ended 31 March 2025;
6. reviewed the effectiveness of the risk management and internal control systems of the Group, including the need of internal audit function;
7. reviewed and approved the remuneration and the terms of engagement of the Company's auditor; and reviewed and made recommendations to the Board on the re-appointment of the Company's auditor;

Corporate Governance Report

8. reviewed the Non-audit Service Policy, Anti-corruption Policy and Whistleblowing Policy; and
9. reviewed the Company's corporate governance and environmental, social and governance matters, including compliance with the CG Code and the Corporate Governance Report.

Corporate Governance Function

The Board has delegated the corporate governance duties to the Audit Committee. The main corporate governance duties of the Audit Committee are (i) to develop and review the Group's policies and practices on corporate governance and make recommendations to the Board; (ii) to review and monitor the training and continuing professional development of directors and senior management; (iii) to review and monitor the Group's policies and practices on compliance with all relevant legal and regulatory requirements; (iv) to develop, review and monitor the code of conduct and compliance manual applicable to the employees and directors of the Group; and (v) to review the Group's compliance with the CG Code and disclosure requirements in the Corporate Governance Report.

AUDITOR AND AUDITOR'S REMUNERATION

The statement of the external auditor of the Company about their responsibilities on the Company's consolidated financial statements for the year ended 31 March 2026 is set out in the "Independent Auditor's Report" on pages 82 to 87 of this annual report.

For the year ended 31 March 2026, the remuneration payable to the Company's auditor, Crowe (HK) CPA Limited, for the provision of audit services amounted HK\$1,380,000. During the year, a sum of HK\$150,000 was paid as remuneration to Crowe (HK) CPA Limited for the provision of non-audit services, including review of interim financial statements and preliminary announcement of annual results.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board is responsible for presenting a balanced, clear and understandable assessment of the Company's annual and interim reports, price-sensitive announcements and other financial disclosures required under the Listing Rules and other regulatory requirements.

The Directors acknowledge their responsibility for preparing the consolidated financial statements of the Company for the year ended 31 March 2026, which give a true and fair review of the state of affairs of the Company and of the Group at that date and of the Group's results and cash flows for the year then ended, and are properly prepared on the going concern basis in accordance with the statutory requirements and applicable accounting standards.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board, through the Audit Committee, has the overall responsibility for maintaining sound and effective risk management and internal controls and reviewing their effectiveness to safeguard the shareholders' interests and the Group's assets at least annually. The risk management and internal control systems of the Group are designed to manage rather than eliminate the risk of failure to achieve business objectives and can provide reasonable but not absolute assurance against material misstatement or loss. The risk management and internal controls of the Group are reviewed annually and the review covers all material controls, including financial, operational and compliance controls of the selected key operations of the Group.

Corporate Governance Report

Effective risk management is essential in the long-term growth and sustainability of the Group's businesses. The Board monitors the risk management and internal control systems on an ongoing basis, and determines the nature and extent of the risk (including environmental, social and governance ("**ESG**") risk) it is willing to take in achieving the strategic objectives. During the year, the Company has taken risk management as a core part of its business activities and operations. The Company is taking steps to build a comprehensive risk management system that is aligned with the strategies and operations of the Company by standardizing its risk management procedures, adopting qualitative and quantitative measures to identify, evaluate and mitigate the identified risks (including ESG risks).

The process used to identify, evaluate and manage the significant risks (including ESG risks) of the Group is embedded in the Group's normal business operations. Organisational structure is well established with clearly defined authorities and responsibilities, and the Group has developed various risk management and internal control policies and procedures for each business unit to follow. Business units are responsible for identifying, assessing and monitoring risks (including ESG risks) associated with their respective units regularly. The results of the assessment are reported to the management which subsequently assesses the likelihood of risk occurrence and potential impact, provides treatment methods and remedial plan, and monitors the progress of rectification with the assistance of the head of the business units. The results of the assessment and effectiveness of the Group's risk management and internal control systems are reported to the Audit Committee, which then reviewed and reported the same to the Board.

To ensure the effectiveness of the internal control system, an internal control manual has been adopted. In connection with the controls on compliance aspect, guidelines are provided to the directors, officers, management and relevant staff in handling and disseminating sensitive and confidential inside information with due care. Only personnel at appropriate level can get reach of the sensitive and confidential inside information. Personnel in possession of inside information are prohibited from dealing in the relevant securities. To ensure timely, accurate and complete disclosure and to prevent a false market in the Company's shares, the Company promptly identifies, assesses and escalates any inside information and any information which may potentially constitute inside information to the EDs who decide the needs of disclosure, and then such decision will be reported to the Board for final decision.

For the year ended 31 March 2026, the Group did not have an internal audit function. The need for an internal audit function is reviewed annually. In the latest review, the Board upheld its view that there is no immediate need to set up an internal audit function in light of the size, nature and complexity of the Group's business.

Owing to the size of the Group and consideration for cost effectiveness, the Company has engaged an external and independent internal control and ESG advisor (the "**Advisor**") to identify and evaluate significant risks (including ESG risks) of the Group's business operations and to conduct the annual review on the risk management and internal control systems. The Board believes that the involvement of an independent professional firm could enhance the objectivity and transparency of the evaluation process.

Corporate Governance Report

For the year ended 31 March 2026, the Group has engaged the Advisor to provide annual risk management and internal controls assessment services. The Advisor has reviewed the relevant policies and procedures of the Group, conducted collaborative interviews and document inspection, and performed walkthrough tests and samples testing procedures. After the review, an Enterprise Risk Management Report (the “**ERM Report**”) and Internal Control Report (the “**IC Report**”) with findings and recommendations for improvement in relation to the systems had been provided to the Audit Committee and the management. The Board and the Audit Committee have reviewed and discussed the findings and recommendations with the management. In order to manage risks (including ESG risks) effectively and control risks within acceptable levels, the management will continue to monitor the identified risks (including ESG risks) and the respective control measures, and arrange adequate resources for the effective control measures undertaken. The ERM Report and IC Report have been endorsed by the Audit Committee and the management is required to establish remedial plans and take actions to rectify those internal control deficiencies identified (if any) according to their respective risk levels and priorities and report the follow up results to the Audit Committee. Subsequent review, where applicable, will also be performed by the Advisor to monitor the implementation of those agreed recommendations and to report the results of the follow-up review to the Audit Committee and then to the Board.

The Board has also considered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Group’s accounting and financial reporting function as well as those relating to the Group’s ESG performance and reporting. After reviewing the ERM Report and IC Report, the Board is not aware of any significant risk management and internal control weaknesses or inconsistencies with the Group’s risk management and internal control policies, and considers the existing risk management and internal control systems are effective and adequate. The Board is of the opinion that the Company has complied with the relevant code provisions of the CG Code relating to risk management and internal control. Furthermore, the Board is of the opinion that the Group has adequate financial and human resources for its accounting and financial reporting function.

LIABILITY INSURANCE

The Company has procured liability insurance for Directors and senior management of the Company and its subsidiaries in respect of the protection against contingent loss or liabilities arising from daily operations that may be borne by Directors and other management.

COMPANY SECRETARY

During the year, the Company Secretary of the Company were Mr. Lee Kin Fai (“**Mr. Lee**”) (appointed on 30 September 2025) and Ms. Yiu Wai Yee, Catherine (“**Ms. Yiu**”) (resigned on 30 September 2025). Both Mr. Lee and Ms. Yiu have taken no less than 15 hours of the relevant professional training during the year ended 31 March 2026.

Corporate Governance Report

SHAREHOLDER RIGHTS

Procedures for Shareholders to Convene a Special General Meeting

Pursuant to the Companies Act 1981 of Bermuda (the “**Companies Act**”), one or more shareholder(s) holding at the date of deposit of the requisition in aggregate not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require a special general meeting to be called by the Board for the transaction of any business or passing of resolution specified in such requisition; and such meeting shall be held within two months after the deposition of such requisition.

The written requisition must:

- state the purposes of the special general meeting;
- be signed by all the requisitionists (may consist of one or several documents in like form each signed by one or more requisitionists); and
- be deposited at the Company’s registered office for the attention of the Company Secretary or the Board.

The Board shall proceed to convene a special general meeting within 21 days from the date of deposit of such requisition. If the Directors fail to do so, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a special general meeting, but any meeting so convened shall not be held after the expiration of three months from the said date.

Procedures for Shareholders to Put Forward Proposals at General Meetings

Pursuant to the Companies Act, any number of shareholders representing not less than one-twentieth of the total voting rights of all the shareholders having at the date of the requisition a right to vote at the meeting to which the requisition relates; or not less than one hundred shareholders, can at their expense unless the Company otherwise resolves, request the Company in writing to:

- (a) give to shareholders of the Company entitled to receive notice of the next annual general meeting notice of any resolution which may properly be moved and is intended to be moved at that meeting; and
- (b) circulate to shareholders of the Company entitled to have notice of any general meeting send to them any statement of not more than one thousand words with respect to the matter referred to in any proposed resolution or the business to be dealt with at that meeting.

The requisition must be signed by the requisitionists and deposited at the Company’s registered office together with a sum reasonably sufficient to meet the expenses in giving effect thereto not less than six weeks before the meeting in the case of a requisition requiring notice of a resolution or not less than one week before the meeting in the case of any other requisition.

Corporate Governance Report

Procedures for Shareholders to Propose a Person for Election as a Director of the Company

According to Bye-law 89 of the Bye-laws, if a Shareholder wishes to propose a person other than a retiring Director for election as a Director at any general meeting, a notice in writing signed by a Shareholder (other than the person to be proposed for election as a Director), and a notice in writing signed by the person to be proposed for election as a Director of his/her willingness to be elected shall be lodged at the Company's principal place of business in Hong Kong or at the Hong Kong branch share registrar and transfer office of the Company, Tricor Investor Service Limited. The minimum length of the period during which such notice(s) are given shall be at least seven days and the period for lodgement of such notice(s) shall commence no earlier than the day after the despatch of the notice of the general meeting appointed for such election and end no later than seven days prior to the date of such general meeting. Details of the procedures for Shareholders to propose a person for election as a Director are available on the Company's website.

Procedures for Directing Shareholders' Enquiries to the Board

Shareholders may at any time send their enquiries and concerns to the Board via the Company Secretary at the Company's principal place of business in Hong Kong at Room 2401A, 24th Floor, Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong.

INVESTOR RELATIONS

The Company has established a range of communication channels between itself and its Shareholders, investors and other stakeholders. These include the annual general meetings, the annual and interim reports, notices, announcements and circulars and the Company's website at www.relianceglobal.com.hk.

Constitutional Documents

During the year, the Bye-laws were amended and restated. The amended and restated Byelaws were adopted by the Shareholders at the 2025 AGM held on 30 September 2025 in order to enable the Company to streamline the administrative procedures in respect of electronic dissemination of corporate communications, to provide Shareholders with the options to send instructions, receive corporate action proceeds and pay subscription monies electronically and to provide for Shareholders' rights to speak at electronic meetings and hybrid meetings, together with physical meetings in accordance with the latest requirements or as permitted under the Listing Rules.

A up-to-date consolidated version of the Bye-laws is available on the websites of the Company and the Stock Exchange.

Corporate Governance Report

Shareholders Communication Policy

The Group has adopted a shareholders communication policy (the “**Shareholders Communication Policy**”) in order to enable the Shareholders to exercise their rights in an informed manner, and to allow the Shareholders and the investment community to engage actively with the Company. The Board has the overall responsibility to maintain an ongoing dialogue with the Shareholders and the investment community, and will regularly review the Shareholders Communication Policy to ensure its effectiveness. The Group has established a range of communication channels between itself and the shareholders, investors and other stakeholders. These include the annual general meetings, the annual and interim reports, notices, announcements and circulars, enquiries via the Hong Kong branch share registrar and transfer office of the Company regarding shareholding related matters and the Company Secretary regarding all other matter in relation to the Group, and the Company’s website at www.relianceglobal.com.hk.

During the year, the Company published its announcements, interim and annual reports in accordance with the timeframe as required by the Listing Rules to ensure Shareholders can understand the business of the Company in a timely manner. The Company convened the 2025 AGM on 30 September 2025. Notice and related documents of the 2025 AGM were given to the Shareholders in accordance with the timeframe as required by the Listing Rules and the Bye-laws to encourage Shareholders’ attendance. 2025 AGM’s proxy form was provided to further encourage Shareholders’ participation by proxy. Directors and external auditor attended the 2025 AGM to answer questions from and listen to the views of the Shareholders which further enhancing effective communication. Contact details of the Company were disclosed in the Company’s interim and annual reports and website to allow Shareholders to make enquiries to the Company easily. All corporate documents are available in both English and Chinese to facilitate Shareholders’ understanding. The Dividend Policy of the Company (as defined below) is published in the annual report and the Company is committed to maintaining an optimal capital structure. Taking into account the above measures, the Board is of the opinion that sufficient measures were implemented by Company during the year to ensure the effectiveness of the Shareholders’ Communication Policy.

DIVIDEND POLICY

A dividend policy has been adopted by the Company with an aim to set out clearly the main factors for the Board to determine the dividend payable to the Shareholders. According to the dividend policy, in deciding whether to declare or recommend a dividend and in determining the dividend amount, the Board shall take into account, among other things, the following factors: (i) the actual and expected financial performance of the Group; (ii) the retained earnings and distributable reserves of the Group; (iii) the expected working capital requirements and future expansion plans of the Group; (iv) the liquidity position of the Group; and (v) any other factors that the Board deems appropriate. The declaration and payment of dividends by the Company shall be determined at the sole and absolute discretion of the Board and is also subject to compliance with all applicable laws and regulations including the laws of Bermuda and the Bye-laws.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, throughout the year ended 31 March 2026 and up to the date of this report, the Company has been in compliance with the minimum public float requirement under the Listing Rules by maintaining its public float at the level of at least 25% of its total issued Shares.

Environmental, Social and Governance Report

OVERVIEW

The Board is pleased to present this Environmental, Social and Governance (“**ESG**”) Report (“**ESG Report**”) of the Group, which summarises the efforts and achievements made by the Group in corporate responsibility and sustainable development. The Board is responsible for formulating the Group’s ESG and climate-related strategy, evaluating and determining the Group’s ESG and climate-related risks, approving the disclosure in ESG reports, as well as ensuring that appropriate and effective ESG risk management and internal control systems are in place. In order to determine the ESG reporting scope, the key management personnel have discussed internally to identify the critical ESG issues and assess their importance to the stakeholders and the Group.

INTRODUCTION

The Group is principally engaged in three business segments, namely, forest-related business comprising timber supply chain and sustainable forest management and money lending business. This ESG Report summarises the initiatives, plans and performance of material ESG aspects of the Group as well as demonstrates the Group’s commitment to sustainability.

ABOUT THE GROUP

Forest-related Business

Timber Supply Chain

The Group is engaged in the timber supply chain business and has built a global network of supply sources. The Group procures timber from suppliers/forest owners in Europe, Oceania and Africa, and serves its customers predominantly in China and other countries. The Group provides the value-added work and services of a typical timber supply chain, including plantation & harvesting rights, sourcing & procurement, timber harvesting & logging, quality inspection & land/sea transport, wood processing, inventory management, customs clearance, selling & marketing and after-sales services. At the time of preparing this ESG Report, the timber supply chain operation of the Group (the “**TSC Operation**”) comprises distribution hubs in Slovenia, Romania and Croatia as well as lumber processing ventures in Romania.

The Group complies with the relevant environmental laws and regulations in the respective jurisdictions when performing the above-mentioned value-added works and services, while certain value-added works and services are outsourced and performed by third parties. In respect of the Group’s lumber processing venture in Romania, the Group has engaged local logging teams to conduct the logging activities. In respect of the land and sea transport of logs and wood products selling by the TSC Operation, the Group’s logistic team arranges delivery of logs and wood products to the customers via third-party trucking companies, railway companies and/or shipping companies where appropriate. Since the Group does not have direct operational control over these outsourcing activities, the environmental key performance indicators (“**KPIs**”) of these activities are thus not included in this ESG Report. Nevertheless, as far as the Group understands, the operations of these third-party service providers comply in material respects with the relevant environmental laws and regulations in the respective jurisdictions.

Sustainable Forest Management

During the year ended 31 March 2026 (“**FY2026**” or “**Reporting Period**”) and the year ended 31 March 2025 (“**FY2025**”), the Group did not hold any forest assets, and therefore no relevant data was included in this ESG Report.

Environmental, Social and Governance Report

Money Lending Business

The money lending business is one of the principal businesses of the Group and its operation is primarily office-based. The Group provides loan products including mortgage loans, corporate loans, personal loans and finance leases.

MESSAGE FROM THE BOARD

As a responsible enterprise for social development, the Group has always maintained a balance between business development and social responsibility by integrating the concept of sustainable development into its day-to-day business operations and major commercial decisions. The Group not only acts responsibly for social and economic development of the community, but also strives to improve the community's environmental sustainability and prosperity.

The Board has always attached great attention to sustainable development and is committed to creating long-term values and a sustainable future for the society by taking into account and balancing the interests of major stakeholders. To enhance the Group's commitment to corporate social responsibility and to improve stakeholders' understanding of its ESG performance, the Group has actively responded to stakeholders' environmental concerns, including carbon neutrality, energy conservation and waste reduction, and promoted the concept of sustainable development by setting ESG-related targets on greenhouse gas ("GHG") emissions, waste management and energy management.

THE ESG GOVERNANCE STRUCTURE

As the highest governing body, the Board bears overall responsibility for the Group's ESG strategies and reporting, including climate-related issues. The members of the Board possess the appropriate skills, experience, knowledge and perspectives necessary to oversee the Group's ESG and climate-related matters. They are regularly provided with training and updates to ensure that they remain well equipped. Moreover, external professional consultant is engaged to help the Board to fulfil its ESG-related responsibilities. The Board must hold at least one meeting each year to (i) formulate and review the Group's strategic objectives for sustainable development; (ii) lead and encourage each department to improve its mindsets and operation initiatives from the perspective of sustainability; and (iii) review and discuss the Group business performance and progress against ESG-related goals and targets. These measures help the Group prioritise its ESG and climate-related issues, drive its governance efforts and improve the quality of its ESG disclosures. The Board ensures appropriate management approaches and risk management mechanisms are in place for all ESG and climate-related matters. Further details for ESG and climate-related governance are described in the section below headed "Climate-related Disclosures" under Environmental aspect.

REPORTING SCOPE

The management of the Group established the ESG reporting scope based on the materiality principle after taking into account the Group's core businesses and main revenue source. As there were no material changes in the Group's main operational structure, this ESG Report continues to cover all of the Group's core business activities, including the forest-related business and the money lending business. The forest-related business includes the lumber processing plant in Romania (the "**Romanian Plant**"), which was acquired by the Group in January 2022. The KPIs for ESG-related matters are gathered from all activities that are under the Group's direct operational control. The KPIs are shown in this ESG Report and are supplemented by explanatory notes to establish benchmarks. The Group will expand the scope of its ESG disclosures when and where appropriate.

Environmental, Social and Governance Report

REPORTING FRAMEWORK

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Code (the “**ESG Reporting Code**”) set out in Appendix C2 of the Listing Rules.

Information relating to the Group’s corporate governance practices can be found in the “Corporate Governance Report” on pages 34 to 49 of this annual report.

REPORTING PERIOD

This ESG report specifies the ESG activities, challenges and measures undertaken by the Group during FY2026 together with the comparative data for FY2025 where appropriate.

REPORTING PRINCIPLES

The Group has applied the following reporting principles set out in the ESG Reporting Code for the preparation of the ESG Report:

Materiality: An assessment was conducted to diagnose the materiality of the ESG issues, thereby adopting the material issues as the focus for the preparation of the ESG Report. The materiality of ESG issues was reviewed and confirmed by the Board and senior management. Further details are set out in the sections below headed “Stakeholder Engagement” and “Materiality Assessment”.

Quantitative: This ESG Report is prepared in accordance with the ESG Reporting Code and discloses KPIs in a quantitative manner. Information regarding the standards, methodologies, assumptions and/or calculation methods, and the sources of key conversion factors used for determining KPIs, is stated wherever appropriate.

Balance: The ESG Report provides an unbiased picture of the Group’s ESG-related matters by avoiding selection, omissions, or presentation formats that may inappropriately influence a decision or judgement by a reader.

Consistency: The statistical methodologies adopted in this ESG Report are substantially consistent with those of the FY2025 report for the purpose of meaningful comparison. If there are any changes that may affect the comparison with the FY2025 report, the Group will make explanatory notes to the corresponding section accordingly.

The Group confirmed that it has established appropriate and effective management policies and internal control systems for ESG issues, including but not limited to the formal review process to ensure that the information presented in this ESG Report is as accurate and reliable as possible. The contents disclosed in this ESG Report are in compliance with the requirements of the ESG Reporting Code and have been approved by the Board.

STAKEHOLDER ENGAGEMENT

To continue with the Group’s sustainable development efforts, the Group has engaged its key stakeholders to identify sustainability topics and potential risks through engagement sessions, including routine meetings and annual general meetings. Key stakeholders include, but are not limited to, governments and other regulatory authorities, shareholders and investors, employees, customers, suppliers, media and the public.

Environmental, Social and Governance Report

Stakeholders' expectations have been taken into consideration by utilising diversified engagement methods, as shown below:

Stakeholders	Communication channels	Expectations	Management responses
Governments and other regulatory authorities	- Written or electronic correspondence - Visits and inspections	- Legal compliance - Fulfil tax obligations - Stability in business operations	- Uphold integrity and compliance in operations - Ensure on-time tax payments
Shareholders and investors	- General meetings and other shareholder meetings - Financial reports - Announcements and circulars	- Sustainable profitability - Return on investment - Business compliance - Operating risk management	- Ensure transparency and efficient communication through different communication channels - Management processes experience and professional knowledge in business sustainability
Employees	- Training activities, seminars and briefings - Email and suggestion boxes - Regular meetings - Performance evaluations	- Remuneration, compensation and medical benefits - Health and safety - Career development	- Regularly review current employment policies and provision of training activities - Hold team-building events to boost employee morale - Regularly review remuneration packages
Customers	- Customer service hotline and emails - Face-to-face meetings	- Customer satisfaction - High-quality products and services	- Ensure the provision of high-quality products and services - Ensure contractual obligations are fulfilled
Suppliers	- Site visits - Business meetings and discussion	- Fair and open procurement - On-time payment - Sustainable relationship	- Perform supplier selection with due care - Ensure contractual obligations are fulfilled
Media and the public	- ESG reports - Company website - Reports and announcements	- Transparent ESG and financial disclosures - Legal compliance - Corporate governance compliance	Ensure effective communication via various communication channels

Environmental, Social and Governance Report

The Group endeavours to actively listen to and collaborate with its stakeholders to ensure that their opinions can be voiced out through various effective communication channels. In the long run, contributions from stakeholders will aid the Group in identifying and improving potentially overlooked ESG issues and maintaining the success of the Group's businesses in challenging markets.

MATERIALITY ASSESSMENT

The Board and employees responsible for key functions of the Group have participated in the materiality assessment process. After reviewing the Group's operations, they identified key ESG issues and assessed the importance of relevant ESG issues to the Group's businesses and stakeholders. The assessment results serve as a reference point for strategy and policy formulation, as well as the content of this ESG Report. In alignment with the Group's vision of sustainability, the Group will closely monitor material ESG issues to facilitate long-term development and provide sustainable returns to stakeholders.

The Group conducted materiality assessment survey in FY2026. A summary of the Group's material ESG issues according to their relative importance is as follows:

Environmental, Social and Governance Report

CONTACT US

The Group welcomes stakeholders to provide their opinions and suggestions. Stakeholders can provide valuable advice in respect of the ESG Report or the Group's performances in sustainable development by writing to Room 2401A, 24th Floor, Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong or by email to info@relianceglobal.com.hk.

A. ENVIRONMENTAL

Environmental protection and sustainable development rely on concerted and continuous efforts from all industries and society. In addition to ensuring compliance with the relevant laws and regulations in Hong Kong, Slovenia, Romania and Croatia (places where the Group has significant operations), the Group has formulated related environmental policies to minimise its adverse environmental impacts and promote sustainability within the Group's businesses. The Group continuously improves its existing policies and constantly integrates the principles of emission reduction and resource efficiency into the Group's environmental management approaches by implementing measures that promote energy efficiency, waste reduction, and other green initiatives.

During FY2026, the Group was not aware of any material non-compliance with laws and regulations relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that would have a significant impact on the Group including but not limited to the Air Pollution Control Ordinance, Waste Disposal Ordinance and Water Pollution Control Ordinance of Hong Kong, the Environmental Protection Act of Slovenia, the Law no. 137/1995 on Environmental Protection of Romania and the Environmental Protection Act of Croatia.

A1. Emissions

Air Emissions

Air emissions were mainly generated from the use of the Group's vehicles. Measures for controlling air emissions are described in the section below headed "Climate-related Disclosures" under Environmental aspect.

Air emissions were also generated from the use of machinery, trucks, wagons and marine vessels during the process of harvesting and transportation of timber and wood products in the daily operations of the TSC Operation. However, since the Group outsourced these activities to third parties and did not have direct operational control over their activities, the relevant air emissions data was not included in this ESG Report. Nevertheless, as far as the Group understands, the air emissions generated from the process of harvesting and transportation conducted by the third parties complied in material respects with the relevant environmental laws and regulations in the respective jurisdictions.

Owing to the decrease in vehicle usage because of disposal of vehicles compared to FY2025, and phasing out ageing vehicle, the air emissions of the Group decreased in FY2026.

Environmental, Social and Governance Report

Summary of air emissions of the Group is as follows:

Indicator	Unit	FY2026	FY2025	Percentage change
Nitrogen oxides	kilogram ("kg")	362.65	387.70	-6.46%
Sulphur oxides	kg	0.18	1.08	-83.33%
Particulate matter	kg	26.08	27.93	-6.62%

Discharges into Water and Land

Owing to the Group's business nature, the discharges into water and land were insignificant.

Waste Management

Hazardous Waste Management

Owing to the Group's business nature, it did not generate a significant amount of hazardous waste during its daily operations. Nevertheless, the Group has established guidelines to govern the management and disposal of hazardous waste. In case there is any hazardous waste produced, the Group would engage a qualified chemical waste collector to handle such waste and comply with the relevant environmental rules and regulations.

Non-hazardous Waste Management

The non-hazardous waste of the Group was principally leftover wood, such as wood chips and sawdust generated from the operations of the wood processing plants, and used office paper from its office-based operations. During FY2026, the Group did not note an abnormal amount of waste generated.

The Group has set a target in FY2023 to reduce its non-hazardous waste intensity (kg/HK\$ million revenue) by 3% by FY2026, using FY2023 (1.71 kg/HK\$ million revenue) as the baseline year to encourage waste reduction. However, despite the total non-hazardous waste has decreased, the intensity has increased because of reduced revenue. Thus, the target has not been achieved.

Since the above target has expired, the Group has set a new target to reduce its non-hazardous waste intensity (kg/HK\$ million revenue) by 3% by the end of the financial year ending 31 March 2030 ("**FY2030**"), using FY2026 (4.02 kg/HK\$ million revenue) as the baseline year. To achieve this target, the Group continues to raise employee awareness of the importance of reducing waste production and has included environmentally friendly initiatives to enhance its environmental performance.

For the logging and wood processing activities of the TSC Operation, the Group has assigned responsible personnel to monitor the logging and lumber production activities, in particular the sawmill cutting work, to ensure a high yield output along with a low scrap level. The Group encourages the local logging teams and wood processing plant to minimise their scrap level and maximise the use of leftover wood, such as recycling scrap wood as wooden boxes for packaging or turning them into biofuel. During FY2026, approximately 100% (FY2025: almost 100%) of the leftover wood is resold, recycled for packaging, or used as biofuel.

Environmental, Social and Governance Report

In respect of managing office paper waste, the Group has adopted the following waste reduction measures:

- Recycle office paper for any other possible use, such as packaging small items;
- Reuse single-sided wastepaper where possible;
- Print electronic correspondences only when necessary; and
- Procure paper with Forest Stewardship Council ("FSC") Recycled Label.

The Group's total non-hazardous waste disposal decreased by approximately 14.34% in FY2026 compared to FY2025 due to effective waste management. The Group will actively explore ways to reduce its non-hazardous waste, with the aim of pursuing the aforementioned target.

Summary of major non-hazardous waste of the Group is as follows:

Indicator	Unit	FY2026			FY2025			Percentage change
		Factory-based	Office-based	Total	Factory-based	Office-based	Total	
Office paper	kg	87.32	199.58	286.90	99.79	271.93	371.72	-22.82%
Plastic	kg	160.00	–	160.00	150.00	–	150.00	6.67%
Total non-hazardous waste	kg	247.32	199.58	446.90	249.79	271.93	521.72	-14.34%
Total non-hazardous waste intensity	kg/HK\$ million revenue¹			4.02			2.99	34.45%
	kg/employee²			7.98			9.84	-18.90%

Note(s):

1. For FY2026, the Group recorded a revenue of approximately HK\$111.18 million (FY2025: HK\$174.73 million). This data is also used for calculating other intensity data.
2. At 31 March 2026, the Group had a total of 56 (FY2025: 53) employees (including directors). This data is also used for calculating other intensity data.

Environmental, Social and Governance Report

A2. Use of Resources

The Group realises the scarcity of finite natural resources and has therefore taken the initiative to implement guidelines and relevant policies to better govern the use of resources and minimise the environmental impact arising from its business operations. Measures for reducing use or production of waste of office paper and other resources are mentioned in the preceding section headed "Waste Management" under Environmental aspect.

Energy Consumption

The Group strives to reduce energy consumption by various energy-saving measures. The Group set a target in FY2023 to reduce its energy consumption intensity (kilowatt hour ("kWh")/HK\$ million revenue) by 3% by FY2026, using FY2023 (2,179.35 kWh/HK\$ million revenue) as the baseline year. Despite there was a decrease in total energy consumption, the consumption intensity per revenue increased because of the reduced revenue. Thus, the target has not been achieved.

Since the above target has expired, the Group has set a new target to reduce its energy consumption intensity (kWh/HK\$ million revenue) by 3% by FY2030, using FY2026 (10,170.63 kWh/HK\$ million revenue) as the baseline year. To achieve this target and raise employee awareness of energy conservation, the Group has adopted the following energy-saving measures:

- Pre-set air-conditioning temperatures at 24 to 26 degrees Celsius in the offices;
- Switch off all idle electrical appliances and unnecessary lighting upon leaving the premises;
- Post eye-catching reminders near light switches and electrical appliances as a reminder to employees; and
- Purchase equipment with higher energy efficiency for the replacement of old equipment.

Owing to the disposal of vehicles and phasing out ageing vehicle, the Group's total energy consumption decreased by approximately 29.67% in FY2026 compared to FY2025. The Group will actively explore ways to reduce its energy consumption, with the aim of pursuing the aforementioned target.

Environmental, Social and Governance Report

Summary of energy consumption of the Group is as follows:

Indicator	Unit	FY2026			FY2025			Percentage change
		Factory-based	Office-based	Total	Factory-based	Office-based	Total	
Direct energy consumption								
• Diesel	kWh	157,337.55	–	157,337.55	91,726.72	529,810.13	621,536.85	-74.69%
• Petrol ³	kWh	52,333.33	–	52,333.33	63,962.96	55,046.91	119,009.87	-56.03%
• liquefied petroleum gas (“LPG”) ³	kWh	–	–	–	25,475.86	–	25,475.86	-100.00%
Indirect energy consumption								
• Electricity	kWh	911,800.00	9,300.00	921,100.00	829,000.00	12,689.00	841,689.00	9.43%
Total energy consumption	kWh	1,121,470.88	9,300.00	1,130,770.88	1,010,165.54	597,546.04	1,607,711.58	-29.67%
Total energy consumption intensity	kWh/HK\$ million revenue			10,170.63			9,201.12	10.54%
	kWh/employee			20,192.34			30,334.18	-33.43%

Note:

- The method of unit conversion of energy consumption data is formulated based on the "Energy Statistics Manual" issued by the International Energy Agency.

Water Consumption

The Group recognises the importance of water resources and strives to promote water conservation. The Group set a target in FY2023 to maintain its water consumption intensity ($\text{m}^3/\text{HK\$ million revenue}$) in future years at the same level as FY2023 ($22.42 \text{ m}^3/\text{HK\$ million revenue}$). The Group has been actively advocating water conservation, encouraging all employees to develop a habit of saving water and guiding employees to use water reasonably. Going forward, the Group is committed to displaying posters or other promotional materials in prominent locations at its operation sites and office premises to promote water conservation. Apart from that, the Group also regularly inspects water taps to prevent leakage and will report to the building management any irregularities where necessary. Through the implementation of the said water-saving measures, the Group hopes to further increase employee awareness of water conservation.

Owing to the Group's operational needs and reduced revenue, the Group's total water consumption intensity increased by approximately 79.62% in FY2026. Thus, the Group did not achieve the aforementioned target in FY2026 and will continue to promote water conservation measures in the future.

Environmental, Social and Governance Report

Summary of water consumption of the Group is as follows:

Indicator ⁴	Unit	FY2026	FY2025	Percentage change
Total water consumption	m³	3,920.00	3,430.00	14.29%
Total water consumption intensity	m³/HK\$ million revenue	35.26	19.63	79.62%
	m³/employee	70.00	64.72	8.16%

Note:

- The data of water consumption mainly represents the data of the Romanian Plant, which was acquired by the Group in January 2022. The water consumption data of the Group's offices is not available since their water usage is on the account of the respective building management companies and is covered by the building management fees.

Owing to the Group's business nature, the Group did not encounter any problem in sourcing water that was "fit for purpose".

Use of Packaging Materials

Packaging materials such as plastic bands are used in the TSC Operation. The Group advocates the adoption of simple packaging.

Summary of packaging material consumption of the Group is as follows:

Indicator ⁵	Unit	FY2026	FY2025	Percentage change
Plastic band	kg	246.00	130.00	89.23%
Total packaging material consumption	kg	246.00	130.00	89.23%
Total packaging material consumption intensity	kg/HK\$ million revenue	2.21	0.74	198.65%

Note:

- The data of packaging material consumption mainly represents the data of the Romanian Plant.

Environmental, Social and Governance Report

A3. The Environment and Natural Resources

The Group understands that its forest-related business operations are closely connected to the natural environment, so it has been striving to supply low GHG emissions, green and quality products that comply with international industry standards. The Group aims to reduce its negative impact on the environment by improving its operational efficiency and efficacy, as well as implementing green operational measures where possible. The Group remains conscious of the existing and potential environmental impacts and regularly assesses the environmental risks of its business model, adopts preventive measures for environmental protection and ensures compliance with the relevant environmental laws and regulations. The Group has also implemented the relevant policies to mitigate its significant impacts on the environment and natural resources.

During FY2026, as the Group had outsourced the logging activities in Romania to local logging teams and did not have direct operational control over their logging activities, the impact and KPIs on the environment and natural resources brought by the said activities were not included in this ESG Report. Nevertheless, as far as the Group understands, the logging activities conducted by the outsourced logging teams in Romania complied in respects with the local environmental laws and regulations.

Sustainable Forest Management

The Group recognises the importance of preserving forests and pursuing sustainable logging practices. The Group expects the forest owners/suppliers that supply timber logs and wood products to the Group and the outsourced logging teams to fully comply with the relevant local environmental laws and regulations. In respect of the logging activities in Romania, the Group works under the agreed harvesting plan with the forest owner/manager, which involves the onsite selection of forest harvesting areas that depend on tree height, diameter, species, etc., and monitoring the logging team engaged to conduct logging activities as well as the subsequent forest sustainability management work in compliance with the local environmental laws and regulations. The Group is also actively developing a set of guidelines to ensure that forest owners/suppliers are supplying the Group with timber logs and wood products from responsibly and sustainably managed forests.

In addition, the Group has obtained certifications that demonstrate its commitment to sustainable forest management, including the FSC endorsement and the Programme for the Endorsement of Forest Certification ("PEFC"), which endorse the Group as an environmentally responsible supplier for timber and wood products sourcing from Europe. FSC and PEFC certifications represent an endorsement that the timber or wood products originated from forests under sustainability management.

Environmental, Social and Governance Report

Integration of Sustainability in Operations

In order to optimise the production processes of wood products, the Group's local management supervises and regularly reviews every step of the production process, including sawing, edging, steaming, air drying, sorting and packing, with an aim to improve its efficiency and efficacy. The management also keeps an eye on reducing the consumption of water, electricity, fuel and other resources, and it limits or stops using polluting supplies. Additionally, the Group regularly reviews its internal policy, improves its environmental initiatives and upgrades its equipment to effectively reduce its carbon footprint.

Production of Sustainable Products

The Group understands that, apart from quality, customers are becoming more concerned about environmental protection and are inclined to purchase and use eco-friendly products. The Group supplies FSC-certified and PEFC-certified timber or wood products to customers and ensures the timber or wood products supplied are from forests under sustainability management. The Group also requires members of the procurement team to be familiar with the timber market conditions in Europe and the compliance requirements of FSC and PEFC.

Indoor Air Quality

Indoor air quality is regularly monitored and measured. During FY2026, the indoor air quality of the Group's premises was satisfactory. To improve indoor air quality, air purifying equipment was placed on the premises and air conditioning systems were cleaned periodically. These measures filtered out pollutants, contaminants and dust particles and resulted in maintaining indoor air quality at a satisfactory level.

Climate-related Disclosures

Governance

The management of ESG and climate-related issues of the Group is integrated into the overall risk management system of the Group, which is oversight by the Board through the audit committee. The Board has assigned personnel from different business functions and the management to systematically identify and manage ESG and climate-related issues. The said personnel serve as the Group's primary internal coordination mechanism. They are responsible for collecting and analysing relevant ESG data, monitoring and evaluating the Group's ESG and climate-related performance, following up and reviewing the progress of the Group's ESG and climate-related goals and targets, ensuring compliance with ESG-related laws and regulations, assisting in materiality assessments, planning, implementing and integrating climate-related considerations into the Group's strategies and operations, and preparing the ESG reports.

In order to enhance the overall ESG performance of the Group, the said personnel shall arrange at least one meeting each year to discuss the Group's ESG performance, report the results of evaluation and formulate corresponding action plans. The assigned personnel shall also report to the Board on an annual basis the evaluation and subsequent implementation or revision of the Group's ESG strategies, for the purpose of ensuring the effectiveness of risk management and internal monitoring mechanisms, and making recommendations for improvement where necessary.

Environmental, Social and Governance Report

The Group considers climate-related risks and opportunities in its strategy development, business planning, and day-to-day operations, including decisions on major transactions. The Group identifies these risks and opportunities through materiality assessments and risk review processes. As with other material risks, the Group applies consistent risk management and internal control mechanisms to evaluate and manage relevant risks and opportunities. Further details relating to the Group's risk management system are set out in the section "Risk Management and Internal Control" of the Corporate Governance Report on pages 44 to 46 of this annual report.

The Group has set a short-term GHG emissions target. To further its climate commitment, the Group will continue to explore the feasibility of establishing a long-term climate-related or carbon neutralisation target as part of the Group's transition plan. At this stage, climate-related performance metrics have not been incorporated into the Group's remuneration policies. The Group will continue to monitor developments in this area to inform future integration of such metrics.

Strategy

The Group recognises the importance of the identification of significant ESG and climate-related issues and the mitigation of the related risks. Therefore, the Group is committed to managing the potential ESG and climate-related risks that may impact on the Group's business activities. The Group has established relevant policies to identify and mitigate different risks, including climate-related risks.

To enable a comprehensive assessment of climate-related risks and opportunities, the Group has established defined time horizons in alignment with Hong Kong's Climate Action Plan 2050, comprising short-term (within the next reporting period), medium-term (by 2035), and long-term (by 2050). During FY2026, the Group conducted a climate change assessment to identify and mitigate the potential risks that may arise from its business operations. These risks mainly stemmed from the following dimensions:

Physical Risks

The increasing frequency and severity of extreme weather events, such as typhoons, blizzards, floods and heat waves, may cause injuries to employees when they are at work or commuting and disrupt the Group's operations in short to long-term. This may result in product delivery delays, cost overrun and revenue losses. Extreme weather conditions may even cause casualties, and thus the Group may bear the corresponding legal and financial responsibilities. Furthermore, the occurrence of such extreme weather events may necessitate additional expenditure on emergency response measures and facility repairs and reinforcement, thereby elevating the Group's overall operational costs. Extreme weather events may also cause damage to the assets of the Group and impair the quality of timber and reduce the efficiency of harvesting and transportation processes, thereby hampering the Group's business performance, and potentially resulting in increased costs associated with raw material procurement and logistical arrangements, and increase in impairment of asset and inventory.

Environmental, Social and Governance Report

In order to better manage the physical risks mentioned above, the Group has developed business contingency plans, including personnel allocation arrangements, emergency response arrangements and business restoration sequences, to minimise the influence of the risks on the Group's business operations. The Group also encourages third-party partners to protect their employees' rights and interests in logging, wood processing and transportation processes when facing extreme weather conditions. In addition, the Group has purchased insurance for its employees, communicated with them about the contingency work arrangements under bad weather conditions and ensured employees have sufficient protection, compensation and assistance when extreme weather events occur. These all may increase the operational costs of the Group, including equipment maintenance cost and labour cost.

Transition Risks

Forests absorb carbon dioxide from the atmosphere and store it in different repositories, such as vegetation and soil, and thus are the largest carbon pools in terrestrial ecosystems. Hence, deforestation causes more carbon dioxide to build up in the atmosphere, which traps heat in the lower atmosphere and drives global warming. As deforestation plays a critical role in climate change, at the 26th United Nations Climate Change Conference of the Parties, world leaders pledged to end deforestation by 2030. This reflects their determination to support tree planting activities and reduce cutting down activities, with the goal of maintaining a stable and healthy forest inventory. From a business perspective, ending deforestation means fewer investments in the forestry industry are expected and approval for commercial logging concessions will be tightened. Over the medium to long-term, the Group anticipates that increasingly stringent regulations on logging activities will require greater investment in sustainable forestry practices and certification compliance, thereby elevating its overall compliance costs arising from more rigorous standards.

In response to this risk, which might inevitably affect the Group's development of its forest-related business, the Group continues to pay close attention to the trends in government policies and the updates in environmental laws and regulations in different jurisdictions on the forestry industry. The Group is dedicated to operating its business in a way that strictly adheres to the principle of sustainable forest management and complies with the local environmental laws and regulations, so as to maintain a good reputation and avoid incompliance costs. In the long run, the Group endeavours to operate its forest-related business in an efficient manner that maximises output and minimises wood waste. The Group is also committed to maintaining its FSC and PEFC certifications and thereby assuring the public that it acknowledges its responsibility for sustainable forest management.

Opportunities

The transition towards a low-carbon economy has prompted the development of more energy-efficient technologies and solutions in short to medium-term. By adopting such technologies, the Group may reduce its energy consumption and associated operational costs over time, whilst simultaneously enhancing its overall operational efficiency. Embracing energy efficiency measures also positions the Group favourably in response to evolving regulatory requirements and stakeholder expectations surrounding environmental performance.

Environmental, Social and Governance Report

Majority of the timber products of the Group bear FSC and PEFC certifications. In short to medium term, as environmental awareness gains widespread acceptance, there may be increase in demand of the timber products of the Group if the Group meets customer preference, and hence there may be potential increase in revenue. The Group would closely monitor the shift in market demand.

Even though the Group's business model and value chain do not currently face significant or concentrated climate-related risks and opportunities, the Group continues to monitor climate-related issues that could materially impact its business and operations. The Group is aware of the growing climate-related risks to its business such as business model, strategy, resource allocation and the carrying amounts of assets and liabilities. Based on the latest analysis, there are limited climate-related risks and opportunities affecting the carrying amounts of assets and liabilities. However, when such issues are identified, we will conduct corresponding risk assessments and develop appropriate mitigation measures. These findings can inform both current operations and anticipated evolutions in our business model, with allocation of necessary resources to address climate-related risks and capitalise on emerging opportunities. The Group currently does not have the necessary skills, capabilities and resources to identify and quantify the anticipated financial effects and relevant changes. The Group will continuously develop its skills and capabilities over time and acquire additional resources if necessary in longer timeframe .

The Group is in the early stages of evaluating its climate resilience, with considerable uncertainty surrounding the magnitude and timing of potential climate-related impacts. Its ability to adapt its strategy over time is underpinned by the operational and planning flexibility embedded within its current business model. The Group will explore the use of climate-related scenario analysis commensurate with its circumstances, including scenarios aligned with the latest international climate agreements, with a view to enhancing its understanding, monitoring and disclosure of climate-related risks and opportunities through regular risk assessments going forward.

Risk Management

Climate-related risks are managed within the Group's overall risk management framework, alongside other categories such as strategic, financial, compliance, and operational risks. The assessment draws upon established risk management processes to ensure that principal corporate risks are properly identified, comprehensively evaluated, and effectively managed and monitored.

In identifying and assessing risks, the Group's risk management process takes into account both the likelihood and the potential impact of each risk. Likelihood is determined based on historical data and information reasonably available to the Group during the Reporting Period. Impact is assessed with reference to factors including financial loss, legal implications, corporate reputation, environmental safety, and business operations. The combined evaluation of likelihood and impact is then used to classify risks according to their severity, provide remedial plan and monitor the progress of rectification with the assistance of the head of the business units. Risks assessed at a higher level, together with the corresponding mitigation measures, are reported annually to the audit committee.

Environmental, Social and Governance Report

Metrics and Targets

GHG Emissions

During the Reporting Period, the GHG emissions of the Group were principally generated from diesel and petrol consumed by vehicles used in the lumber processing plants (Scope 1), electricity consumed for daily operations (Scope 2) and paper waste disposal and business air travel (Scope 3-Category 5: Waste Generated in operations and Category 6: Business Travel).

The Group applies an operational control approach in determining its GHG emissions, including emissions from operations over which the Group holds the authority to introduce and implement operational policies. For Scope 2 GHG emissions, a location-based approach is adopted in the calculation.

Currently, the Group relies on internal data and management processes to set and monitor its climate-related targets and the targets have not been validated by third party. Targets are set based on continuous improvement principles and take into account the historical performance trends, operational capabilities and constraints, available technologies and best practices, and resource allocation and investment plans. The Group monitors progress towards its climate-related targets on an ongoing basis through regular data collection and analysis. The Group reviews its climate-related targets annually and when there is any relevant significant change in business or operation to ensure they remain appropriate.

The Group set a target in FY2023 to reduce its GHG emissions intensity (tCO₂e/HK\$ million revenue) by 3% by FY2026, using FY2023 (0.52 tCO₂e/HK\$ million revenue) as the baseline year. However, despite there was a slight decrease in the total GHG emissions, the emissions intensity per revenue increased because of the reduced revenue. Thus, the target has not been achieved.

Since the above target has expired, the Group has set a new target to reduce its GHG emissions intensity (tCO₂e/HK\$ million revenue) by 3% by FY2030, using FY2026 (3.19 tCO₂e/HK\$ million revenue) as the baseline year. In achieving the target, the Group has adopted measures aiming to raise employee awareness of the importance of reducing GHG emissions in the Group's day-to-day operations.

Environmental, Social and Governance Report

The target is applicable to the Group in its entirety, encompassing Scope 1, Scope 2 and Scope 3 GHG emissions, mainly including carbon dioxide, methane and nitrous oxide. The Group will consider strengthening its target by drawing upon international agreements, seeking third-party validation and incorporating a sectoral decarbonisation approach in the setting of its targets as and when the time is ripe.

Scope 1 – Direct GHG Emissions

The Group has adopted the following measures to reduce the direct GHG emissions from diesel and petrol consumed by vehicles and forklifts in its day-to-day operations:

- Plan routes ahead of time to avoid route repetition and optimise fuel consumption;
- Regularly maintain vehicles to ensure optimal engine performance and fuel use;
- Switch off the vehicle engine when not in use; and
- Switch off the forklift engine when idle.

Scope 2 – Energy Indirect GHG Emissions

Electricity consumption accounted for the largest percentage of GHG emissions within the Group. The Group has implemented measures to reduce energy consumption, which are set out in the section headed “Energy Consumption” under Environmental aspect.

Scope 3 – Other Indirect GHG Emissions

Other indirect GHG emissions of the Group included methane gas generation at landfills due to the disposal of office paper and business air travel by employees. The measures implemented to reduce paper waste disposal are set out in the section headed “Waste Management” under this aspect.

The Group recognises that business air travel generates a large amount of GHG emissions, and business air travel is therefore only arranged when deemed necessary. Teleconferences and web conferences are always the Group’s preferred communication channels.

GHG emissions were also generated from the use of machinery, trucks, wagons and marine vessels during the process of harvesting and transportation of timber and wood products in the daily operations of the TSC Operation. However, since the Group outsourced these activities to third parties and did not have direct operational control over their activities, the relevant GHG emissions data was not included in this ESG Report.

Owing to the disposal of vehicles and phasing out ageing vehicle, the Group’s total GHG emissions decreased by approximately 15.01% in FY2026 compared to FY2025.

Environmental, Social and Governance Report

Summary of GHG emissions of the Group is as follows:

Indicator ⁶	Unit ⁷	FY2026			FY2025			Percentage change
		Factory-based	Office-based	Total	Factory-based	Office-based	Total	
Scope 1 – Direct GHG emissions								
• Diesel consumption	tCO ₂ e	55.08	–	55.08	22.55	130.98	153.53	–64.12%
• Petrol consumption	tCO ₂ e	14.41	–	14.41	17.61	15.16	32.77	–56.03%
• LPG consumption	tCO ₂ e	–	–	–	5.89	–	5.89	–100.00%
Scope 2 – Energy indirect GHG emissions								
• Electricity consumption	tCO ₂ e	269.89	5.49	275.38	193.99	6.72	200.71	37.20%
Scope 3 – Other indirect GHG emissions								
• Paper disposal	tCO ₂ e	0.42	0.96	1.38	0.48	1.31	1.79	–22.91%
• Business air travel	tCO ₂ e	–	8.32	8.32	–	22.48	22.48	–62.99%
Total GHG emissions	tCO₂e	339.80	14.77	354.57	240.52	176.65	417.17	–15.01%
Total GHG emissions intensity	tCO₂e/HK\$ million revenue			3.19			2.39	33.47%
	tCO₂e/employee			6.33			7.87	–19.57%

Notes:

- GHG emissions data is presented in terms of carbon dioxide equivalent and is based on, but not limited to, “The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard” issued by the World Resources Institute and the World Business Council for Sustainable Development, “How to prepare an ESG Report – Appendix 2: Reporting Guidance on Environmental KPIs” issued by the Stock Exchange, the “Global Warming Potential Values” from the Sixth Assessment Report (AR6) of the Intergovernmental Panel on Climate Change (IPCC), the “Sustainability Report 2024” and the “Sustainability Report 2025” published by HK Electric Investments, the “Greenhouse Gas Emission Intensity of Electricity Generation in Europe” published by the European Environment Agency in 2024 and 2025, and the International Civil Aviation Organization (ICAO) Carbon Emissions Calculator.
- tCO₂e is defined as tonne of carbon dioxide equivalent.

The Group remains committed to disclosing the amount and percentage of assets or business activities exposed to climate-related transition and physical risks, as well as those aligned with climate-related opportunities, to the extent that such information is available. During the Reporting Period, neither an internal carbon price nor carbon credits were applied or utilised by the Group. Going forward, the Group will endeavour to strengthen its data capabilities and monitor prevailing market and regulatory developments, with a view to enhancing such disclosures in the future.

Environmental, Social and Governance Report

B. SOCIAL

B1. Employment

The Group recognises that its continuing success is dependent on employees' talents and their dedication. Employment policies are formally documented in the Group's Human Resources Policy and Internal Control Manual, covering recruitment, compensation, benefits, diversity and equal opportunities, etc. The Group is aware of its responsibilities towards its employees. To recruit talents, ensure retention, as well as care for the emotional and physical well-being of its employees, the Group periodically reviews existing policies and employment practices to ensure continuous improvement of its employment standards and competitiveness against employers in similar industries. At 31 March 2026, the Group had a total of 56 (2025: 53) full-time employees (including directors).

The breakdown of employees according to gender, age distribution, employee category and geographical region is as follows:

Indicator	At 31 March 2026	At 31 March 2025
By Gender		
Male	33	32
Female	23	21
By Age Distribution		
Under 30	6	3
30 to 50	36	32
Above 50	14	18
By Employee Category		
Management	7	8
General Employee	49	45
By Geographical Region

Environmental, Social and Governance Report

During FY2026, there were 18 (FY2025: 30) employees leaving the Group, with the overall employee turnover rate being approximately 32.14%⁸ (FY2025: 56.60%). The breakdown of employee turnover according to gender, age distribution and geographical region is as follows:

Indicator	FY2026		FY2025	
	Number of employee turnover	Turnover Rate ⁹	Number of employee turnover	Turnover Rate ⁹
By Gender				
Male	10	30.30%	15	46.88%
Female	8	34.78%	15	71.43%
By Age Distribution				
Under 30	1	16.67%	2	66.67%
30 to 50	8	22.22%	21	65.63%
Above 50	9	64.29%	7	38.89%
By Geographical Region				
Hong Kong (including staff stationed in China)	9	60.00%	15	100%
Europe	8	19.51%	15	39.47%
Asia (other than Hong Kong and China)	1	N/A	–	N/A

Notes:

8. The overall turnover rate is calculated by dividing the number of employees leaving employment during the Reporting Period by the number of employees at the end of the Reporting Period.
9. The turnover rate by category is calculated by dividing the number of employees in the specified category leaving employment during the Reporting Period by the number of employees in the specified category at the end of the Reporting Period.

During FY2026, the Group was not aware of any material non-compliance with employment-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Ordinance, Sex Discrimination Ordinance, Disability Discrimination Ordinance, Family Status Discrimination Ordinance, Race Discrimination Ordinance and Minimum Wage Ordinance of Hong Kong, the Employment Relationships Act and Protection Against Discrimination Act of Slovenia, the Labour Code of Romania and the Labour Act of Croatia.

Environmental, Social and Governance Report

Recruitment, Diversity and Equal Opportunities

The sustainable growth of the Group relies on a non-discriminatory recruitment process and diverse talents. The Group's employees are recruited via a robust, transparent and fair recruitment process based solely on their experience and competence, without regard to their age, ethnicity, origin, gender, marital status, sexual orientation and religion. The recruitment process is stated in the Group's Human Resources Policy and Internal Control Manual.

The Group believes that all employees should have the right to work in an environment free of discrimination, harassment and vilification and is committed to creating and maintaining an inclusive and harmonious workplace culture. The Group does not tolerate any of the aforementioned behaviours in the workplace in any form.

Compensation and Dismissal

The Group rewards its employees according to prevailing market terms, individual competence, experience and performance, and requirements under the applicable labour laws where the Group's operations are located. The Group has also adopted a share option scheme to provide incentives or rewards to its directors, employees and others for their contribution to the growth and development of the Group.

The Group compensates employees in accordance with the statutory requirements of the respective jurisdictions, which cover employees who sustain personal injury by accident or disease arising out of and in the course of employment. Unreasonable dismissal under any circumstances is strictly prohibited, and dismissal will be based on reasonable and lawful grounds supported by the Group's internal policies.

Benefits and Welfare

In addition to the entitlement of leave stipulated in employment laws in the respective jurisdictions, the Group provides other leave to its employees, including compassionate leave and compensation leave. Employees are also entitled to benefits including group medical insurance scheme, business trip travel insurance scheme, discretionary performance bonus and education subsidies.

Promotion and Performance Review

Employee salaries are reviewed annually with reference to the result of their performance review. Employees are promoted on the basis of their performance and the extent to which they demonstrate the attributes required for a higher grade. The Group also gives preference to internal promotion to reward loyalty and the continuous effort of employees.

Working Hours and Rest Periods

Official working hours and rest periods are clearly stated in the Group's Human Resources Policy and employees' employment contracts in accordance with local employment laws.

Environmental, Social and Governance Report

B2. Health and Safety

During FY2026, the Group was not aware of any material non-compliance with health and safety-related laws and regulations that would have a significant impact on the Group, including but not limited to the Occupational Safety and Health Ordinance of Hong Kong, the Health and Safety at Work Act of Slovenia, the Law no. 319/2006 on Health and Safety at Work of Romania and Occupational Health and Safety Act of Croatia. During FY2026, there were no lost days due to injury (FY2025: nil). In addition, there were no work-related fatalities occurred in each of the past three years including the year ended 31 March 2024.

Provision of Safe Working Environment

The Group attaches great importance to providing employees with a safe and healthy working environment. Although health and safety risks that are applicable to office-based business operations are limited, the Group is nevertheless committed to safeguarding the well-being of employees. The Group provides ergonomic chairs for its office employees to help alleviate potential discomfort and backaches. Portable fire extinguishers are placed in the offices and are within easy reach, fire exits are free from obstruction and first aid boxes are placed around the premises. For the Group's factory-based operations, employees are required to use protective equipment at all times to avoid accidents. All employees are well-trained with safety knowledge in the areas they engage in. In addition, the Group carries out routine inspections and maintenance of equipment in the factory to avoid mechanical breakdowns, which may cause accidents. The Group has also established the relevant policies to ensure effective management of occupational health and safety matters.

B3. Development and Training

Provision of Training Opportunities

Training and continuous development are indispensable to the Group's employees to better adapt to the ever-changing trends of the industry. The Group encourages a continuous learning atmosphere for career development and thus provides both in-house training and subsidies for employees' continuing professional development activities. Furthermore, the Group encourages employees to attend personal off-the-job training sessions to enhance their job skills and increase their competitiveness against others in the industry. The Group holds a firm belief that providing its employees with adequate training opportunities and room for continuous development lays a solid foundation for the Group's continuing success.

As a financial services provider, apart from ensuring a stringent anti-corruption and anti-money laundering policy framework is well established, the Group provides adequate training and encourages its employees to participate in external seminars on such areas. The Group has also established the relevant policies for employee training management.

Environmental, Social and Governance Report

During FY2026, the overall percentage of employees trained was approximately 100.00%¹⁰ (FY2025: 100.00%) and the Group's employees had received an average of approximately 5.39¹¹ (FY2025: 5.70) hours of training and development. The percentage of employees trained, the average training hours completed per employee and the breakdown of employees trained by gender and employee category are shown as follows:

Indicator	Unit	Percentage of employees trained ¹²	
		FY2026	FY2025
By Gender			
Male	%	100.00	100.00
Female	%	100.00	100.00
By Employee Category			
Management	%	100.00	100.00
General Employee	%	100.00	100.00

Notes:

10. The percentage of employees trained is calculated by dividing the total number of employees trained during the Reporting Period (excluding employees left) by the total number of employees at the end of the Reporting Period.
11. The average training hours per employee are calculated by dividing the total number of training hours of employees during the Reporting Period (excluding employees left) by the total number of employees at the end of the Reporting Period.
12. The percentage of employees trained by category is calculated by dividing the total number of employees trained in the specified category during the Reporting Period (excluding employees left) by the total number of employees in the specified category at the end of the Reporting Period.

		Average training hours completed per employee ¹³	
Indicator	Unit	FY2026	FY2025
By Gender			
Male	hours	6.06	6.25
Female	hours	4.43	4.86
By Employee Category			
Management	hours	24.86	21.75
General Employee	hours	2.61	2.84

Note:

13. The average training hours by category is calculated by dividing the total number of training hours of employees in the specified category during the Reporting Period (excluding employees left) by the total number of employees in the specified category at the end of the Reporting Period.

Environmental, Social and Governance Report

B4. Labour Standards

Prevention of Child and Forced Labour

As a responsible corporation, the Group is firmly against the employment of child and forced labour. The Group guarantees that no employee will be made to work against his/her will or be coerced to work, and the recruitment of child labour is also strictly prohibited. All employees recruited by the Group are above 18 years old and are subject to satisfactory reference checks. Personal data is collected and original supporting documents must be presented during the recruitment process to assist the Human Resources department in verifying the candidates' personal data and selecting the most suitable candidates. A detailed background and reference check will also be conducted on potential hires.

Any incident of child labour or forced labour, when discovered, shall be investigated and reported to the government authorities promptly in accordance with the applicable laws. Furthermore, the Group shall immediately terminate the employment contract and impose due punishment on the erring employee.

During FY2026, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Ordinance of Hong Kong, the Employment Relationships Act of Slovenia, the Labour Code of Romania and the Labour Act of Croatia.

Environmental, Social and Governance Report

B5. Supply Chain Management

To maintain the current high standards of its supply chain management, the Group not only ensures suppliers meet the mutually agreed quantity and quality of products and services but also considers their environmental and social impacts. The Group has a well-managed procurement system and strict supplier selection process, including qualification authentication, production examinations, as well as supply history assessments to ensure the supplier's commitment to product liability and quality. All suppliers are carefully evaluated under the standardised procurement procedures, and are regularly monitored and evaluated in a fair manner.

The number of suppliers for the TSC Operation by geographical region is as follows:

By Geographical Region	FY2026	FY2025
Romania	30	27
Croatia	19	23
Slovenia	24	42
Papua New Guinea	1	4
Others	5	2
Total	79	98

Procurement Process

The Group has established a policy relating to its supply chain management, which details the requirements of performing a "Know Your Supplier" check and other confirming procedures before engaging new suppliers. The Group considers factors including suppliers' reputation, prevailing market price and delivery time when making purchases with the suppliers. In addition, the purchases of supplies are determined after considering the current inventory level, expected customer demands, projected sales trends and market outlook.

In order to ensure the stability of the supply chain, where possible, the Group strives not to over-rely on a particular supplier by maintaining more than one supplier for each type of product or service required. The Group monitors and annually evaluates the performance of its suppliers to ensure their compliance with legal requirements, quality and performance standards. The Group conducts regular follow-up evaluations of suppliers and will suspend cooperation with them if they have failed to meet the standard of the Group, committed any irregularities that do not meet the contractual requirements, or supplied products that did not meet production requirements. The Group will not make purchases from underperforming suppliers until circumstances have improved, thus ensuring a supply of high-quality products and services.

Environmental, Social and Governance Report

Environmental and Social Risk Management of the Supply Chain

The Group pays attention to suppliers' performance on environmental and social risk control. Aside from conventional consideration factors such as product quality and timely delivery, suppliers that place an emphasis on environmental protection or have clear guidelines to protect labour rights are prioritised during the procurement process.

Since the raw material for the Group's production is mainly timber, the Group recognises the potential risks of unstable raw material supply chain in relation to forest resources. The Group requires products and raw materials used by the suppliers to meet the environmental protection requirements set out in national and local laws and regulations as well as industrial standards, and encourages the usage of clean production processes and equipment.

Apart from environmental risks, the Group also takes measures to examine whether its major suppliers/contractors are in compliance with the relevant laws and regulations and other required standards for health, safety, forced labour and child labour.

In order to produce environmentally preferable products and services, the Group actively seeks suppliers who may provide environmentally friendly products and services and gives priority to sourcing equipment that has a lower environmental impact or is more energy efficient. For suppliers who are likely to cause or have caused serious harm to the environment and local communities or significant environmental pollution, the Group will terminate the contract with those suppliers. The Group will regularly monitor the effectiveness of the above supply chain management practices so as to minimise potential environmental risks along the supply chain.

B6. Product Responsibility

The Group recognises the importance of product quality and corporate reputation and is committed to continuously improving its products and services. The Group maintains communication with its customers to ensure understanding and meeting of customer needs and expectations. The Group also actively monitors the quality of its products and services through internal controls.

During FY2026, the Group was not aware of any non-compliance with the laws and regulations concerning health and safety, advertising, labelling and privacy matters relating to the Group's products and services as well as methods of redress that would have a significant impact on the Group, including but not limited to the Personal Data (Privacy) Ordinance of Hong Kong, the Personal Data Protection Act of Slovenia, the Law no. 245/2004 on the General Safety of Products of Romania and the General Product Safety Act of Croatia.

Environmental, Social and Governance Report

Quality Assurance

TSC Operation

The Group has implemented a strict quality control system to monitor the purchase, inventory management, processing, and transportation of timber logs and wood products.

Timber logs and wood products purchased by the Group undergo on-site quality checking before they are loaded on wagons or trucks for land transport to the log yards of the distribution hubs or sometimes directly to ports. The supervisors of the log yards perform quality checks on the cargoes again upon unloading by referencing the grade, diameter and length of the timber logs, as well as the size and quality of the wood products. The cargoes are then stored in the warehouse at the log yards. There are measures in place to maintain the quality of timber logs and wood products, including temperature and moisture control. There are also controlling measures to ensure safe custody of the inventories.

For timber logs transported to the manufacturing plant engaged in processing the timber into lumber, a quality check is performed upon unloading to ensure the timber logs are not damaged during transportation.

The Group's logistic teams arrange transport on a daily basis from forests or supplier sites to log yards or ports in accordance with the procurement plan by referencing truck and/or rail schedules, weather forecasts and local transportation rules to ensure road safety in different weather conditions.

Once potentially unsafe products are identified, a product recall procedure would be initiated to stop the further distribution and sale of the product to the market. The cause, extent and result of the recall would be recorded and reported to the senior management. During FY2026, the Group did not have any recalls due to safety and health reasons regarding the Group's products and services (FY2025: nil).

Money Lending Business

The Group ensures that its employees are familiar with the Guidelines on Licensing Conditions of Money Lenders Licence issued by the Companies Registry on requirements for its money lending business advertisements. The guidelines stipulate that any advertisement in relation to a money lending business, whether in textual, audio or visual form, must contain the relevant money lender's telephone hotline for handling complaints and a clearly stated risk warning statement. The said risk warning statement must also be clearly audible in the audio part of the advertisement.

Advertising and Labelling

During FY2026, the Group did not have significant advertising and labelling issues.

Environmental, Social and Governance Report

Data Privacy Protection

The Group is committed to protecting the legitimate rights and interests of its customers. Unauthorised access and dissemination of customers' sensitive information are strictly prohibited unless the employees are under a legal obligation to do so. The Group's Information Technology ("IT") Policy provides guidelines on preventing data leakage and holds the IT department responsible for ensuring that the anti-virus protection for all computer and network connections is adequate. Confidential information, such as sensitive financial data, should be encrypted with a password. Only authorised personnel are permitted to access the customers' information database, and they are entitled to access the information only on a need-to-know basis. The existing privacy and security policies are reviewed on a regular basis and will be updated whenever applicable laws and regulations are revised.

Intellectual Property Rights

The Group refrains from using any illegal software or products. As a responsible and ethical corporation, the Group is in full support of the use of legal software and products that have obtained licences or those that have been certified by the relevant authorities.

Customer Satisfaction

The timber logs and wood products offered by the Group are usually sold to customers in China and other countries. The Group's sales team maintains regular communication with existing and potential customers to understand their individual requirements. In addition, the Group has a team with sourcing and procurement expertise to work with the forest owners/suppliers directly and regularly communicate with the sales team to understand the customers' requirements. The sourcing and procurement team performs research and analysis on the supply and demand of different types of timber and wood products based on market intelligence, news, published data, etc. The sourcing and procurement team then identifies and sources forest owners/suppliers who can supply the timber and wood products at the best available price. Furthermore, the Group provides after-sales services to ensure that customers are 100% satisfied with the timber logs, wood products and logistic services it provides.

Feedback and complaints from the Group's customers are highly valued, as they are of vital importance to the sustainable development of the Group. Procedures for handling feedback are well established, and should the Group receive any complaints, the Group will strive to act in a timely manner to resolve the issue with effective corrective actions. In addition, valid complaints of significant weight will be discussed and reviewed by the management during regular meetings to prevent re-occurrences. During FY2026, the Group did not receive any material complaints from its customers in respect of products or services provided (FY2025: nil).

Environmental, Social and Governance Report

B7. Anti-corruption

A solid corporate governance structure is crucial to the Group's sustainable growth. The Group emphatically asserts its zero-tolerance stance in relation to any kind of corruption, bribery, forgery, extortion, conspiracy, embezzlement and collusion cases that not only violate applicable laws and regulations but also severely tarnish the business integrity and reputation of the Group.

During FY2026, the Group was not aware of any material non-compliance with the relevant laws and regulations of bribery, extortion, fraud and money laundering that would have a significant impact on the Group, including but not limited to the Money Lenders Ordinance, the SFO, the Prevention of Bribery Ordinance of Hong Kong, the Integrity and Prevention of Corruption Act of Slovenia, the Law no. 135/2010 on the Criminal Procedure Code of Romania and the Act on the Responsibility of Legal Persons for Criminal Offences of Croatia. During FY2026, there were no cases regarding corrupt practices brought against the Group or its employees.

Anti-money Laundering and Counter-financing of Terrorism

As a financial services provider, the Group is particularly sensitive to the prevention of money laundering and other financial crimes. Apart from complying with local laws and guidelines promulgated by the regulatory authorities, the Group recognises its responsibility to protect the integrity of the financial system. The Group has formulated the Anti-money Laundering and Counter-terrorist Financing Policy to ensure that its employees are familiar with their responsibilities in combating criminal activities. Guidelines are also in place to safeguard the interests of the Group, which include background evaluation procedures and customer due diligence requirements in relation to the loan assessment and approval process.

Anti-bribery and Anti-corruption Practices

To prevent the occurrence of corrupt practices in the Group's business operations, the Group has formulated a Conflict of Interest Policy in relation to accepting business courtesies, gifts or hospitality, and has specified the consequences of accepting or soliciting such benefits. Bribery, fraud and corruption in any form or in relation to any party are all strictly prohibited.

To enhance employees' awareness of anti-bribery and anti-corruption practices, the Group provides training on ethical conduct and anti-corruption to all directors and employees on a regular basis. The Group's directors and employees regularly attend anti-corruption training to enhance their knowledge of anti-corruption legislation and global trends, as well as acquire the necessary skills to handle ethical dilemmas at the workplace.

During FY2026, the Group organised several anti-corruption training sessions and distributed materials to directors and employees. These include (i) anti-money laundering presentation materials by the Independent Commission Against Corruption; (ii) anti-money laundering and anti-corruption training conducted by the Companies Registry; and (iii) training sessions covering the topics of common corruption issues faced during daily operations, essential elements of the code of conduct, corruption risk identification and controls, measures to prevent and tackle unethical conduct, and promulgation of anti-corruption practices. During FY2026, a total of 5 directors and 3 employees (FY2025: 6 directors and 5 employees) of the Group received anti-corruption training and the total anti-corruption training hours were approximately 9 and 3.5 hours respectively (FY2025: 12 and 10 hours respectively).

Environmental, Social and Governance Report

Whistleblowing Mechanism

The Group has established a reporting and investigative procedure to encourage its employees and/or third parties (e.g. customers and suppliers) to report potential fraudulent activities, which is outlined in the Whistleblowing Policy. The Group endeavours to protect the whistleblower from common concerns such as victimisation and potential retaliation. The employee reporting in good faith under this procedure shall be assured of protection against unfair dismissal or victimisation, even if the reports are subsequently proved to be unsubstantiated.

B8. Community Investment

The Group recognises the importance of making a positive impact on the community and realises the responsibility of giving back to the members of society. Therefore, the Group has formulated relevant policies to encourage its employees to engage in community services and voluntary activities, focusing on the support of the less-abled and financially challenged members of the public. Meanwhile, the Group is actively extending its scope of contributions to benefit the environment. During the Reporting Period, the Group participated in Earth Hour organised by WWF.

The Group is dedicated to expanding its efforts in charity work to make contributions to the communities in which the Group has operations, so as to create a better living environment and enhance citizens' quality of life.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF RELIANCE GLOBAL HOLDINGS LIMITED

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Reliance Global Holdings Limited (the **"Company"**) and its subsidiaries (together, the **"Group"**) set out on pages 88 to 177, which comprise the consolidated statement of financial position at 31 March 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2026 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (the **"IASB"**) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (**"HKSAs"**) issued by the Hong Kong Institute of Certified Public Accountants (**"HKICPA"**). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements" section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the **"Code"**), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Provision for expected credit losses ("ECL") and impairment assessment of loan receivables, interest receivables and repossessed assets

We identified the ECL assessment and impairment assessment on loan receivables, interest receivables and repossessed assets as a key audit matter due to management judgement was required in making an assessment of the adequacy of the ECL assessment and impairment provision for loan receivables, interest receivables and repossessed assets arising from the money lending business.

The carrying amount of the loan receivables, interest receivables and repossessed assets as at 31 March 2026 amounted to approximately HK\$29,663,000, HK\$680,000 and HK\$12,595,000 respectively.

In determining the impairment provision of loan receivables, interest receivables and repossessed assets, the recoverability of the loan receivables, interest receivables and repossessed assets was assessed by the management taking into account the credit quality and likelihood of collection.

Our procedures in relation to management's impairment assessment of the loan receivables, interest receivables and repossessed assets included:

- Understanding the Group's policy on granting loans to its borrowers and the Group's credit and impairment assessments including the related credit control and loan monitoring process;
- Challenging management's basis and judgement in determining credit loss allowance at 31 March 2026, including the identification of credit impaired loan receivables and interest receivables, estimated loss rates applied to each borrower and collaterals pledged to the Group;
- Evaluating the management's assessment of the internal credit rating of the borrowers by reference to the past due status, past collection history, subsequent settlement information and financial condition of the borrowers;
- Testing the mathematical accuracy of the impairment allowance calculation and settlement records on a sample basis;
- Evaluating the expected cash shortfalls estimated by the management by checking the expected cash flows from the realisation of collaterals against publicly available information;

Independent Auditor's Report

KEY AUDIT MATTERS (continued)

Key audit matter	How our audit addressed the key audit matter
<i>Provision for expected credit losses ("ECL") and impairment assessment of loan receivables, interest receivables and repossessed assets (continued)</i>	
ECL for loan receivables, interest receivables and repossessed assets are based on management's estimate of ECL to be incurred, which is estimated by taking into account the credit loss experience, aging of overdue amounts, customers' repayment history and customers' financial position, all of which involve a significant degree of management judgement.	- Assessing the reasonableness of forward-looking information used by the Group; - Obtaining and reviewing the assessment prepared by the external professional valuer engaged by the management; and - Assessing the qualifications, experience and expertise of the external professional valuer engaged by management and considered its objectivity and independence.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors of the Company are responsible for the other information. The other information comprises the information in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

RESPONSIBILITIES OF THE DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats of safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

1. CORPORATE INFORMATION

Reliance Global Holdings Limited (the “**Company**”) was incorporated in Bermuda as an exempted company with limited liability under the Companies Act 1981 of Bermuda and its ordinary shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The address of its registered office is Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and its principal place of business in Hong Kong is Room 2401A, 24th Floor, Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong.

The principal activities of the Company are investment holding and provision of management services. The principal activities of the subsidiaries of the Company comprise money lending business conducted pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong) and forest-related business comprising sustainable forest management and timber supply chain.

2. STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) Accounting Standards as issued by the International Accounting Standards Board (“**IASB**”), and the disclosure requirements of the Hong Kong Companies Ordinance. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the “**Listing Rules**”). Material accounting policy information adopted by the Company and its subsidiaries (collectively referred to as the “**Group**”) are disclosed below.

The IASB has issued certain new and amendments to IFRS Accounting Standards which are mandatorily effective for the current accounting period of the Group. Note 4 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

(a) Basis of preparation of the consolidated financial statements

The consolidated financial statements for the year ended 31 March 2026 comprise the financial statements of the Company and its subsidiaries.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the “**functional currency**”). These consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), rounded to the nearest thousand (HK\$’000) except otherwise indicated. Hong Kong dollar is the Company’s functional currency and the Group’s presentation currency.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(a) Basis of preparation of the consolidated financial statements (continued)

The measurement basis used in the preparation of the financial statements is the historical cost basis except that the following assets are stated at their fair values as explained in the accounting policies set out below:

- Financial assets at FVPL

The preparation of financial statements in conformity with IFRS Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to an accounting estimate is recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by the management in the application of IFRS Accounting Standards that have a significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 5.

(b) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it has power over the entity, it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered. The Group reassesses whether or not it controls an entity if facts and circumstances indicate that there are changes to one or more of the elements of control.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies. Intra-group balances, transactions and cash flows and any recognised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(b) Subsidiaries and non-controlling interests (continued)

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and owners of the Company. Total comprehensive income of subsidiaries is attributed to owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised. Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (that is, reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRS Accounting Standards). Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, interests in subsidiaries are stated at cost less impairment losses (please refer to note 3(h)(ii)).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(c) Associates

An associate is an entity in which the Group has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

An investment in an associate is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). The financial statements of an associate used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Appropriate adjustments have been made to conform the associate's accounting policies to those of the Group. Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). The cost of the investment includes purchase price and other costs directly attributable to the acquisition of the investment. Thereafter, the investment is adjusted to recognise the Group's post-acquisition share of the profit or loss and other comprehensive income of the associate and any impairment loss relating to the investment. Any acquisition date excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment (after reassessment) is recognised in the consolidated statement of profit or loss.

When the Group's share of losses exceeds its interest in an associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate after applying the expected credit loss model to such other long-term interests where applicable.

Unrealised profits and losses resulting from transactions between the Group and its associate are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(c) Associates (continued)

The Group assesses whether there is any objective evidence that its net investment in the associate is impaired. When there is objective evidence of impairment, the entire carrying amount (including goodwill) of the investment is tested for impairment in accordance with IAS 36 Impairment of Assets ("IAS 36") as a single asset, by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. An impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the associate or joint venture. Accordingly, any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the net investment subsequently increases.

In all other cases, when the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would have been required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

In the Company's statement of financial position, investments in associates are stated at cost less impairment losses, unless classified as held for sale (or included in a disposal group that is classified as held for sale).

(d) Other investments in securities

The Group's policies for investments in securities, other than investment in subsidiaries, are set out below.

Investments in securities are recognised/derecognised on the dates the Group commits to purchase/sell the investments. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at FVPL for which transaction costs are recognised directly in profit or loss. These investments are subsequently accounted for as follows, depending on their classification.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(d) Other investments in securities (continued)

(i) Debt instruments

Debt instruments are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Expected credit losses, interest income calculated using the effective interest method, foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
- fair value through other comprehensive income (“**FVOCI**”) – recycling, if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses are recognised in profit or loss and computed in the same manner as if the financial asset was measured at amortised cost. The difference between the fair value and the amortised cost is recognised in other comprehensive income. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.
- Fair value through profit or loss (“**FVPL**”), if the investment does not meet the criteria for being measured at amortised cost or FVOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

(ii) Equity investments

An investment in equity securities is classified as FVPL, unless the investment is not held for trading purposes and on initial recognition the Group makes an irrevocable election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer’s perspective. If such election is made for a particular investment, at the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings and not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Property, plant and equipment

The following items of property, plant and equipment for own use are stated in the consolidated statement of financial position at cost less accumulated depreciation and accumulated impairment losses (please refer to note 3(h)(ii)):

- buildings, furniture and fixtures, machinery, engineering and other equipment, and motor vehicles; and
- right-of-use assets arising from leases over leasehold properties where the Group is not the registered owner of the property interest.

Freehold land is not depreciated and is measured at cost less subsequent accumulated impairment losses.

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads and borrowing costs.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

Buildings	not more than 50 years after the date of completion
Furniture and fixtures	5 – 10 years
Machinery, engineering and other equipment	5 – 10 years
Motor vehicles	5 years

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Historical cost includes expenditure that is directly attributable to the acquisition of an item of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the reporting period in which they are incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Property, plant and equipment (continued)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gain or loss arising from the retirement or disposal of an item of property, plant and equipment is determined as the difference between the net proceeds on disposal and the carrying amount of the item and is recognised in profit or loss on the date of retirement or disposal.

(f) Intangible assets (other than goodwill)

Intangible assets, other than goodwill, identified on business combinations are capitalised based on their fair values.

Intangible assets acquired by the Group are stated in the consolidated statement of financial position at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see note 3(h)(ii)).

Money lenders licence will not be amortised until its useful life is determined to be finite, but subject to impairment test annually.

Gain or loss arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, is recognised in profit or loss when the asset is derecognised.

(g) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. The Group will reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are subsequently changed. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. Non-lease components are separated from lease component(s) and are accounted for by applying other applicable standards.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for leases that have a lease term of 12 months or less and do not have a purchase option and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(g) Leases (continued)

As a lessee (continued)

Where the lease is capitalised at the commencement date of the lease, the lease liability is initially recognised at the present value of the lease payments (less any lease incentives receivable) payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

Lease payments also include amounts expected to be payable by the Group under residual value guarantees; the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method.

The right-of-use asset is recognised when a lease is capitalised and initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date less any lease incentives received, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, a provision is recognised and measured under IAS 37. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The initial fair value of refundable rental deposit paid is accounted for separately from the right-of-use asset in accordance with the accounting policy applicable to financial asset measured at amortised cost. Any difference between the initial fair value and the nominal value of the deposit is accounted for as additional lease payment made and is included in the cost of right-of-use asset.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(g) Leases (continued)

As a lessee (continued)

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("**lease modification**") and that is not accounted for as a separate lease. In this case, the consideration in the modified contract is allocated to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the lease modification.

The Group presents right-of-use assets that do not meet the definition of investment property and lease liabilities separately in the consolidated statement of financial position.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

(h) Credit losses and impairment of assets

(i) Credit losses from financial instruments

The Group recognises impairment loss for expected credit loss ("**ECL**") on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents, trade and other receivables, loan receivables and interest receivables), which are held within a business model for the collection of contractual cash flows which represent solely payments of principal and interest ("**SPPI**");

Other financial assets measured at fair value, including financial assets measured at FVPL, is not subject to the ECL assessment.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Measurement and recognition of ECL

ECL are a probability-weighted estimate of credit losses over the expected life of the financial instrument. Credit losses are measured at the present value of all expected cash shortfalls (that is, the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof; and
- loan receivables and interest receivables: discount rate used in the measurement of the receivables.

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECL, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECL are measured on either of the following bases:

- 12-month ECL (“**12-m ECL**”): these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECL: these are losses that are expected to result from all possible default events over the expected life of a financial instrument.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) *Credit losses from financial instruments (continued)*

Measurement and recognition of ECL (continued)

Impairment loss for trade receivables is always measured at an amount equal to lifetime ECL. ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments including cash and cash equivalents, other receivables, loan receivables and interest receivables, the Group recognises impairment loss equal to 12-m ECL unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the impairment loss is measured at an amount equal to lifetime ECL.

The measurement of ECL is a function of the probability of default, loss given default (that is, the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. As for the exposure at default, for financial asset, it is represented by the asset's gross carrying amount at the reporting date; for financial guarantee contract, the exposure includes the amount of guaranteed debt that has been drawn down at the reporting date, together with any additional guaranteed amount expected to be drawn down by the borrower in the future determined based on historical trend, the Group's understanding of the specific future financing needs of the debtor, and other relevant forward-looking information.

The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience and forward-looking information that is available without undue cost or effort. ECL on individually significant trade receivables are estimated individually based on all reasonable and supportable information, including that which is forward-looking, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Measurement and recognition of ECL (continued)

Where ECL are measured on a collective basis, the financial instruments are grouped on the basis below:

- nature of financial instruments;
- past-due status;
- nature, size and industry of debtors; and
- external credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

The Group recognises an impairment loss or a reversal of impairment loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables, loan receivables and interest receivables where the corresponding adjustment is recognised through an impairment allowance account. For investments in financial assets (other than equity securities) that are measured at FVOCI, the loss allowance is recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Significant increases in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor;
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group;
- an actual or expected internal credit rating downgrade for the borrower;
- an actual or expected significant change in the operating results of the borrower;
- significant increases in credit risk on other financial instruments of the same borrower;
- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements, which are expected to reduce the borrower's economic incentive to make scheduled contractual payments or to otherwise have an effect on the probability of a default occurring; and
- significant changes in the expected performance and behaviour of the borrower.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Significant increases in credit risk (continued)

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default, (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the debtor to fulfil its contractual cash flow obligations. The Group considers a financial instrument to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definitions.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

The Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

ECL are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment loss or a reversal of impairment loss in profit or loss. The Group recognises an impairment loss or a reversal of impairment loss for all financial instruments with a corresponding adjustment to their carrying amount through an impairment allowance account. For investments in financial assets (other than equity securities) that are measured at FVOCI, the loss allowance is recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

Definition of default

For internal credit risk management, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Basis of calculation of interest income

Interest income recognised in accordance with note 3(v)(ii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (that is, the gross carrying amount less impairment allowance) of the financial asset.

Credit-impaired financial assets

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the debtor will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor;
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses; or
- the disappearance of an active market for that financial asset because of financial difficulties of the issuer.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(i) *Credit losses from financial instruments (continued)*

Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(ii) *Impairment of non-financial assets*

Intangible assets that have an indefinite useful life are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Internal and external sources of information is reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognized no longer exists or may have decreased:

- property, plant and equipment;
- right-of-use assets;
- intangible assets; and
- interests in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(ii) Impairment of non-financial assets (continued)

- Calculation of recoverable amount

The recoverable amount of an asset is the higher of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (that is, a cash-generating unit). A portion of the carrying amount of a corporate asset (for example, head office building) is allocated to an individual cash-generating unit if the allocation can be done on a reasonable and consistent basis, or to the smallest group of cash-generating units if otherwise.

- Recognition of impairment losses

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss recognised in respect of a cash-generating unit is allocated first to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below the highest of its individual fair value less costs of disposal (if measurable) or value in use (if determinable) and zero.

- Reversal of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(h) Credit losses and impairment of assets (continued)

(iii) *Interim financial reporting and impairment*

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with IAS 34, "Interim Financial Reporting", in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year.

(i) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

(j) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Trade receivables that contain a significant financing component and other receivables are initially measured at fair value plus transaction costs. All receivables are subsequently stated at amortised cost, using the effective interest method, less impairment allowance for ECL (please refer to note 3(h)(i)).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(k) Loan receivables

Loan receivable is initially measured at fair value plus, in the case of a financial asset not at fair value through profit or loss, direct transaction costs. Loan receivable is subsequently measured at amortised cost if both of the following conditions are met:

- (i) it is held within a business model whose objective is to hold it in order to collect contractual cash flows; and
- (ii) the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(l) Repossessed assets

There are two types of repossessed assets:

- (i) In situation where the Group takes ownership and control of the collateral assets in the recovery of credit-impaired loan and interest receivables through court proceedings and releases the obligations of the borrower, the repossessed assets are classified as non-current assets held for sale when they meet the definition of non-current assets held for sale and the recognition criteria under IFRS 5. Non-current assets held for sale are measured at the lower of fair value less costs of disposal and the carrying amount. The related loan and interest receivables together with the impairment allowances are derecognised from the consolidated statement of financial position upon the recognition of the repossessed assets.
- (ii) In situation where the Group obtains rights to lease or sell of the underlying collateral assets in the recovery of credit-impaired loan and interest receivables through court proceedings but does not obtain ownership and control of the underlying collateral assets, the repossessed assets represent the credit-impaired loan and interest receivables that are not derecognised and continue to be measured at amortised cost less provision for impairment under IFRS 9.

(m) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL in accordance with the policy set out in note 3(h)(i). Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. Such overdrafts are presented as short-term borrowings in the statement of financial position.

Cash at bank excludes bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(n) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less attributable transaction costs. Subsequent to initial recognition, these interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (as described in note 3(x)). Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity service and amortised over the period of the facility to which it relates.

These Interest-bearing borrowings are classified as current liabilities unless the Group has the right, at the end of the reporting period, to defer settlement of the liability for at least twelve months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Group is required to comply with after the reporting period do not affect the classification at the reporting date.

(o) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

(p) Preferred share capital

Preferred share capital is classified as equity if it is non-redeemable, or redeemable only at the Company's option, and any dividends are discretionary. Dividends on preferred share capital classified as equity are recognised as distributions within equity.

Preferred share capital is classified as a liability if it is redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary. The liability is recognised in accordance with the Group's policy for interest-bearing borrowings set out in note 3(n) and accordingly dividends thereon are recognised on an accruals basis in profit or loss as part of finance costs.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(q) Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

(r) Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

(s) Employee benefits

(i) *Short-term employee benefits and contributions to defined contribution retirement plans*

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values. All short-term employee benefits are recognised as an expense unless another IFRS Accounting Standard requires or permits the inclusion of the benefit in the cost of an asset.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(s) Employee benefits (continued)

- (ii) The Group operates a Mandatory Provident Fund retirement benefits scheme (the “**MPF Scheme**”) under the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme. The Group’s subsidiaries which operate in Slovenia, Romania and Croatia are required to participate in a central pension scheme (the “**Central Pension Schemes**”) operated by the local municipal government for its employees in Slovenia, Romania and Croatia. The subsidiaries are required to contribute a percentage of their payroll costs to the Central Pension Schemes. The contributions under these defined contribution retirement schemes are charged to profit or loss as they become payable in accordance with the rules of the Central Pension Schemes. The Group’s contributions to the MPF Scheme and the Central Pension Schemes vest fully and immediately with the employees. Accordingly, there are no forfeited contributions available for the Group to reduce its existing level of contributions to the MPF Scheme and the Central Pension Schemes. The assets of the schemes are held separately from those of the Group under the control of trustees.

Pursuant to the Hong Kong Employment Ordinance, Chapter 57 of the Laws of Hong Kong, the Group has the obligation to pay long service payment (“**LSP**”) to qualifying employees in Hong Kong upon retirement, subject to a minimum of 5 years employment period, based on this formula: last monthly wages (before termination of employment) $\times \frac{2}{3} \times$ years of service. Last monthly wages are capped at HK\$22,500 while the amount of LSP shall not exceed HK\$390,000. This obligation is accounted for as a post-employment defined benefit plan.

In June 2022, the Government of the Hong Kong Special Administrative Region enacted the Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the “**Amendment Ordinance**”) which will be effective from 1 May 2025 (the “**Transition Date**”). Under the Amendment Ordinance, any accrued benefits attributable to the employer’s mandatory contributions under the MPF scheme of an entity would no longer be eligible to offset against its obligations on LSP for the portion of the LSP accrued on or after the Transition Date.

(iii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(t) Income tax

Income tax for the year comprises current tax and deferred tax expenses. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided that those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, the entity has sufficient taxable temporary differences relating to the same taxation authority and the same taxable entity, which will result in taxable amounts against which the unused tax losses or unused tax credits can be utilised before they expire.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(t) Income tax (continued)

The limited exceptions to recognition of deferred tax assets and liabilities are:

- temporary differences arising from the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination) and do not give rise to equal taxable and deductible temporary differences;
- temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future and taxable profits will be available; and
- temporary differences related to income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(t) Income tax (continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if a group entity has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the group entity intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(u) Provisions, contingent liabilities and onerous contracts

(i) Provisions and contingent liabilities

Provision is recognised when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provision is stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(u) Provisions, contingent liabilities and onerous contracts (continued)

(ii) *Onerous contracts*

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. The cost of fulfilling a contract comprises the costs that relate directly to the contract, which consist of both the incremental costs of fulfilling that contract (e.g., direct labour and materials); and an allocation of other costs that relate directly to fulfilling contract (e.g. an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling that contract). Provisions for onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the net cost of fulfilling with the contract. Before a separate provision for an onerous contract is established, the Group recognises any impairment loss that has occurred on assets used in fulfilling the contract.

(v) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services and interest income from money lending business in the ordinary course of the Group's business.

In determining whether the Group acts as a principal or as an agent, it considers whether it obtains control of the products or services before they are transferred to the customers. Control refers to the Group's ability to direct the use of and obtain substantially all of the remaining benefits from the products or services. When the Group acts as a principal, the Group recognises revenue in the gross amount of consideration to which it expects to be entitled in exchange for the specified good or service transferred. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

Revenue is recognised when control over a product or service is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer at contract inception, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of IFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(v) Revenue and other income (continued)

Further details of the Group's revenue and other income recognition policies are as follows:

(i) *Sale of goods*

Revenue is recognised when the customer takes possession of and accepts the products.

(ii) *Interest income*

Interest income is recognised as it accrues under the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. For financial assets (other than purchased or originated credit-impaired financial assets) measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the amortised cost (that is, gross carrying amount net of impairment allowance) of the financial asset (see note 3(h)(i)).

(w) Translation of foreign currencies

Foreign currency transactions during the year are translated into the functional currency of a group entity at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency of a group entity at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated into the functional currency of a group entity using the foreign exchange rates ruling at the transaction dates and are not re-translated. The transaction date is the date on which a group entity initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured. When a fair value gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is also recognised in profit or loss. When a fair value gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is also recognised in other comprehensive income.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(w) Translation of foreign currencies (continued)

For the purpose of presenting consolidated financial statements, the assets and liabilities of the foreign operations are translated at exchange rates prevailing on the reporting date. The results of foreign operations are translated into Hong Kong dollars at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case, the foreign exchange rates ruling at the dates of the transactions are used. Items of statement of financial position, including goodwill arising on consolidation of foreign operations acquired on or after 1 April 2005, are translated into Hong Kong dollars at the closing foreign exchange rates ruling at the end of the reporting period. The resulting exchange difference is recognised in other comprehensive income and accumulated separately in equity in the exchange fluctuation reserve, except to the extent that the translation difference is allocated to non-controlling interests. Goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition of a foreign operation acquired before 1 April 2005 are translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences is re-attributed to non-controlling interests and is not recognised in profit or loss.

(x) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in profit or loss in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(y) Related parties

(a) A person, or a close member of that person's family, is related to the Group if that person:

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or the Group's parent.

(b) An entity is related to the Group if any of the following conditions applies:

- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both the entity and the Group are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(z) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Board of Directors of the Company (the chief operating decision maker) for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. APPLICATION OF AMENDMENTS TO IFRS ACCOUNTING STANDARDS

The Group has applied the following amendments to IFRS Accounting Standards issued by the IASB to these consolidated financial statements for the current accounting period for the first time:

Amendments to IAS 21	Lack of Exchangeability
----------------------	-------------------------

The application of the amendments to IFRS Accounting Standards in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements. The Group has not applied any new and amendments to IFRS Accounting Standards that are not yet mandatorily effective for the current accounting period.

Amendments to IAS 21 Lack of Exchangeability

The amendments specify a currency is exchangeable when an entity is able to exchange that currency for the other currency through markets or exchange mechanisms that create enforceable rights and obligations without undue delay at the measurement date and for a specified purpose. When a currency is not exchangeable at the measurement date, an entity estimates the spot exchange rate as the rate that would have applied to an orderly transaction between market participants at the measurement date and that would faithfully reflect the prevailing economic conditions.

When a currency is not exchangeable, an entity discloses information that would enable users of its financial statements to evaluate how a currency's lack of exchangeability affects, or is expected to affect, its financial performance, financial position and cash flows.

The amendments have no material impact on the consolidated financial statements for the current and prior years.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

5. ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the Group's accounting policies, which are described in note 3, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) *Impairment assessment of loan receivables, interest receivables and repossessed assets*

The management regularly reviews the impairment assessment and evaluates the ECL of the loan receivables, interest receivables and repossessed assets. Appropriate impairment allowance is recognised in profit or loss.

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the one at the date of initial recognition. In making this assessment, the loan receivables and interest receivables are assessed individually by the management of the Group, based on the financial background, financial condition, an assessment of collateral value and historical settlement records, including past due dates and default rates, of each borrower and reasonable and supportable forward-looking information such as macroeconomic data (for example, respective industry projected growth rates for certain borrowers) that is available without undue cost or effort.

Each borrower is assigned a risk grading under internal credit ratings to calculate the ECL, taking into consideration of the estimates of expected cash shortfalls which are driven by estimates of possibility of default and the amount and timing of cash flows that are expected from the foreclosure on the collaterals (if any) less the costs of obtaining and selling the collaterals. At each reporting date, the financial background, financial condition and historical settlement records of each borrower are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about ECL and the Group's loan receivables, interest receivables and repossessed assets are disclosed in notes 34, 22, 21 and 23 respectively.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

5. ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

Key sources of estimation uncertainty (continued)

(b) *Income tax*

The Group is subject to income taxes in several jurisdictions. Significant judgement is required in determining the worldwide provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that are initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

6. SEGMENT INFORMATION

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geographical location. In a manner consistent with the way in which information is reported internally to the Directors for the purposes of resource allocation and performance assessment, the Group has presented the following reportable segments. No operating segments have been aggregated to form the following reportable segments.

Specifically, the Group's reportable and operating segments under IFRS 8 are as follows:

- Money lending: money lending business conducted pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong).
- Forest-related business:
 - (i) Sustainable forest management: sustainable forest management of and investment in natural forests, licensing of harvesting rights, timber and wood processing, trading and sales of forestry and timber products.
 - (ii) Timber supply chain: sales of timber and wood products including processed timber products.

Segment results represent the profit/loss from each segment without allocation of corporate income, corporate expenses and finance costs.

Segment assets include all non-current assets and current assets attributable to an individual reportable segment with the exception of right-of-use assets, financial assets at FVPL, note instrument and certain corporate assets.

All liabilities are allocated to reportable segments other than lease liabilities, deferred tax liabilities and certain corporate liabilities.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

6. SEGMENT INFORMATION (continued)

Segment revenue, results, assets and liabilities

An analysis of the Group's reportable segments is reported below:

For the year ended 31 March 2026

	Forest-related business			
	Money lending HK\$'000	Sustainable forest management HK\$'000	Timber supply chain HK\$'000	Total HK\$'000

				<u>51,652</u>

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

6. SEGMENT INFORMATION (continued)

Geographical information

The following is an analysis of geographical location of (i) the Group's revenue from external customers and (ii) the Group's non-current assets. The geographical locations of customers refer to the locations at which the customers reside. The geographical locations of property, plant and equipment, right-of-use assets and loan receivables are based on the physical locations of the assets and the place of negotiation under consideration. In the case of intangible assets, the allocation is based on the location of the operation to which they are allocated.

	Revenue from external customers		Non-current assets	
	Year ended 31 March		At 31 March	
	2026	2025	2026	2025
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
The People's Republic of China ("PRC")	71,977	152,831	–	–
Hong Kong	3,011	11,820	22,868	7,039
Asia (other than Hong Kong and the PRC)	33,694	7,325	–	–
Europe	2,494	2,749	16,531	17,909
	111,176	174,725	39,399	24,948

Information about major customers

Revenue from customers contributing 10% or more of the total revenue of the Group are as follows:

	2026	2025
	HK\$'000	HK\$'000
Customer A – revenue from timber supply chain	59,240	28,366
Customer B – revenue from timber supply chain	27,929	–
Customer C – revenue from timber supply chain*	–	94,288

* No revenue was contributed from this customer for the relevant year.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

7. REVENUE

An analysis of the Group's revenue is as follows:

	2026 HK\$'000	2025 HK\$'000
Sales from timber supply chain business (<i>note (i)</i>)	108,165	170,127
Interest income from money lending business (<i>note (ii)</i>)	3,011	4,598
	111,176	174,725

Notes:

- (i) Contracts with customers with unsatisfied performance obligations on the above mentioned revenue have original expected duration of one year or less. As permitted under IFRS 15, the transaction price allocation to these unsatisfied contract is not disclosed.
- (ii) Revenue is recognised at a point in time except for interest income from money lending business which falls outside the scope of IFRS 15.

8. OTHER INCOME

	2026 HK\$'000	2025 HK\$'000
Other income		
Sales of residual products	91	53
Sundry income	489	237
	580	290
Other net gains and losses		
Net fair value gain on financial assets at FVPL	51,166	5,732
Net gain/(loss) on disposal/redemption of financial assets at FVPL	14,130	(2,260)
	65,296	3,472
	65,876	3,762

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

9. PROFIT/(LOSS) BEFORE TAXATION

The Group's profit/(loss) before taxation is arrived at after (crediting)/charging:

	2026 HK\$'000	2025 HK\$'000
(a) Net finance income		
Finance income:		
Interest income from bank deposits	(39)	(728)
Other interest income	(482)	(1,125)
	(521)	(1,853)
Finance costs:		
Interest on lease liabilities	36	35
Interest on advances drawn on bill receivables discounted with full recourse	370	779
	406	814
	(115)	(1,039)
(b) Staff costs (including directors' emoluments)		
Salaries, wages and other benefits	12,117	13,095
Contributions to retirement benefits scheme	321	371
	12,438	13,466

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

9. PROFIT/(LOSS) BEFORE TAXATION (continued)

	2026 HK\$'000	2025 HK\$'000
(c) Other items		
Cost of inventories (<i>note 20</i>)	96,698	153,220
Depreciation of property, plant and equipment (<i>note 15</i>)	2,350	2,329
Depreciation of right-of-use assets (<i>note 16</i>)	1,163	1,119
Lease payments not included in the measurement of lease liabilities (<i>note 16</i>)	116	425
Net exchange (gain)/loss	(960)	1,737
Gain on disposal of property, plant and equipment*	(69)	(58)
Impairment losses under expected credit losses ("ECL") model		
– Trade receivables (<i>note 21/note 34(a)</i>)*	4,748	3,229
– Loan receivables (<i>note 22/note 34(a)</i>)*	60	4,277
– Interest receivables (<i>note 21/note 34(a)</i>)*	–	33
– Repossessed assets (<i>note 23/note 34(a)</i>)*	4,827	2,442
– Other receivables (<i>note 21/note 34(a)</i>)*	–	165
– Intangible assets (<i>note 17</i>)	174	–
Reversal of impairment losses under ECL model		
– Trade receivables (<i>note 21/note 34(a)</i>)*	(92)	–
– Loan receivables (<i>note 22/note 34(a)</i>)*	(12,413)	(696)
– Interest receivables (<i>note 21/note 34(a)</i>)	(550)	(207)
– Repossessed assets (<i>note 23/note 34(a)</i>)*	(4,068)	–
Loan receivables written off (<i>note 34(a)</i>)*	16,811	654
Interest receivables written off (<i>note 34(a)</i>)*	259	–
	9,687	9,839
Auditor's remuneration		
– Audit services	1,380	1,380
– Other services	150	175
	1,530	1,555

* These items are included in "Other operating expenses" on the face of the consolidated statement of profit or loss and other comprehensive income.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

10. DIRECTORS' AND CHIEF EXECUTIVE'S EMOLUMENTS

Directors' emoluments disclosed pursuant to Section 383(1) of the Hong Kong Companies Ordinance and Part 2 of the Companies (Disclosure of Information about Benefits of Directors) Regulation and the chief executive's emoluments are as follows:

	2026				
	Fees	Salaries and other benefits	Discretionary bonus	Retirement scheme contributions	Total
	HK\$'000	HK\$'000	HK\$'000	HK\$'000	HK\$'000
Executive Directors					
Mr. Yang Zheng (Chairman & Chief executive officer) (appointed on 29 April 2025)	-	-	-	-	-
Mr. Lai Ming Wai (retired on 30 September 2025)	-	308	-	-	308

Ms. Han Li (appointed on 29 April 2025)	111	-	-	-	111
Mr. Lin Wei Qiao (appointed on 2 May 2025)	110	-	-	-	110
	361	-	-	-	361
	361	1,038	-	19	1,418

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

10. DIRECTORS' AND CHIEF EXECUTIVE'S EMOLUMENTS (continued)

	2025				
	Fees HK\$'000	Salaries and other benefits HK\$'000	Discretionary bonus HK\$'000	Retirement scheme contributions HK\$'000	Total HK\$'000
Executive Directors					
Mr. Lai Ming Wai (<i>Chief executive officer</i>)	–	520	–	8	528
Ms. Yiu Wai Yee, Catherine (<i>appointed on 18 April 2024</i>)	–	457	–	17	474
Ms. Chan Yuk Yee (<i>resigned on 18 November 2024</i>)	–	339	–	17	356
Ms. Wang Jingyu (<i>Chairlady</i>)	–	130	–	7	137
	–	1,446	–	49	1,495
Independent Non-executive Directors					
Mr. Fung Kim Shun (<i>appointed on 23 December 2024</i>)	33	–	–	–	33
Mr. Yam Kwong Chun (<i>resigned on 1 January 2025</i>)	90	–	–	–	90
Mr. Chai Chi Keung	120	–	–	–	120
Mr. Wong Chi Kit	120	–	–	–	120
	363	–	–	–	363
	363	1,446	–	49	1,858

Mr. Lai Ming Wai ("Mr. Lai") performed the function of chief executive of the Company and his emoluments disclosed above included those for services rendered by him as the chief executive for the period before his retirement on 30 September 2025. Subsequent to Mr. Lai's retirement, Mr. Yang Zheng has assumed the role of chief executive.

The executive directors' emoluments shown above were mainly for their services in connection with the management of the affairs of the Group. The emoluments of the independent non-executive directors shown above were mainly for their services as directors of the Company.

There was no arrangement under which a director had waived or agreed to waive any remuneration.

During the years ended 31 March 2026 and 2025, no emolument was paid by the Group to the directors as an inducement to join or upon joining the Group or as compensation for loss of office.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

11. INDIVIDUALS WITH HIGHEST EMOLUMENTS

The five highest paid individuals during the year included one (2025: three) director(s) and details of her emoluments are set out in note 10 above, the aggregate emoluments of the remaining four (2025: two) individuals are as follows:

	2026 HK\$'000	2025 HK\$'000
Salaries and other emoluments	2,280	1,097
Discretionary bonus	–	–
Retirement scheme contributions	79	37
	2,359	1,134

The emoluments of the four (2025: two) highest paid individuals (other than the directors) were within the following bands:

	Number of individuals	
	2026	2025
Nil to HK\$1,000,000	4	2

During the years ended 31 March 2026 and 2025, no emolument was paid by the Group to such individuals as an inducement to join or upon joining the Group or as compensation for loss of office.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

12. INCOME TAX CREDIT/(EXPENSE)

- (a) Income tax (credit)/expense in the consolidated statement of profit or loss and other comprehensive income represents:

	2026 HK\$'000	2025 HK\$'000
Hong Kong Profits Tax		
– current tax	–	61
– overprovision in prior year	(61)	–
	(61)	61
Republic of Slovenia (“ Slovenia ”) corporate income tax		
– current tax	–	21
Romania corporate income tax		
– current tax	3	33
The Republic of Croatia (“ Croatia ”) corporate income tax		
– current tax	–	–
– overprovision in prior year	–	(24)
	–	(24)
Socialist Republic of Vietnam (“ Vietnam ”) corporate income tax		
– current tax	59	–
PRC corporate income tax		
– current tax	–	–
Deferred tax	(44)	(41)
	(43)	50

For the year ended 31 March 2026, the provision for Hong Kong Profits Tax is calculated at a flat rate of 16.5% (2025: 16.5%) on the estimated assessable profits for the year, except for a group entity which is a qualifying corporation under the two-tiered profits tax rates regime. For this group entity, the first HK\$2,000,000 of assessable profits are taxed at 8.25%, and the remaining assessable profits are taxed at 16.5%.

Slovenia corporate income tax is charged at 22% (2025: 22%) on the estimated assessable profits arising in Slovenia.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

12. INCOME TAX CREDIT/(EXPENSE) (continued)

(a) Income tax (credit)/expense in the consolidated statement of profit or loss and other comprehensive income represents: (continued)

Romania corporate income tax is charged at 16% (2025: 16%) on the estimated assessable profits arising in Romania.

Croatia corporate income tax is charged at 18% on the estimated assessable profits arising in Croatia for the year ended 31 March 2025. Croatia corporate income tax has not been provided for the year ended 31 March 2026 as there was no assessable profit.

Vietnam corporate income tax is charged at 20% on the estimated assessable profits arising in Vietnam for the year ended 31 March 2026.

PRC corporate income tax is charged at 25% on the estimated assessable profits arising in PRC for the year ended 31 March 2026.

(b) Reconciliation between income tax (credit)/expense and accounting profit/(loss) at applicable tax rates:

	2026 HK\$'000	2025 HK\$'000
Profit/(loss) before taxation	36,476	(26,728)
Notional tax on profit/(loss) before taxation, calculated at the rates applicable to the countries concerned	5,878	(4,577)
Tax effect of non-taxable income	(9,450)	(223)
Tax effect of non-deductible expenses	14	178
Tax effect of unused tax losses not recognised	4,581	4,740
Tax effect of temporary differences not recognised	(98)	(43)
Utilisation of previously unrecognised tax losses	(907)	(1)
Overprovision in prior year	(61)	(24)
Income tax (credit)/expense	(43)	50

13. DIVIDEND

The directors of the Company do not recommend the payment or declaration of any dividend for the year ended 31 March 2026 (2025: nil).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

14. EARNINGS/(LOSS) PER SHARE

- (a) The calculation of basic and diluted earnings/(loss) per share is based on the profit/(loss) attributable to owners of the Company and the reconciliation of the weighted average number of shares as shown in note 14(b) below:

	2026 HK\$'000	2025 HK\$'000
Profit/(loss)		
Profit/(loss) for the purpose of calculating basic and diluted earnings/(loss) per share	44,280	(16,548)

- (b) **Weighted average number of shares**

	2026	2025
Number of shares		
Weighted average number of ordinary shares for the purpose of calculating basic earnings/(loss) per share	1,093,841,518	1,053,386,345
Effect of dilutive potential ordinary shares arising from conversion of convertible preferred shares (<i>note</i>)	9,655,727	N/A
Weighted average number of ordinary shares for the purpose of calculating diluted earnings/(loss) per share	1,103,497,245	1,053,386,345

Note:

Potential ordinary shares arising from the assumed conversion of convertible preferred shares have not been included in the calculation of diluted earnings/(loss) per share because it was anti-dilutive for the year ended 31 March 2025.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

15. PROPERTY, PLANT AND EQUIPMENT

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

16. RIGHT-OF-USE ASSETS

	Leased property HK\$'000
Cost	
At 1 April 2024	1,928
Addition	<u>1,407</u>
At 31 March 2025 and 1 April 2025	3,335
Addition	<u>1,645</u>
At 31 March 2026	<u>4,980</u>
Accumulated depreciation	
At 1 April 2024	1,124
Charge for the year	<u>1,119</u>
At 31 March 2025 and 1 April 2025	2,243
Charge for the year	<u>1,163</u>
At 31 March 2026	<u>3,406</u>
Carrying amounts	
At 31 March 2026	<u>1,574</u>
At 31 March 2025	<u>1,092</u>
Expense relating to short-term leases and lease of low-value assets (2025: HK\$425,000)	<u>116</u>

During the year, there was no addition of right-of-use assets (2025: HK\$418,000) relating to capitalised lease payments payable under a new tenancy agreement and approximately HK\$1,645,000 relating to renewal of existing tenancy agreement (2025: HK\$989,000).

The total cash outflow for leases for the year was HK\$1,209,000 (2025: HK\$1,173,000).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

16. RIGHT-OF-USE ASSETS (continued)

The analysis of the carrying amounts of right-of-use assets by class of underlying asset is as follows:

	2026 HK\$'000	2025 HK\$'000
Other properties leased for own use, carried at cost less depreciation (<i>note</i>)	1,574	1,092

Note:

The Group obtained the right to use other properties as its office premise and staff quarter through tenancy agreements. The leases typically run for an initial period of two years.

Details of the maturity analysis of lease liabilities are set out in note 27.

17. INTANGIBLE ASSETS

	Money lenders licences HK\$'000
Cost	
At 1 April 2024, 31 March 2025, 1 April 2025 and 31 March 2026	174
Accumulated impairment loss	
At 1 April 2024, 31 March 2025, 1 April 2025	–
Impairment loss	(174)
At 31 March 2026	(174)
Carrying amounts	
At 31 March 2026	–
At 31 March 2025	174

Note:

- (i) The Group acquired the money lenders licences through the acquisition of companies now known as Reliance Credit Limited ("**Reliance Credit**") and Reliance Capital Finance Limited ("**Reliance Capital**"), during the years ended 31 March 2015 and 31 March 2021 respectively. For the purpose of impairment testing on the money lenders license held by the Group, the recoverable amounts have been determined based on fair values less costs of disposal. During the year ended 31 March 2026, the management assessed that the Group experienced continuing losses in its money lending business, a reduction in its loan portfolio, and a drop in open market demand for comparable licenses. Consequently, an impairment loss of HK\$174,000 was recognised for the year ended 31 March 2026 (2025: Nil).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

18. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2026 HK\$'000	2025 HK\$'000
Listed equity securities in Hong Kong (note (i))	99,571	25,702
Unlisted investment funds (note (ii))	22,328	30,018
	121,899	55,720
Analysed as:		
Current portion	121,899	25,702
Non-current portion	–	30,018
	121,899	55,720

Notes:

- (i) The fair value of listed equity securities is based on their closing bid price at the end of the reporting period.
- (ii) The fair value of the unlisted investment funds are determined with reference to the net assets value approach based on the statements provided by the investment managers at the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

19. NOTE INSTRUMENT

	2026 HK\$'000	2025 HK\$'000
Note Instrument	10,100	–

The instrument is an unlisted corporate note with a maturity of less than 12 months and interest rate of 6% per annum. It is held for treasury management purposes and to collect contractual cash flows consisting solely of principal and interest payments. An impairment assessment was performed on this instrument at the end of the reporting period. Further details on the Group's credit policy and credit risk arising from note instrument are set out in note 34(a).

20. INVENTORIES

At the end of each reporting period, inventories in the consolidated statement of financial position comprise the followings:

	2026 HK\$'000	2025 HK\$'000
Work-in-progress	2,287	2,634
Timber logs and processed lumber	7,463	6,817
	9,750	9,451

An analysis of the amount of inventories recognised as an expense and included in profit or loss is as follows:

	2026 HK\$'000	2025 HK\$'000
Carrying amount of inventories sold	96,698	153,220

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

21. TRADE AND OTHER RECEIVABLES

	Notes	2026 HK\$'000	2025 HK\$'000
Trade receivables		23,857	15,892
Less: impairment allowance	34(a)	(14,846)	(9,668)
	(i)	9,011	6,224
Interest receivables		680	689
Less: impairment allowance	34(a)	–	(550)
		680	139
Other receivables	(ii)	24,351	5,635
Less: impairment allowance	34(a)	(174)	(165)
		24,177	5,470
Amount due from an associate	37(b)	1,015	–
Bill receivables	(iii)	50,158	41,638
Financial assets at amortised costs		85,041	53,471
Trade and logging deposits	(iv)	2,857	2,576
Other deposits and prepayments	(v)	4,192	8,063
		92,090	64,110

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

21. TRADE AND OTHER RECEIVABLES (continued)

Notes:

(i) Trade receivables

An aging analysis of the Group's trade receivables as of the end of the reporting period, based on the invoice date, and net of impairment allowance, is as follows:

	2026 HK\$'000	2025 HK\$'000
0 to 30 days	169	132
31 to 90 days	703	1,283
91 to 180 days	556	–
181 to 365 days	6,438	275
Over 365 days	1,145	4,534
	9,011	6,224

The Group's trading terms with its customers are mainly on credit, except for new customers where payment in advance and cash on delivery are normally required. Invoices are normally payable between 20 and 120 days (2025: 30 and 120 days) after issuance. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by management.

(ii) Other receivables

Included in other receivable was the second instalment of HK\$16,000,000, representing sales proceeds from the disposal of a fund on 31 March 2026.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

21. TRADE AND OTHER RECEIVABLES (continued)

Notes: (continued)

(iii) Bill receivables

At 31 March 2026, bill receivables of HK\$50,158,000 (2025: HK\$41,638,000) were discounted to banks with full recourse with a maturity period of less than 180 days (2025: less than 90 days). The Group recognised the full amount of the discounted proceeds as liabilities as set out in note 26.

The following table is the Group's financial assets at 31 March 2026 and 31 March 2025 that were transferred to banks by discounting these receivables on a full recourse basis. In the opinion of the directors, the Group had not transferred the significant risks and rewards relating to these receivables, it continued to recognise the full carrying amount of the receivables and recognised the cash received on the transfer as a secured borrowing. These financial assets were carried at amortised cost.

	2026 HK\$'000	2025 HK\$'000
Carrying amount of the transferred assets	50,158	41,638
Carrying amount of the associated liabilities	(50,158)	(41,638)
	–	–

(iv) Trade and logging deposits

At 31 March 2026, trade and logging deposits totalling of HK\$2,857,000 (2025: HK\$2,576,000) were paid in relation to the Group's timber supply chain business.

(v) Other deposits and prepayments

Included in other deposits and prepayments were advance payment of HK\$5,000,000 to an independent third party for identifying and pursuing investment opportunities that align with the Group's business objectives pursuant to a cooperation agreement for the year end 31 March 2025. The advance payment was fully refunded to the Group as there was no viable investment opportunities identified during the year ended 31 March 2026.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

22. LOAN RECEIVABLES

	2026 HK\$'000	2025 HK\$'000
Fixed-rate loan receivables	29,723	48,457
Less: impairment allowance (note 34(a))	(60)	(12,413)
	29,663	36,044
Analysed as:		
Current portion	8,463	30,372
Non-current portion	21,200	5,672
	29,663	36,044
Analysed as:		
Secured	29,663	36,044
Unsecured	–	–
	29,663	36,044

All loans were denominated in Hong Kong dollars. At 31 March 2026, the loan receivables carried interest rates ranging from 9% to 12% per annum (2025: 8.5% to 15.0% per annum).

Before granting loans to potential borrowers, the Group performs an internal credit assessment process to assess the potential borrowers' credit quality individually and defines the credit limits granted to the borrowers. The credit limits attributed to the borrowers are reviewed by the management regularly.

The Group has a policy for assessing the impairment on loan receivables on an individual basis. The assessment includes evaluation of collectability, current creditworthiness, account aging and past collection history of each borrower as well as the value of collateral provided, under the Group's credit risk rating system.

In determining the recoverability of loan receivables on a collective basis, the Group considers any change in the credit quality of the loan receivables from the date the credit was initially granted up to the reporting date. This includes assessing the credit history of the borrowers, such as financial difficulties or default in payments, and current market conditions.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

22. LOAN RECEIVABLES (continued)

At 31 March 2026, loan receivables with an aggregate carrying amount of HK\$29,663,000 (2025: HK\$36,044,000) were secured by collateral provided by the borrowers. At the end of the reporting period, for loan receivables with aggregate gross carrying amount of HK\$29,723,000 (2025: HK\$48,457,000), (i) HK\$29,723,000 (2025: HK\$26,094,000) were not past due; (ii) nil (2025: HK\$910,000) had been past due for less than 90 days; (iii) there had been no past due for more than 90 days but less than 180 days and past due for more than 180 days but less than 365 days for both years; and (iv) nil (2025: HK\$21,453,000) had been past due for 365 days or more.

At the end of each reporting period, the Group's loan receivables were individually assessed for impairment. An impairment allowance of HK\$60,000 had been provided at 31 March 2026 (2025: HK\$12,413,000).

Further details on the Group's credit policy and credit risk arising from loan receivables are set out in note 34(a).

23. REPOSSESSED ASSETS

The nature and carrying value of the repossessed assets held are summarised as follows:

	2026 HK\$'000	2025 HK\$'000
Repossessed assets – residential and commercial properties	18,122	44,394
Less: impairment allowance (note 34(a))	(5,527)	(4,768)
	12,595	39,626

Repossessed assets represent credit-impaired loan and interest receivables in respect of which the Group has obtained the rights to lease or sell the underlying collateral assets (e.g. through court proceedings or voluntary actions), but does not obtain ownership of those assets. Accordingly, these credit-impaired loan and interest receivables are not derecognised and continue to be carried at amortised cost less impairment allowance under the ECL model in accordance with IFRS 9. An impairment allowance of HK\$5,527,000 had been provided at 31 March 2026 (2025: HK\$4,768,000).

24. CASH AND CASH EQUIVALENTS

Cash and cash equivalents of the Group comprised bank balances and cash held by the Group of HK\$50,916,000 (2025: HK\$64,905,000). The carrying amounts of these assets approximated to their fair values.

At 31 March 2026, cash and cash equivalents in Mainland China was HK\$618,000 (2025: Nil). Remittance of funds out of Mainland China is subject to relevant rules and regulations of foreign exchange control.

At 31 March 2026 and 2025, the Group performed impairment assessment on bank balances and concluded that the probability of default of the counterparty banks are insignificant and accordingly, no allowance for impairment is provided.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

25. TRADE AND OTHER PAYABLES

	2026 HK\$'000	2025 HK\$'000
Trade payables (<i>note</i>)	1,624	2,079
Other payables and accruals	12,439	4,042
Receipt in advance	1,238	2,187
Amounts due to non-controlling interests (<i>note 37(b)(i)</i>)	138	138
	15,439	8,446

Note:

An aging analysis of the Group's trade payables as of the end of the reporting period, based on the invoice date, is as follows:

	2026 HK\$'000	2025 HK\$'000
0 to 30 days	561	557
31 to 90 days	153	393
91 to 180 days	–	101
Over 180 days	910	1,028
	1,624	2,079

The average credit period is within 90 days for the current year (2025: within 90 days).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

26. BANK BORROWINGS

	2026 HK\$'000	2025 HK\$'000
Advances drawn on bill receivables discounted with full recourse (<i>note</i>)	50,158	41,638

Note:

The amount represented the Group's borrowings secured by the bill receivables discounted to banks with full recourse (note 21(iii)), the amount was repayable in accordance with the terms of the bills and carried interest at the banks' lending rate plus certain basis points.

An analysis of the carrying amount of bank borrowings is as follows:

	2026 HK\$'000	2025 HK\$'000
The carrying amount of bank borrowings that contain a repayable on demand clause (classified under current liabilities)		
Within one year	50,158	41,638
Less: amounts shown under current liabilities	(50,158)	(41,638)
Amounts shown under non-current liabilities	–	–

All of the banking facilities are subject to fulfillment of covenants. If the Group is in breach of the covenants, the drawn down facilities will become repayable on demand. In addition, certain of the Group's bank borrowings contain covenants which give the lender the right at its sole discretion to demand immediate repayment at any time irrespective of whether the Group has complied with the covenants and met the scheduled repayment obligations.

The Group regularly monitors its compliance with the covenants of the banking facilities and does not consider it is probable that the banks will exercise their discretion to demand repayment so long as the Group continues to meet the requirements. At 31 March 2026, none of the covenants relating to the drawn down facilities had been breached (2025: nil).

All of the bank borrowings are carried at amortised cost.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

27. LEASE LIABILITIES

The following table shows the remaining contractual maturities of the Group's lease liabilities at 31 March 2026:

	2026 HK\$'000	2025 HK\$'000
Within one year	860	1,035
After one year but within two years	705	58
	1,565	1,093

28. DEFERRED TAX LIABILITIES

The components of deferred tax liabilities recognised in the consolidated statement of financial position and the movements during the year are as follows:

	Property, plant and equipment HK\$'000
At 1 April 2024	394
Credited to profit or loss (<i>note 12</i>)	(41)
Exchange realignment	(3)
At 31 March 2025 and 1 April 2025	350
Credited to profit or loss (<i>note 12</i>)	(44)
Exchange realignment	15
At 31 March 2026	321

At 31 March 2026, the Group had unused tax losses of HK\$102,821,000 (2025: HK\$86,704,000), which included an amount of HK\$65,460,000 arising from the acquisition of a subsidiary during the year ended 31 March 2021. The tax losses are available for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax asset has not been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. The tax losses may be carried forward indefinitely. At 31 March 2026 and 2025, the Group had no other material temporary differences.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

29. SHARE CAPITAL

		Number of ordinary shares of HK\$0.01 per share (note (i)) '000	HK\$'000	Number of convertible preferred shares of HK\$0.01 per share (note (ii)) '000	HK\$'000	Total HK\$'000
	Notes					
Authorised:

Capital reduction	(iv)	–	(98,446)	–	–	(98,446)
Share consolidation	(iv)	(9,844,574)	–	–	–	–
At 31 March 2025, 1 April 2025 and 31 March 2026		1,093,841	10,938	3,089,833	30,899	41,837

Notes:

(i) Ordinary shares

The owners of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at the meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

(ii) Convertible preferred shares

The non-voting convertible preferred shares (the "**Convertible Preferred Share(s)**") can be converted into ordinary shares of the Company at any time after issue. The Convertible Preferred Shares shall at all times rank equally among themselves, upon exercise of the conversion right attaching to the Convertible Preferred Shares, the ordinary shares issued pursuant to the conversion shall rank *pari passu* with all other ordinary shares of the Company then in issue with respect to the right to any dividends or distributions declared.

The following are the other major terms of the Convertible Preferred Shares:

In the event of liquidation, dissolution or winding up, or merger, or reorganisation that will result in any distribution of assets of the Company to the existing shareholders of the Company, the holders of the Convertible Preferred Shares will receive an amount equal to 100% of the face value of the Convertible Preferred Shares. In addition, the ranking of the Convertible Preferred Shares is higher than ordinary shares, but lower than creditors in the case of liquidation.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

29. SHARE CAPITAL (continued)

Notes: (continued)

(ii) Convertible preferred shares (continued)

The holder of each Convertible Preferred Shares shall not have any voting rights save where the Company proposes to pass a resolution to vary the rights attached to the Convertible Preferred Shares or for the winding up or dissolution of the Company. The Convertible Preferred Shares are non-redeemable and, are not listed on any stock exchange.

Each Convertible Preferred Share shall be convertible at the option of the holders at any time after issue, provided that (i) any conversion of the Convertible Preferred Shares shall not result in the aggregate voting rights in the Company held by the relevant holder of the Convertible Preferred Shares who exercises the conversion rights and parties acting in concert with it exceeding 29.9%, or such other percentage as may then be the maximum percentage (to one decimal place) of issued shares of the Company it could then acquire without being required to make a mandatory general offer for the shares of the Company under the Hong Kong Code on Takeovers and Mergers or (ii) any conversion of the Convertible Preferred Shares shall not result in the public float of the shares falling below the minimum requirements of the Listing Rules.

As the Capital Reorganisation (see note 29(iv)) has become effective, the Capital Reorganisation gave rise to the adjustment to the maximum number of ordinary share(s) of HK\$0.01 each in the share capital of the Company immediately upon the Capital Reorganisation becoming effective that will be issued upon conversion. Pursuant to the terms and conditions of the Convertible Preferred Share(s), the rights for conversion of Convertible Preferred Share(s) into consolidated Share(s) shall be adjusted from a ratio of one Convertible Preferred Share(s) to 0.03125 existing ordinary share(s) of HK\$0.01 each in the share capital of the Company prior to the Capital Reorganisation becoming effective to a ratio of one Convertible Preferred Share to 0.003125 ordinary share(s) of HK\$0.01 each in the share capital of the Company immediately upon the Capital Reorganisation becoming effective.

- (iii) On 21 June 2024, a total of 1,822,980,000 placing shares have been successfully placed to not less than six placees at the placing price of HK\$0.0193 per placing share pursuant to the terms and conditions of the placing agreement. The net proceeds arising from the placing amounted to HK\$34,276,000 (gross proceeds of HK\$35,184,000).
- (iv) The Company has implemented a capital reorganisation on 30 August 2024 and the Capital Reorganisation has become effective on 3 October 2024 (the “**Capital Reorganisation**”). On 30 August 2024, the Company proposed to consolidate every ten (10) issued existing shares into one (1) consolidated share (the “**Share Consolidation**”). Upon the Share Consolidation becoming effective, a capital reduction has taken place which involved: (i) the cancellation of any fractional consolidated shares in the issued share capital of the Company arising from the Share Consolidation; and (ii) the reduction of the par value of each issued consolidated share from HK\$0.10 to HK\$0.01 by cancelling the paid-up share capital of the Company to the extent of HK\$0.09 on each of the then issued consolidated shares (the “**Capital Reduction**”).

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

30. RESERVES

Nature and purposes of the reserves

(i) *Share premium*

The application of the share premium account is governed by Section 40 of the Bermuda Companies Act 1981 (as amended). The share premium account of the Company is distributable to owners of the Company in the form of fully paid bonus shares.

(ii) *Contributed surplus*

The contributed surplus of the Company mainly represents the excess of the fair value of the shares of the subsidiaries acquired pursuant to a reorganisation of the Group in June 1991, over the nominal value of the Company's shares issued in exchange thereof, and the effect of the Company's capital reorganisation during the year ended 31 March 2014. Under the Bermuda Companies Act 1981 (as amended), the contributed surplus is distributable to shareholders in certain circumstances.

(iii) *Distributable reserve*

Pursuant to a special resolution passed on 15 July 2003, the share premium account of the Company was reduced by an amount of HK\$103,948,000 to nil, of which a sum of HK\$98,953,000 was applied towards the elimination of the accumulated losses of the Company at 31 March 2003, with the remaining balance of HK\$4,995,000 being credited to the distributable reserve of the Company. The reduction of the share premium account was effective on 6 October 2003. During the year ended 31 March 2007, expenses relating to a rights issue exercise of HK\$2,779,000 was debited to the distributable reserve of the Company.

Pursuant to applicable Slovenian laws, the Group's subsidiary in Slovenia is required to appropriate not less than 5% of its profit after tax to its statutory reserve until such reserve reaches 10% or a higher percentage (as specified by laws) of the subsidiary's share capital. Up to 31 March 2026, the Group's subsidiary in Slovenia had appropriated a sum of HK\$72,000 (2025: HK\$72,000) to its statutory reserve.

Pursuant to applicable Romanian laws, each of the Group's subsidiaries in Romania is required to appropriate not less than 5% of its profit after tax to its statutory reserve until such reserve reaches 20% or a higher percentage (as specified by laws) of the subsidiary's share capital. Up to 31 March 2026, the Group's subsidiaries in Romania had appropriated a total sum of HK\$35,000 (2025: HK\$35,000) to their statutory reserve.

(iv) *Capital redemption reserve*

The capital redemption reserve represents the amount paid by which the Company's issued share capital has been diminished upon the cancellation of shares repurchased.

(v) *Exchange fluctuation reserve*

The exchange fluctuation reserve comprises all foreign exchange differences arising from the translation of financial statements of foreign operations.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

31. CAPITAL RISK MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher level of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The capital structure of the Group consists of debt, which includes the bank borrowings, and equity attributable to owners of the Company, comprising issued share capital and reserves.

During the year ended 31 March 2026, the Group's strategy in managing capital structure remains unchanged from the prior year.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

32. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities.

	Bank borrowings HK\$'000	Lease liabilities HK\$'000	Total HK\$'000
At 1 April 2024	24,487	824	25,311
Changes from financing cash flows:			
Proceeds from bank advances on bill receivables discounted with full recourse	139,149	–	139,149

Financial assets at FVPL	121,899	55,720
	310,214	249,766
Financial liabilities		
Amortised cost	(67,162)	(51,177)

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, foreign currency risk, interest rate risk and equity price risk. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below:

(a) Credit risk and ECL assessment

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group.

The Group's credit risk is primarily attributable to trade receivables, loan receivables and interest receivables. Credit risks associated with loan receivables and interest receivables are mitigated by the security over collaterals and/or guarantees. The Group does not hold any collateral or other credit enhancements to cover the credit risks associated with other financial assets whose carrying amounts best represent the maximum exposure to credit risk.

Trade receivables

At 31 March 2026, the Group had significant concentration of credit risk on trade receivables as 86% (2025: 85%) of the total trade receivables was due from two customers (2025: two customers) of the Group's timber supply chain business.

For trade receivables, management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. In respect of trade receivables, credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 and 120 days from the date of billing.

In addition, the Group performs impairment assessment under the ECL model upon application of IFRS 9 on trade balances individually. The management performs periodic evaluations on customer to ensure the Group's exposure to bad debts is not significant. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

Loan receivables and interest receivables

At 31 March 2026, on a net of impairment allowance basis, the Group had significant concentration of credit risk on loan receivables and interest receivables, as 100% (2025: 100%) of the total loan and interest receivables was due from the five largest borrowers. The largest borrower of the Group by itself accounted for approximately 40% (2025: 46%) of the Group's loan and interest receivables. Nevertheless, the whole amount is considered recoverable given there are sufficient collaterals to cover the entire balance.

The Group has a policy for assessing the impairment on loan receivables and interest receivables on an individual basis. The assessment includes evaluation of collectability, current creditworthiness, account aging and past collection history of each borrower as well as the value of collateral provided, under the Group's credit risk rating system.

In determining the recoverability of loan receivables and interest receivables on a collective basis, the Group considers any change in the credit quality of the loan receivables and interest receivables from the date the credit was initially granted up to the reporting date. This includes assessing the credit history of the borrowers, such as financial difficulties or default in payments, and current market conditions.

The carrying amount of the loan receivables and interest receivables amounted to HK\$29,663,000 (2025: HK\$36,044,000) and HK\$680,000 (2025: HK\$139,000) respectively at the end of the reporting period. The Group considered the secured loans of HK\$29,663,000 (2025: HK\$36,044,000) and the corresponding interest receivables (after impairment allowances) are recoverable given the fair values of the collaterals are substantially sufficient to cover the secured loans and interest receivables on an individual basis.

Impairment allowances on outstanding loan and interest receivables are determined by an evaluation of the financial background and financial condition of the borrower and the anticipated receipts for that individual loan, at the end of the reporting period.

The directors of the Company are responsible for the determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue loans. In addition, the Group reviews the recoverable amount of each individual loan at the end of each reporting period to ensure that adequate impairment allowance is made for irrecoverable amount. In view of the above, the directors of the Company consider that the Group's credit risk is significantly reduced.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

Other financial assets measured at amortised cost

The credit risk of other financial assets is managed through an internal process. The Group closely monitors the outstanding amounts of other financial assets at amortised costs and identifies any credit risk in a timely manner in order to reduce the risk of a credit related loss. In this regard, the directors of the Company consider the Group's credit risk is significantly reduced.

ECL assessment

The Group's internal credit grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets/ other items
Performing	The counterparty has a low to moderate risk of default and its credit risk has not increased significantly since initial recognition.	Lifetime ECL (not credit-impaired)	12-m ECL
Underperforming	There have been significant increases in credit risk since initial recognition through information developed internally or externally.	Lifetime ECL (not credit-impaired)	Lifetime ECL (not credit-impaired)
Non-performing	There is evidence indicating that the asset is credit impaired.	Lifetime ECL (credit-impaired)	Lifetime ECL (credit-impaired)
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off	Amount is written off

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

ECL assessment (continued)

The table below sets out the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

		Internal credit rating	12-m or lifetime ECL	Gross carrying amount 2026 HK\$'000	2025 HK\$'000
	Notes				
Trade receivables (note (i))	21	Performing	Lifetime ECL (not credit-impaired)	9,070	1,793
		Non-performing	Lifetime ECL (credit-impaired)	14,787	14,099
Loan receivables (note (ii))	22	Performing	12-m ECL	29,723	26,095
		Underperforming	Lifetime ECL (not credit-impaired)	–	12,090
		Non-performing	Lifetime ECL (credit-impaired)	–	10,272
Reposessed assets (note (iii))	23	Non-performing	Lifetime ECL (credit-impaired)	18,122	44,394

Note instrument (note (vi))	19	Performing	12-m ECL	10,100	–

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

ECL assessment (continued)

Notes:

- (i) For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the impairment allowance on lifetime ECL basis. The lifetime ECL for these balances are determined individually and/or collectively using a provision matrix with appropriate groupings based on historical credit loss experience adjusted by forward-looking estimates, the average loss rate for non credit-impaired trade receivables and credit-impaired trade receivables are ranging at 10.4% (2025: nil) and 94.9% (2025: 68.6%) respectively. At 31 March 2026, trade receivables of aggregate gross carrying amount of HK\$22,985,000 (2025: HK\$14,477,000) were past due and a corresponding impairment loss of HK\$4,748,000 (2025: HK\$3,229,000) was recognised for the year ended 31 March 2026.
- (ii) As part of the Group's credit risk management, the Group applies internal credit rating for its borrowers. The ECL rates are estimated based on the credit rating, past and current default record and current past due exposure of the borrowers, the average loss rate for not credit-impaired borrowers is 1.8% (2025: 1.8% to 15.1%). At 31 March 2026, there is no credit-impaired borrowers (2025: the average loss rate for credit-impaired borrowers is 100%).

The impairment allowance for borrowers are assessed individually and determined by reference to the independent professional valuer's assessment on the related loans in accordance with IFRS 9 by adopting its independently selected parameters which take into consideration of credit rating profile similar to the respective borrowers, the historical market default records and forward-looking information. At 31 March 2026, there was no loan receivables determined as credit impaired (2025: aggregate gross carrying amount of HK\$10,272,000 were determined as credit-impaired because they were past due for more than 90 days, such loans were unsecured and an impairment allowance of HK\$10,272,000 had been provided). In addition, loan receivables of aggregate gross carrying amount of HK\$26,336,000 (2025: HK\$9,094,000) were not credit-impaired and no impairment allowance had been provided because the fair values of the collateral provided were higher than the gross carrying amount of the loan receivables and, on an individual basis, the borrower(s) had a good repayment history. Loan receivables of HK\$3,387,000 were performing (2025: loan receivables of HK\$12,090,000 were underperforming) but not credit-impaired and an impairment allowance of HK\$60,000 (2025: HK\$1,831,000) had been provided. During the year, an impairment loss of HK\$60,000 (2025: HK\$4,277,000) and write-off of HK\$16,811,000 (2025: HK\$654,000) were recognised for the year ended 31 March 2026 respectively.

- (iii) The impairment allowance for repossessed assets are assessed individually and determined by reference to the independent professional valuer's valuation on the collateral. At 31 March 2026, repossessed assets of aggregate gross carrying amount of HK\$18,122,000 (2025: HK\$44,394,000) were valued and an impairment loss of HK\$4,827,000 was recognised (2025: HK\$2,442,000) during the year ended 31 March 2026. A reversal on impairment loss of HK\$4,068,000 (2025: nil) were recognised during the year ended 31 March 2026.
- (iv) For the purposes of internal credit risk management, the Group uses historical past due experience, forward-looking information as well as the value of collateral provided to assess whether credit risk has increased significantly since initial recognition. At 31 March 2026, other financial assets of aggregate gross carrying amount of HK\$174,000 (2025: HK\$715,000) were past due and impairment loss of HK\$174,000 (2025: HK\$715,000) was recognised for the year ended 31 March 2026. The ECL rate of credit-impaired other financial assets is 100% (2025: 100%). Write-off of HK\$259,000 (2025: nil) were recognised during the year ended 31 March 2026.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

ECL assessment (continued)

Notes: (continued)

- (v) Cash and cash equivalents mainly represent the cash placed with financial institutions in Hong Kong. Financial institutions in Hong Kong are governed by Hong Kong Monetary Authority. In view of the stable bank system in Hong Kong, the ECL on bank balance is thus expected to be very minimal and close to zero. The Group assessed 12-m ECL for bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12-m ECL on bank balances is considered to be insignificant and therefore no impairment allowance was recognised.
- (vi) For note instrument, the directors make periodic individual assessment on the recoverability of note instrument based on past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors believe that there is no significant increase in credit risk of the Group's outstanding balances of note instrument since initial recognition and the Group provide impairment based on 12-m ECL. Based on the assessment, no impairment on note instrument was recognised in profit or loss during the year ended 31 March 2026.

The following table shows reconciliation of impairment allowances that have been recognised for trade receivables, loan receivables, interest receivables, other receivables and repossessed assets:

	Trade receivables		Loan receivables			Interest receivables		Other receivables	Repossessed assets
	Lifetime ECL (not credit-impaired)	Lifetime ECL (credit-impaired)	12-m ECL	Lifetime ECL (not credit-impaired)	Lifetime ECL (credit-impaired)	Lifetime ECL (not credit-impaired)	Lifetime ECL (credit-impaired)	Lifetime ECL (credit-impaired)	Lifetime ECL (credit-impaired)

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the raising of loans to cover expected cash demands, subject to parent company's board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding to meet its liquidity requirements in the short and longer term.

The following tables detail the remaining contractual maturities at the end of the reporting period of the Group's non-derivative financial liabilities which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on current rates at the end of the reporting period) and the earliest date the Group can be required to pay:

	2026					Carrying amount HK\$'000
	Within 1 year or on demand HK\$'000	More than 1 year but less than 2 years HK\$'000	More than 2 years but less than 5 years HK\$'000	More than 5 years HK\$'000	Total contractual undiscounted cash flows HK\$'000	
Trade and other payables	15,439	-	-	-	15,439	15,439
Bank borrowings	50,158	-	-	-	50,158	50,158
Lease liabilities	928	724	-	-	1,652	1,565
	66,525	724	-	-	67,249	67,162

	2025					Carrying amount HK\$'000
	Within 1 year or on demand HK\$'000	More than 1 year but less than 2 years HK\$'000	More than 2 years but less than 5 years HK\$'000	More than 5 years HK\$'000	Total contractual undiscounted cash flows HK\$'000	
Trade and other payables	8,446	-	-	-	8,446	8,446
Bank borrowings	41,638	-	-	-	41,638	41,638
Lease liabilities	1,064	59	-	-	1,123	1,093
	51,148	59	-	-	51,207	51,177

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(c) Foreign currency risk

The Group mainly operates in Hong Kong, Europe and China. During the year ended 31 March 2026, the revenue, costs and expenses of the Group's operations were mainly denominated in Hong Kong dollar, United States dollar, Euro, Romanian Leu ("Lei"), Vietnamese Dong and Renminbi. The Group maintains a prudent strategy in its foreign currency risk management, where possible, foreign exchange risks are minimised via balancing the foreign currency monetary assets versus the corresponding foreign currency liabilities, and foreign currency revenues versus the corresponding foreign currency expenditures. The Group is not subject to foreign currency risk of United States dollar as it is pegged with Hong Kong dollar, the Group is nevertheless exposed to potential foreign currency risk as a result of fluctuations of Euro, Romanian Leu, Vietnamese Dong and Renminbi. The Group is aware of the fluctuation of Euro and will closely monitor its foreign currency exposure and undertake appropriate hedging measures should significant exposure arise. The Group had insignificant foreign currency exposure to fluctuations of Romanian Leu and Renminbi as their weightings to the Group's total transaction volume, assets and liabilities were low.

(d) Interest rate risk

The Group's interest rate risk arises primarily from financial liabilities issued at variable rates and fixed rates that expose the Group to cash flow interest rate risk and fair value interest rate risk respectively. The Group does not expect any changes on interest rate which might materially affect the Group's result of operations. During the year, the Group had not entered into any interest rate swap contracts.

The Group's interest rate profile is set out below:

(i) Interest rate profile

	2026		2025	
	Range of interest rate	HK\$'000	Range of interest rate	HK\$'000
Fixed rate receivables:				
Loan receivables	9% – 12%	29,663	8.5% – 15.0%	36,044
Fixed rate borrowings:				
Lease liabilities	5.32% – 6.02%	(1,565)	5.32%	(1,093)
Variable rate borrowings:				
Advances drawn on bill receivables discounted with full recourse	2.21% – 2.23%	(50,158)	3.7% – 6.7%	(41,638)

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(d) Interest rate risk (continued)

(ii) Sensitivity analysis

At 31 March 2026, it is estimated that a general increase/decrease of 1% in interest rate, with all other variables held constant, would have decreased/increased the Group's profit for the year by approximately HK\$502,000 (2025: increased/decreased the Group's loss for the year by approximately HK\$416,000). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

The sensitivity analysis above has been determined based on the exposure to interest rates for the bank borrowings at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. The 1% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. The analysis was performed on the same basis for the prior year.

(e) Equity price risk

The Group is exposed to equity price risk through its investments in listed equity securities and unlisted fund investments. The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on equity instruments quoted in the Stock Exchange. In addition, the Group has a team to monitor the price risk and will consider hedging the risk exposure should the needs arise.

The Group's unlisted fund investments comprised mainly investments in private equity funds. The Group managed the equity price risk through diversification of investment portfolio. The underlying investments held by these funds include unlisted equity instruments. The fair values of these investments are affected by the market conditions, the overall capital market conditions, as well as the performance of these funds. The investments held in the portfolio may be realised only after several years and their fair values may change significantly.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks at the reporting date.

At 31 March 2026, it is estimated that a general increase/decrease of 1% (2025: 1%) in the fair value of the Group's listed and unlisted equity securities, with all other variables held constant, would have increased/decreased the Group's profit for the year by approximately HK\$1,219,000 (2025: decreased/increased the Group's loss for the year by approximately HK\$557,000).

The sensitivity analysis indicates the instantaneous change in the Group's loss for the year (and accumulated losses) and other components of consolidated equity that would arise assuming that the changes in fair value had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to equity price risk at the end of the reporting period. It is also assumed that all other variables remain constant.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(f) Fair value measurements recognised in the consolidated statement of financial position

(i) *Financial instruments carried at fair value*

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuation: Fair value is measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuation: Fair value is measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuation: Fair value is measured using significant unobservable inputs

The Company's directors are responsible to determine the appropriate valuation techniques and inputs for fair value measurements.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(f) Fair value measurements recognised in the consolidated statement of financial position (continued)

(i) Financial instruments carried at fair value (continued)

Fair value hierarchy (continued)

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group takes reference to the fair value of the financial assets based on the net asset value of the financial assets calculated on the last day of each calendar month and reported by the fund manager or engaged third party qualified valuers to perform the valuation.

	Fair value at 31 March 2026 HK\$'000	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
--	---	---------------------	---------------------	---------------------	-------------------

Recurring fair value measurement

--------	--------	---	---	--------

– Unlisted investment funds

30,018	–	–	30,018	30,018
--------	---	---	--------	--------

During the year ended 31 March 2026, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(f) Fair value measurements recognised in the consolidated statement of financial position (continued)

(i) Financial instruments carried at fair value (continued)

Fair value hierarchy (continued)

Valuation techniques and inputs used in Level 3 fair value measurements

The Group's unlisted financial assets measured at FVPL categorised in Level 3 comprise private equity funds. These private equity funds were managed by unrelated asset managers who applied various investment strategies to accomplish their respective investment objectives. The fair value of the unlisted investment funds is determined with reference to the net asset value reported by the fund managers. The key unobservable input used in the valuation is the net asset value per share. An increase in the net asset value would result in a corresponding increase in the fair value of the investment, and vice versa.

The movements during the years in the balances of fair value measurements under Level 3 of the fair value hierarchy are as follows:

	Unlisted investment funds HK\$'000
At 1 April 2024	–
Purchased	30,018
At 31 March 2025 and 1 April 2025	30,018
Purchased	30,000
Redeemed	(10,344)
Gain on redemption of financial asset at FVPL	344
Disposed	(31,000)
Gain on disposal of financial asset at FVPL	982
Fair value gain on financial asset at FVPL	2,328
At 31 March 2026	22,328

(ii) Fair value of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values at 31 March 2026 and 2025.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

35. PLEDGE OF ASSETS

At 31 March 2026, bill receivables of HK\$50,158,000 (2025: HK\$41,638,000) were pledged to banks to secure advances drawn on the bill receivables.

36. CONTINGENT LIABILITIES

At 31 March 2026, the Group had no significant contingent liability (2025: nil).

37. RELATED PARTY TRANSACTIONS

In addition to the transactions disclosed elsewhere in these consolidated financial statements, the Group had the following transactions with related parties during the year.

(a) Key management personnel remuneration

The key management personnel of the Group included the directors as disclosed in note 10. Details of key management personnel remuneration are summarised below:

	2026 HK\$'000	2025 HK\$'000
Salaries and other short-term employee benefits	1,399	2,368
Post-employment benefits	19	133
	1,418	2,501

(b) Outstanding balances with related parties

(i) Amounts due to non-controlling interests

The amounts due to non-controlling interests disclosed in note 25 are unsecured, interest-free and repayable on demand.

(ii) Amount due from an associate

The outstanding balance represented a loan granted by the Group and respective accrued interest. The amounts are unsecured, annual interest rate of 1.5% and repayable on demand.

(iii) Amount due from related parties

	2026 HK\$'000	2025 HK\$'000
Trade deposit due to a shareholder of the associate	2,145	–

40. INTEREST IN AN ASSOCIATE

	2026
	HK\$'000
Cost of unlisted interest in associate	4
Share of post-acquisition gain and reserves	2
	6

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

40. INTEREST IN AN ASSOCIATE (continued)

On 16 September 2025, Reliance Global Capital Limited ("**Reliance Global Capital**"), a wholly-owned subsidiary of the Company, entered into an agreement (the "**Agreement**") with the AZIO Corporation ("**AZIO**"), HK Chuang Xin Qi Trading Co., Limited ("**HK Chuang Xin Qi**") and Mega Link International Limited ("**Mega Link**"), pursuant to which the parties agreed to develop and operate forestry robotics related business in an associate company (the "**Associate**"). Pursuant to the terms of the Agreement, the total capital commitment of the Associate shall be HK\$150 million, of which Reliance Global Capital, AZIO, HK Chuang Xin Qi and Mega Link shall contribute HK\$60 million, HK\$60 million, HK\$13.5 million and HK\$16.5 million respectively. The Associate will be owned as to 40% by Reliance Global Capital, as to 40% by AZIO, as to 9% by HK Chuang Xin Qi and as to 11% by Mega Link. The capital commitment will be paid in cash by its shareholders in proportion to their respective equity interests in the Associate within 5 years of the establishment of the Associate. Reliance Global Capital is able to exercise significant influence over Associate because it has the power to appoint two out of the five directors of the board of directors of this associate under the Agreement.

Details of the Associate is set out below:

Name	Place of incorporation/ registration and business	Particulars of issued and paid up capital	Proportion of ownership interest			Principal activities
			Group's effective interest	Held by the Company	Held by a subsidiary	
Aivyon Global Technology Limited	Hong Kong	HK\$10,000	40%	–	40%	development and operation in forestry robotics related business

The summarized financial information in respect of the Associate for the year ended 31 March 2026 is set out below:

	2026 HK\$'000
Total assets	3,184
Total liabilities	3,169
Net assets	15
Profit for the year	6
Proportion of the Group's interest	40%
– Net assets attributable to the Group's interest	6
– Profit attributable to the Group's interest	2

Notes to the Consolidated Financial Statements

For the year ended 31 March 2026

41. CAPITAL COMMITMENTS

	2026 HK\$'000	2025 HK\$'000
Contracted but not provided for: Capital contributions to an associate	59,996	–

42. POSSIBLE IMPACT OF NEW AND AMENDMENTS TO IFRS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2026

Up to the date of issue of these financial statements, the IASB has issued a number of new and amendments to IFRS Accounting Standards which are not yet effective for the year ended 31 March 2026 and which have not been adopted in these financial statements.

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ¹
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity ¹
Annual Improvements to IFRS Accounting Standards – Volume 11	Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7 ¹
IFRS 18 and consequential amendments to other IFRSs Accounting Standards	Presentation and Disclosure in Financial Statements ²
IFRS 19 and subsequent amendments	Subsidiaries without Public Accountability: Disclosures ²
Amendments to IAS 21	Translation to a Hyperinflationary Presentation Currency ²
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³

¹ Effective for annual periods beginning on or after 1 January 2026

² Effective for annual periods beginning on or after 1 January 2027

³ Effective for annual periods beginning on or after a date to be determined

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements except for the following:

IFRS 18, Presentation and disclosure in financial statements

IFRS 18 will replace IAS 1 Presentation of financial statements and aims to improve the transparency and comparability of information about an entity's financial statements. IFRS 18 is effective for annual reporting periods beginning on or after 1 January 2027 and is to be applied retrospectively. Among other changes, under IFRS 18, entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to provide specific disclosures about management defined performance measures in a single note in the financial statements. However, it is expected to affect the structure and presentation of the consolidated statement of profit or loss.

Five-Year Financial Summary

RESULTS

		Year ended 31 March
